RULES AND REGULATIONS

PURCHASED GAS COST ADJUSTMENT CLAUSE

CANCELLED
JUN 01 2013
KENTUCKY PUBLIC
SERVICE COMMISSION

Determination of GCR

Burkesville Gas Company shall file a monthly report with the Commission which shall contain an updated Gas Cost Recovery Rate (GCR) and shall be filed at least thirty (30) days prior to the beginning of each calendar month. The GCR shall become effective for billing for service rendered on or after the first day of each calendar month.

The Gas Cost Recovery Rate is comprised of:

1. The expected gas cost component (EGC) on a dollar-per-Mcf basis, which represents the average expected cost of purchased gas.
2. The Actual Cost Adjustment (ACA), on a dollar-per-Mcf basis, compensates for over-or under-collection of gas cost resulting from differences between expected gas cost and the actual cost of gas. For purposes of determining the GCR, the ACA for the application period shall equal the sum of the ACA for the reporting period and for the one (1) month preceding calendar months.
3. The supplier refund adjustment (RA) on a dollar-per Mcf basis, which reflects the refunds received from suppliers during the reporting period plus interest at a rate equal to one-half of the percent below the average 90-day commercial paper rate for the twelve-month period. In the event of any large or unusual refunds, Burkesville Gas Company may apply to the Public Service Commission for the right to depart from the refund procedure herein set forth.

Billing

The gas cost recovery rate to be applied to bills of customers shall equal the sum of the following components:

$$GCR = EGC + RA + ACA$$

The GCR will be added to or subtracted from the tariff rates prescribed by the Commission Order on Burkesville Gas Company's latest general rate case and will be included in the tariff rates stated on each applicable rate sheet within this tariff.

Definitions

For the purpose of this tariff:

- a. "Average Expected Cost" is the cost of purchased gas which results from the application of supplier rates currently in effect, or reasonably expected to be in effect during the calendar month, on purchased volumes for the most recently available twelve-month period, divided by the corresponding sales volume. In the event that line loss exceeds 5 percent, purchased volumes for the twelve-month period shall be calculated as: sales volumes/.95. Where the calculations require the use of volumes used during a given period, and those volumes did not exist for a particular source for the entire period, or the Company expects the volume to change substantially, Burkesville Gas Company may make appropriate adjustments to its calculations. Any adjustments of this type shall be described in the monthly Gas Cost Recovery Report.
