Re: Electronic Application of Louisville Gas and Electric Company for an Adjustment of its Electric and Gas Rates and Approval of Certain Regulatory and Accounting Treatments Case No. 2025-00114

Dear Mr. Tummonds:

This letter is to notify you that on May 30, 2025, Louisville Gas and Electric Company ("LG&E") filed an application for approval of adjustments to its gas and electric rates, terms, and conditions with the Kentucky Public Service Commission ("Commission"). On October 20, 2025, LG&E filed a Stipulation and Recommendation with the Commission. On February 16, 2026, after evidentiary hearings, the Commission issued an Order approving the Stipulation with modifications. Subsequently, LG&E filed an application for Rehearing. On August 14, 2026, the Commission issued its Final Order on Rehearing, granting reconsideration in part and denying reconsideration in part, and establishing the final rates, terms, and conditions applicable to LG&E's gas service.

LG&E and Kentucky Utilities Company ("KU"), on behalf of their Electric Generation Businesses, receive natural gas sales and transportation service under a special contract for their Mill Creek facilities.

The revisions applicable to gas service under the special contract with service rendered on and after August 14, 2026, are set forth below:

A portion of the special contract for service to the Mill Creek facility incorporates by reference sales service provided under LG&E's Firm Industrial Gas Rate IGS. The Basic Service Charge for the Firm Industrial Gas Rate IGS will increase from $29.69 to $29.71 per day. The special contract for service to the Mill Creek facility will keep its Monthly Sales Customer Charge at $850.00. The Demand Charge will remain at $12.0400 per Mcf, and the Distribution Charge will increase from $0.3428 to $0.3520 per Mcf.
