Schedule 1 CLASSIFICATION OF SERVICE		RATE PER UNIT
Residential, Farm and Non-Farm, Schools & Churches		
<u>Applicable:</u> Entire territory served.		
<u>Availability of Service:</u> Available to customers of the Cooperative located on its lines for service including lighting, incidental appliances, refrigeration, cooking, home heating, and power for motors up to and including seven and one-half horsepower (7½ H.P.); Corporation covering this service.		
<u>Character of Service:</u> Single phase, 60 hertz, at Seller's standard voltages.		
<u>Rates: Monthly</u>		
Customer Charge - No KWH usage		\$6.00
First 300 KWH per month	D	.07451/KWH
Next 700 KWH per month	D	.05961/KWH
All over 1,000 KWH per month	D	.05537/KWH
State and Federal tax will be added to above rate where applicable.		
<u>Minimum Monthly Charge:</u> In no case shall the monthly minimum bill be less than \$6.00 per month.		
<u>Fuel Cost Adjustment:</u> In case the rate under which Seller purchases power at wholesale is adjusted in accordance with a fuel cost adjustment provision billed by Seller's wholesale power supplier, the foregoing energy charges shall be adjusted each month by the amount per KWH of sales by the Seller equal to the dollar amount of the above mentioned charge (plus or minus any adjustment for over or under collection) in the Cooperative's wholesale power cost for the next preceding month. The following formula apply:		
$\text{Adjustment Factor} = \frac{F \pm O}{S}$

Schedule 1 - continued	CLASSIFICATION OF SERVICE	RATE PER UNIT
Residential, Farm and Non-Farm, Schools & Churches		
<p>Where F is the above mentioned fuel charge by the wholesale supplier, less any credit for inter-system power sales, where O is the amount of any overage or shortage of fuel costs billed to revenue collected for the preceding periods; where S is KWH sales in the preceding month, including company use.</p> <p><u>Terms of Payment:</u> The above rates are net, the gross rates being ten percent (10%) higher. In the event the current monthly bill is not paid within ten (10) days from the due date, the gross rates shall apply.</p> <p><u>Multiple Units:</u> Service supplied under rate Schedule 1 is based on service to a single unit at one point of delivery through a single meter. Where the premises consist of two or more units, Schedule 1 may be applied only if separate circuits are provided without cost to the distributor. If it is not practical to provide for separate metering of each unit, the entire premises will be served under the appropriate commercial rate.</p> <p><u>Commercial Use of Portions of Dwellings:</u> The residential rate is not applicable to the space in the dwelling which is regularly used for commercial purposes, such as office, beauty shop, studio, tea room, or store, or for other gainful activities. In such cases, if a separate circuit is provided at no cost to the Distributor, for the portion of the dwelling so used, the residential rate will be applied to the balance of the power requirements and the commercial rate will be applied to the portion of the dwelling used for commercial purposes. If a separate circuit is not provided, the entire power requirements of the premises must be billed under the commercial rate. If the premises are used primarily as a private dwelling and space in the dwelling occasionally used for commercial purposes, such as occasional rentals of surplus rooms, dress making, laundering, etc., the residential rate should be applied to the entire power requirements.</p>

Schedule 1 - continued	CLASSIFICATION OF SERVICE	RATE PER UNIT
Residential, Farm and Non-Farm, Schools & Churches		
<p><u>Domestic Power Use:</u>            A farm on which is located a single dwelling and its appurtenances including barns, domestic servants quarters, and out-buildings, and which processes only its own products, shall be considered a domestic farm and shall be entitled to the residential rate for all of its power requirements including motors up to and including rated capacity of seven and one-half horsepower (7½ H.P.). Motors of capacities larger than seven and one-half horsepower (7½ H.P.) shall not be installed except by written permission of the Cooperative. Service to dwellings other than the main buildings such as tenant houses, etc., must be separately metered and billed under the residential rate. This interpretation is not applicable to commercial dairies as defined below.</p> <p><u>Commercial Farm Use:</u>            1. Farm use shall be metered and billed under the commercial lighting and power rate if other dwellings beside the main dwelling are not separately metered and are served through the same point of delivery, or if products of other farms are processed for sale. The main dwelling and domestic servants quarters may be metered and billed under the residential rate if a separate circuit is provided for all of the other farm uses in cases where products of other farms are processed for sale.</p> <p>2. If a farm customer's barn, pump house or other out-buildings are located at such distances from his residence as to make it impractical to supply service thereto through his residential meter, the separate meter required to measure service to such remotely located buildings will be considered a separate service contract and billed as a separate customer.</p> <p>3. All motors rated above one horsepower (1 H.P.) must be 240 volt motors. All motor installations, fluorescent and other gaseous lighting installations must conform with the Cooperative's power factor correction rule applicable thereto.</p>

<u>Addendum - Underground Service</u>		
<p>The Cooperative will install underground distribution lines to an applicant under the following conditions:</p> <ol style="list-style-type: none"> <li>1. Applicant shall be required to pay to the Cooperative an amount equal to an "estimated average cost differential" if any, between the average or representative cost of underground distribution service and of equivalent overhead distribution service within the utility service areas.</li> <li>2. The Cooperative will construct underground distribution facilities to the service adequate to render single phase 120/240 volt service.</li> <li>3. Three-phase primary mains or feeders required for a service to supply local distribution or to serve individual three-phase loads may be overhead unless underground is required by governmental authorities or chosen by applicant, in either of which case the differential cost of underground shall be borne by the applicant. See Exhibit A.</li> <li>4. Applicant shall grant a right-of-way satisfactory to the Cooperative for the installation, operation and maintenance of its underground facilities.</li> <li>5. Service lines to house shall be installed and ready for inspection at the same time as the residence. Trench is to be left open until inspection has been made.</li> </ol>

6. The applicant shall have the choice of performing all necessary trenching and backfilling in accordance with the Cooperative's specifications or shall pay for such service using the following rates:			
	<u>Secondary Ditch</u>	<u>Primary Ditch</u>	
Opening and closing ditch	45¢ per foot	55¢ per foot	
An additional moving fee shall be charged at the rate of \$25.00 if within 10 miles of the radius of Brandenburg or \$75.00 in excess of 10 miles of the radius of Brandenburg.			
7. The estimated cost differential <u>per foot</u> of conductor is for normal soil conditions and does not include rock removal or road crossing costs. The applicant shall have the choice of performing the necessary rock removal and road crossing or shall pay for such services using the following rates.			
	<u>Rock Removal</u>	<u>Road Crossing</u>	
Three phase primary	\$25.00 per foot	\$75.00 per foot	
Single phase primary	\$21.00 per foot	\$25.00 per foot	
Service or secondary	\$18.00 per foot	\$25.00 per foot	
8. The estimated cost differential <u>per foot</u> of conductor is filed here-with as Exhibit "A".
