CLASSIFICATION OF SERVICE: DELAPLAIN SERVICE AREA

Applicable to all customers in the vicinity of the interchange of I-75 and Delaplain Road in Scott County, Kentucky, formerly served by Delaplain Disposal Company.

Residential service is available exclusively to residential dwelling units, and for domestic or residential use only. Residential service is available in the Deer Run, Moonlake Estates, Shuttle Run, and Riffon Meadows subdivisions, all in the vicinity of the interchange.

Non-residential service is available to properties other than residential dwelling units and for any use not exclusively domestic or residential. It is available throughout the former service territory of Delaplain Disposal Company, including in the industrial park and commercial service properties at the interchange of I-75 and Delaplain Road. All non-residential customers are subject to the Industrial/Commercial User Policy (including excess treatment fees) instituted by Delaplain Disposal Company and incorporated into this tariff at Sheets 27 to 59.

RECURRING RATES

Residential Flat Rate per unit \$12.50 per month

Non-residential Rate for commercial/industrial: \$8.89 per 1000 gals.
(non-residential service is metered)

Non-Recurring Charges (applicable to residential and non-residential customers)

Bluegrass Water Utility Operating Company, LLC

SEWER SERVICE in entire service area

RULES AND REGULATIONS

This schedule of Rules and Regulations governs the furnishing of sewage service by the Bluegrass Water Utility Operating Company, LLC (hereinafter referred to as Bluegrass Water UOC) and applies to all service received from Bluegrass Water UOC. All Rules and Regulations are to be in effect so long as they are not in conflict with the rules and regulations of the Public Service Commission. Bluegrass Water UOC is further subject to all Rules and Regulations of the Public Service Commission.

The Rules and Regulations contained in this tariff apply in the service territory of Bluegrass Water UOC (see Tariff Sheet No. 1.2).

The Residential Rules and Regulations (Tariff Sheets 11-26) apply to the furnishing of sewage service by Bluegrass Water UOC (a) for residential users throughout the service territory and (b) for all other users in the service territory other than in the Delaplain service area. They also apply to the furnishing of non-residential service in the Delaplain service area to the extent not inconsistent with, or governed by, a more specific provision in the Industrial/Commercial Rules and Regulations (Tariff Sheets 27-59). (T)

Residential Rules and Regulations

DEFINITIONS

“Customer” shall mean any person, firm, corporation, or municipality that discharges to the Bluegrass Water UOC sewer system pursuant to these Rules and Regulations.

“Company” shall mean Bluegrass Water UOC acting through its officers, managers, or other duly authorized employees or agents.

“Customer’s service line” is the service lateral from the main collection line to the premises served.

“Commission” shall mean the Kentucky Public Service Commission.

“Domestic Waste” means the waste from residential users and from the sanitary conveniences of dwellings, commercial buildings, industrial facilities, and institutions.

Original SHEET NO. 12

Bluegrass Water Utility Operating Company, LLC

SEWER SERVICE in entire service area

“Pretreatment” means the reduction of the amounts of pollutants, the elimination of pollutants, or the alteration of the nature of pollutant properties in wastewater to a less harmful state by application of physical, chemical or biological processes or process changes prior to or in lieu of discharging or otherwise introducing such pollutants into a public sewer.

“Sanitary Sewer” means a sewer which is intended to convey only domestic waste and commercial and industrial wastes not specifically prohibited or restricted by these Regulations.

“Sewer” means a pipe or conduit for conveying wastewater.

“Shall” – is mandatory; “may” is permissive. (T)

“Storm Sewer” means a sewer which is intended to convey only storm waters, surface runoff, street wash waters and drainage, and which is not a part of the wastewater sewer system.

“Treatment Works” means any devices and systems owned by Bluegrass Water UOC in the conveyance, storage, treatment, recycling and reclamation of sewage or liquid industrial wastes including interceptor sewers, outfall sewers, sewage collection systems, pumping, power, and other equipment and appurtenances; extensions, improvements, remodeling, additions and alterations thereof; and any works, including the land that will be an integral part of the treatment process or is used for preventing, abating, reducing, storing, treating, separating or disposing of waste, or industrial waste. (T)

SUBSTANCES NOT TO BE DISCHARGED INTO SEWERS

No substances shall be placed into the sanitary sewer system which will create a combustible, gaseous, explosive or inflammable condition nor shall any substances or objects be placed or discharged into the system which will not dissolve and which will thus cause an obstruction and clogging within the system. No petroleum products shall be placed or discharged into the system. No substance which might be harmful to the sewage treatment process or receiving stream shall be discharged in the system.

No person shall discharge or cause to be discharged any storm water, surface water, and groundwater or roof runoff to any sewer. (T)
(T)

The discharge of any wastewater into the sewer system by any person is unlawful except in compliance with the provisions set forth in this tariff, and any more stringent State or Federal Standards.

Bluegrass Water Utility Operating Company, LLC

SEWER SERVICE in entire service area

GREASE OIL AND SAND TRAPS

Bluegrass Water UOC may require pretreatment for certain types of discharge that could be harmful to the collection and/or treatment system. All restaurants, food service establishments and other commercial oil and grease generators shall provide grease and/or oil interceptor (or trap) for the proper handling of liquid wastes containing floatable grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients. In the maintaining of these interceptors the owner shall be responsible for the proper removal and disposal by appropriate means of the captured material and shall maintain records with the dates and means of disposal. Interceptors or traps will not be required for private living quarters of dwelling units.

All interceptors or traps shall be of a type and capacity approved by the Kentucky Department for Natural Resources and Environmental Protection and Kentucky Department of Housing, Buildings and Construction, and shall be located so as to be readily and easily accessible for cleaning and inspection. They shall be constructed of impervious materials capable of withstanding abrupt and extreme changes in temperatures and shall be of substantial construction, gastight, watertight, and equipped with easily removable covers.

All grease, oil and sand interceptors or traps shall be maintained by the user at his expense, in continuously efficient operation at all times. Bluegrass Water UOC may require an establishment to have interceptors or traps cleaned on a regular basis. Bluegrass Water UOC may reject potentially harmful wastes or may require control over the quantities and rates of discharge.

Approval of proposed facilities or equipment by the Kentucky Department of Natural Resources and Environmental Protection and Kentucky Department of Housing, Buildings and Construction, does not in any way guarantee that these facilities or equipment will function in the manner described by their constructor (T) or manufacturer, nor shall it relieve a person, firm or corporation of the responsibility of enlarging or otherwise modifying such facilities to accomplish the intended purpose.

SERVICE PIPE CONNECTIONS

Bluegrass Water UOC shall install and maintain that portion of the service pipe from the main to the boundary line of the easement, public road, or street, under which such main may be located. Bluegrass Water UOC is not responsible for extending a service main to serve additional properties.

No unauthorized person shall uncover, make any connections with, use, alter, or disturb any public sewer. Illegal or unauthorized connections shall be terminated immediately.

A separate and independent building sewer shall be provided for every structure.

Bluegrass Water Utility Operating Company, LLC

SEWER SERVICE in entire service area

All plumbing work done in connection with Customer service line fixtures connected with Bluegrass Water UOC mains shall be submitted for the inspection by Bluegrass Water UOC before such underground work is covered up. Whenever the Bluegrass Water UOC determines that a job of plumbing is obviously defective, although not in direct violation of these Rules and Regulations, Bluegrass may insist upon its being corrected before the sewer service is accepted.

(D)

The customer shall install and maintain that portion of the service pipe from the end of the Company's portion into the premises served. That portion of the service pipe installed and maintained by the customer shall conform to all reasonable rules of Bluegrass Water UOC. It shall be constructed of materials approved by the sewage utility and installed under the inspection of Bluegrass Water UOC, including but not limited to a sewer line clean out. Prior to tapping on to the sewer system, Bluegrass Water UOC shall be notified, and the appropriate tap-on fee paid.

(T)

|

(T)

(T)

A sewer service pipe shall not be laid in the same trench with a water pipe.

If a governmental agency requires an inspection of the customer's plumbing, Bluegrass Water UOC shall not connect the customer's service pipe until it has received notice from the inspection agency certifying that the customer's plumbing is satisfactory.

If excavation of sewer lines owned by Bluegrass Water UOC becomes necessary, Bluegrass Water UOC will restore the effected property when soil conditions and weather are appropriate. Bluegrass Water UOC shall not be held liable for repairs or restoration associated with repairs for lateral connections on private property. This includes lateral connections under driveways and roads that require service.

PROTECTION BY CONSUMERS

The Consumer shall protect the equipment of Bluegrass Water UOC on his premises and shall not interfere with Bluegrass Water UOC's property or permit interference except by duly authorized representatives of Bluegrass Water UOC.

NOTICE OF TROUBLE

The Consumer shall give immediate notice to Bluegrass Water UOC of any irregularities, any known defects, or unsatisfactory service.

MAINTENANCE

Bluegrass Water UOC may at any time deemed necessary suspend sewer service to any consumer or consumers for the purpose of making repairs, changes, or improvements upon any part of its systems. Bluegrass Water UOC shall give reasonable notice of such suspension of service to the customer(s).

CONNECTIONS

Bluegrass Water UOC will consider a request to connect to an existing serviceable main as a normal connection. The charge, if any, for a connection qualifying under this description shall be as set forth in the NON-RECURRING CHARGES section for that part of the service area. (T)
(T)

Reconnection: A Customer disconnected due to non-payment of tariff charges or non-compliance with tariff rules or Commission regulations, will be required to pay a reconnection fee, if any, set forth as a NON-RECURRING CHARGE in the applicable tariff sheet for the classification of service, in addition to any unpaid past-due balance before service is restored. (T)
(T)

Field Collection Fee: This fee is assessed when Bluegrass Water UOC's representative makes a trip to the premises of a customer for the purpose of terminating service. The fee will be assessed in the amount or at the rate set forth in the applicable NON-RECURRING CHARGES tariff sheet for the classification of service, if: (a) Bluegrass Water UOC's representative actually terminates service, (b) in the course of the trip, the customer pays the delinquent bill to avoid termination; or (c) Bluegrass Water UOC's representative agrees to delay termination based on the customer's agreement to pay the delinquent bill on a specific date. This fee is assessed no more than once during a billing cycle. (N)

Other Connections: A developer of an undeveloped area within Bluegrass Water UOC's service area shall be charged the full cost of installation. (N)

LINE RELOCATION

When necessary to move or relocate facilities, the cost will be paid by the party or parties requesting such relocation.

EASEMENTS

The customer shall not place structures of any kind or personal property on recorded easements. Any structure or property violating this provision shall be removed at the owner's expense

Bluegrass Water Utility Operating Company, LLC

SEWER SERVICE in entire service area

DISCONTINUANCE OF SERVICE

(T)

Bluegrass Water UOC may refuse or terminate service for noncompliance with its tariff rules or commission regulations after having made a reasonable effort to obtain customer compliance. Said customer will be given at least ten (10) days written notice prior to termination. Bluegrass Water UOC will notify the customer in writing of the reasons for termination or refusal. The notice will be recorded along with the corrective action to be taken by the customer or Bluegrass Water UOC before service is restored or provided.

If a dangerous condition is found to exist service may be terminated without notice.

In the event that an illegal or improper connection is discovered, Bluegrass Water UOC shall take immediate steps to sever the connection in question. This includes those connections discovered during smoke testing and camera inspection of lines that are deemed illegal or improper and allow Inflow/Infiltration of water to the sewer system. A photograph of the connection and an explanation of the condition will be given by Bluegrass Water UOC either by mail or directly. Bluegrass Water UOC may terminate service for nonpayment of tariff charges after a five (5) day written notice of intent to terminate. Service will not be terminated before twenty (20) days after the mailing date of the original bill. If a medical certificate is presented service will not be terminated for thirty (30) days beyond the termination date.

When payments are delinquent Bluegrass Water UOC may file a complaint in court. Bluegrass Water UOC may request that all court costs be included in any judgment amount awarded to Bluegrass Water UOC. Bluegrass Water UOC may refer any delinquent accounts to a collection agency.

BILLING, COLLECTION AND PENALTIES

Billing for sewage service furnished by the sewer system shall be made by Bluegrass Water UOC on a monthly basis, bills are mailed the first week of each month and become due the last business day of each month. A late payment penalty will be assessed after the due date in the amount or at the rate set forth in the applicable NON-RECURRING CHARGES tariff sheet for the classification of service.

(T)
|
(T)

Failure to receive bill does not excuse payment.

DEPOSITS

At this time, Bluegrass Water UOC does not require a deposit for new sewer customers

Bluegrass Water Utility Operating Company, LLC

SEWER SERVICE in entire service area

Industrial/Commercial Rules and Regulations

1.0 PURPOSE

This Policy sets forth uniform requirements for existing and future industrial/commercial Users who discharge directly or indirectly into the wastewater collection and treatment system ("System") of Bluegrass Water UOC ("Utility"), formerly that of Delaplain Disposal Company. This Policy is designed to ensure that Users take no action which would prevent the Utility from complying with the requirements of the Commonwealth of Kentucky's Division of Water of the Natural Resources and Environmental Protection Cabinet ("DOW").

2.0 OBJECTIVES

The objectives of this Policy are to: (1) prevent the introduction of pollutants or materials into the wastewater system that interfere with the System's operation, contaminate the resulting sludge, pass through the System into the receiving waters or the atmosphere, or otherwise are incompatible with the System ; (2) improve the opportunity to recycle and reclaim wastewater and sludge; and (3) ensure equitable distribution of the cost of the treatment and collection system.

3.0 POLICY

All Users are subject to this Policy and shall comply with its terms and those of approved Operating Agreements ("Operating Agreements") between Users and the Utility. Where a conflict between the terms of this Policy and an Operating Agreement occurs, the terms of this Policy shall control.

Users shall arrange and shall cause to be performed any required analyses. A laboratory approved by the Utility shall perform all analyses. Users shall bear all costs associated with these analyses. The Utility may conduct sampling and analysis of a User's effluent discharges at its discretion. This Policy shall be administered and enforced for the Utility by a registered professional engineer or appropriately certified wastewater treatment plant operator experienced in wastewater and sewer regulation and management.

Bluegrass Water Utility Operating Company, LLC

SEWER SERVICE in entire service area

4.0 SEWER USE

Within 30 days from the effective date of this Policy, each existing User shall submit to the Utility a completed User Information Form. Within 30 days of the Utility's receipt of the User Information Form, the Utility and the User shall enter an Operating Agreement incorporating the requirements of this Policy. Users failing to enter such an Operating Agreement within 60 days of the Policy ' s effective date are subject to termination of service and disconnection from the System.

No prospective User shall connect to or use any existing connection of the system before submitting a completed User Information Form to the Utility and entering an Operating Agreement with the Utility.

The Utility may assess to any User who violates any provision of this Policy or its Agreement a charge equal to the amount of damage to the System or costs incurred by the Utility that result from the violation. Such costs may include, but are not limited to, civil or criminal penalties assessed to the Utility as a result of the User's violation and attorney's fees and other costs incurred in civil and criminal proceedings resulting from the User's violation. The Utility may, at its discretion, also terminate a User's service for violations of this Policy.

Users who discharge only domestic or "restroom waste" into the System shall complete the applicable portions of the User Information Form set forth at section 9.1 and execute the Operating Agreement set forth at Section 10.1 of this policy.

All other Users shall complete and submit the User Information Form set forth at Section 9.1 in its entirety and shall execute the Operating Agreement set forth at Section 10.2. This Operating Agreement shall be tailored to the User's discharge activity and shall enable the Utility to comply with its Kentucky Pollutant Discharge Elimination System Permit ("KPDES Permit").

No User shall place, deposit, or permit to be deposited into the System any wastewater containing or having:

- any storm water, ground water, roof run-off, subsurface drainage, or cooling water.
- a temperature higher than 104 degrees F.
- any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquids, solids, or gases; and in no case any pollutant with a closed cup flashpoint of **KENTUCKY 140**

degrees F., or which causes the System to exceed 10 percent of the lower explosive limit at any point.

- any garbage that has not been ground by suitable garbage grinders.
- any ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastic, wood, manure, or any other solids or viscous substances capable of causing obstructions or other interferences with proper operation of the System.
- toxic or poisonous substances in sufficient quantity to injure or interfere with any wastewater treatment process, to constitute hazards to humans or animals, or to create any hazard in waters which receive treated effluent from the System.
- noxious or malodorous gases or substances capable of creating a public nuisance including pollutants which result in the presence of toxic gases, vapors, or fumes.
- solids of a character or quantity that require special and unusual attention for their handling.
- any substance which may affect System effluent and cause the Utility to violate the requirements of its Permit.
- any substance which would cause the System to fail to comply with sludge use, recycling, or disposal guidelines or regulations issued pursuant to the federal laws governing air or water quality, the Toxic Substances Act, or any applicable enactment of the Commonwealth of Kentucky.
- color which is not removed in the treatment process.
- medical or infectious wastes, radioactive waste or isotopes, or any pollutant, including BOD pollutants, released at a flow rate or concentration which would interfere with operation of the System.

The Utility may, at reasonable times, inspect the interior or exterior of any building connected or to be connected to the System, inspect and copy appropriate records, and inspect and test sampling equipment. The Utility may, at any reasonable time, perform smoke test on or test the discharges of any facility connecting a building to the System.

5.0 USER MANAGEMENT REQUIREMENTS

5.1 Change in Discharge

Users shall at all times comply with Operating Agreements. No facility expansion, production increase, or process modification that will cause a new, different, or increased discharge into the System may be implemented without the Utility's prior approval and until the execution of a

written amendment to the User's existing Operating Agreement. Requests for modification of an Operating Agreement must be submitted in writing to the Utility not less than 90 days prior to the User's proposed implementation date. No facility expansion, production increase, or process modification shall be approved that causes a discharge that would cause the Utility to violate its KPDES Permit.

5.2 Non-Compliance Notification

Upon learning that it is not complying with its Operating Agreement or that an unavoidable event will prevent its compliance with its Operating Agreement, the User shall immediately notify the Utility of:

- the nature and cause of the non-complying discharge;
- the time when the non-complying discharge began or is expected to begin and its duration; and
- the steps taken by the User to achieve compliance and prevent a recurrence of the non-complying discharge.

If the User learns of its failure to comply as a result of sampling and analysis, it shall repeat the sampling and analysis within 24 hours of learning of its failure to comply and immediately provide to the utility the results of the second sampling and analysis.

5.3 Termination of Service

After a reasonable attempt to obtain compliance, the Utility may terminate service for:

- Discharges not permitted by the User's Agreement or in excess of those permitted, upon ten days written termination notice;
- Falsification of reports, upon ten days written termination notice;
- Unapproved modification of sampling equipment or methods, upon ten days written termination notice;
- (For customers discharging only domestic or "restroom waste") Refusal to allow the Utility timely access to the User's premises, upon ten days written termination notice;
- (For customers discharging wastes other than domestic or "restroom waste") Refusal to allow the Utility timely access to the User's premises, upon two days written termination notice;

- Any discharge which presents a hazard to public health and safety, the welfare of the local environment, or the System, without advance notice.

6.0 OPERATING AGREEMENTS

6.1 Transferability

No Operating Agreement may be transferred without the Utility's prior written approval. No approval will be granted by the Utility unless the transferee has agreed in writing to be bound by the terms of the transferred Agreement.

6.2 Modification

Upon 30 days' notice to Users and to the Commission, the Utility may modify or amend existing Operating Agreements to impose additional restrictions, conditions, prohibitions, or monitoring requirements upon Users as may be required of the Utility by DOW as a condition for maintaining or renewing its KPDES Permit.

7.0 MONITORING AND REPORTING

7.1 Representative Samples

Samples shall be representative of the volume and nature of the monitored discharge.

7.2 Reporting

Unless otherwise provided in its Agreement, Users shall submit to the Utility by the 15th of each month. Use monitoring reports for the preceding month. A completed "Self-monitoring Report Form", as set forth in Section 11.1 of this Policy, shall be filed for each sample taken. Users shall submit with the User monitoring reports a completed "Chain of Custody Form", as set forth in Section 11.2 of this policy, for each sample taken.

7.3 Integrity of Samples

Samples shall be collected, handled, and preserved using methods approved by the U. S. Environmental Protection Agency ("EPA") and shall be analyzed by a Utility ~~approved~~ **KENTUCKY**

laboratory according to methods contained in Title 40, Code of Federal Regulations, Part 136, or otherwise approved by the EPA ("EPA approved procedures").

7.4 Chain of Custody

Sample containers shall be labeled at the time of collection and the following information shall be affixed to the label with waterproof ink: sample number, name of collector, and the date, time, and place of collection. The User shall maintain a field log with all information required for the label and the name of the user, location of sampling point, and type of sample. A Chain-of-Custody form containing all information recorded in the field log plus the signature of all persons who have had custody of the sample and the dates of possession shall accompany each sample that is provided to the laboratory. The format of the Chain-of-Custody form is set forth at Section 11.2 of this Policy.

7.5 Record Retention

Users shall maintain records of all monitoring information, including all calibration and maintenance records and all original chart recordings for continuous monitoring instruments, and copies of all reports required by this policy, for at least three years from creation of the record.

7.6 Definitions

- Composite Sample when performed automatically by mechanical instrument shall mean a sample that is collected over time, formed either by continuous sampling or by mixing discrete samples. The sample may be either a time composite sample (composed of discrete sample aliquots collected in one container at constant time intervals providing representative samples irrespective of stream flow) of a flow proportional sample (collected either as a constant sample volume at time intervals proportional to stream flow, or collected by increasing the volume of each aliquot as the flow increases while maintaining a constant time interval between aliquots). Composite samples taken manually shall be comprised of no fewer than four samples of equal volume collected over an eight hour period at intervals proportionate to discharge flow, or a sample portion collected continuously over a 24 hour period at a rate proportional to the discharge flow. Methods for composite sampling must be approved in advance by the Utility.
- Biochemical Oxygen Demand (BOD or BOD-5) shall mean the measure of decomposable organic matter in wastewater as represented by the oxygen used during a period of five days at 20 degrees C, as determined by EPA approved procedures.

- Total Suspended Solids (TSS) shall mean the insoluble solid matter suspended in wastewater that is separable by laboratory filtration according to EPA approved procedures.
- Oil and Grease (Total) shall mean all vegetable and animal matter, hydrocarbons, waxes, oils, gasoline, heavy fuel, or lubricating oils as determined according to EPA approved procedures.
- Daily Maximum shall mean the maximum allowable discharge of a pollutant during a calendar day. Where daily maximum limitations are expressed in units of mass, the daily discharge is the total mass discharged over the course of the day. Where daily maximum limitations are expressed in terms of concentration, the daily discharge is the arithmetic average measurement of the pollutant concentration derived from all measurements taken that day.
- Grab Sample shall mean an individual sample collected in less than 15 minutes, without regard for flow or time.
- Instantaneous Maximum Concentration shall mean the maximum concentration allowed in any single grab sample.
- Cooling Water, Uncontaminated, shall mean water used for cooling purposes only which has no direct contact with any raw material, intermediate, or final product and which does not contain a level of contaminants detectably higher than that of the intake water.
- Cooling Water, Contaminated, shall mean water used for cooling purposes only which may become contaminated either through the use of water treatment chemicals used as corrosion inhibitors or biocides, or by direct contact with process materials or wastewater.
- Monthly Average shall mean the arithmetic mean of the values for effluent samples collected during a calendar month or specified 30 day period.
- Weekly Average shall mean the arithmetic mean of the values for effluent samples collected over a period of seven consecutive days.
- Bi-Weekly shall mean once every other week.
- Bi-Monthly shall mean once every other month.
- Quarterly shall mean once every three months.
- By-Pass shall mean the intentional diversion of wastes from any portion of the treatment facility.

Sewer Size	Descriptive Location of Sewer Connection or Discharge Point	Average Flow (GPD)

5.0 WASTEWATER DISCHARGE INFORMATION:

5.1 Does (or will) this facility discharge any wastewater other than from restrooms to the sewer system?

() Yes (Complete the remainder of this application.)

() No (Skip to Section 9.)

5.2 Provide the following information on wastewater flow rate: (New facilities may estimate)

Hours/Day Discharge (e.g., 8 hours/day)

M _____ T _____ W _____ TH _____ F _____ SAT _____ SUN _____

Hours of Discharge (e.g., 9 a.m. to 5 p.m.)

M _____ T _____ W _____ TH _____ F _____ SAT _____ SUN _____

Peak Hourly Flow Rate (Gals) _____ Maximum Daily Flow Rate (Gals) _____

Annual Daily Average (Gals) _____

5.3 If batch discharges occurs or will occur, indicate: (New facilities may estimate)

Number of batch discharges, _____ per day

Average discharge per batch, _____ (Gals)

Time of batch discharges, _____, (days of week) at _____ (hours of day)

Flow Rate, _____ gallons/minute, Percent of total discharge _____ %

Original SHEET NO. 40

CANCELLING PSC KY NO. _____

_____ SHEET NO. _____

Bluegrass Water Utility Operating Company, LLC

SEWER SERVICE in entire service area

5.4 *Schematic Flow Diagram - For each major activity in which wastewater is or will be generated, draw a diagram of the flow of material, products, water, and wastewater from the start of the activity to its completion, showing all unit processes. Indicate which processes use water and which generate wastestreams. Include the average daily volume and maximum daily volume of each wastestream (new facilities may estimate). If estimates are used for flow data, this must be indicated. Number each unit process having wastewater discharges to the sewer. Use these numbers when showing the unit processes in the building layout in Section 8. This drawing must be certified by a Kentucky Registered Professional Engineer.*

Facilities that checked activities in question 2.1 of Section 2 are considered Categorical Industrial Users and should skip to Section 5.6.

5.5 *For Non-categorical Users Only: List average wastewater discharge, maximum discharge, and type of discharge (batch, continuous or both), for each plant process. Include the reference number from the process schematic that corresponds to each process. (New facilities should provide estimates for each discharge).*

No.	Process Description	Average Flow (GPD)	Maximum Flow (GPD)	Type of Discharge (batch, Contin., None)
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____

Answer questions 5.6 and 5.7 only if you are subject to categorical pretreatment standards

5.6 *For Categorical Users: Provide the wastewater discharge flows for each of your processes or proposed processes. Include the reference number from the process schematic that corresponds to each process. (New facilities should provide estimates for each discharge).*

No.	Regulated Process	Average Flow (GPD)	Maximum Flow (GPD)	Type of Discharge (batch, Contin., None)

5.7 For Categorical Users subject to Total Toxic Organic (TTO) Requirements: Provide the following ITO information.

Does (or will) this facility use any of the toxic organics that are listed under the TTO standard of the applicable categorical pretreatment standards published by the EPA?

Yes No

Has the baseline monitoring report (BMR) been submitted which contains the ITO information?

Yes No

Has a toxic organic management plan (TOMP) been developed?

Yes, (Please attach a copy) No

5.8 Do you have, or plan to have, automatic sampling equipment or continuous wastewater flow metering equipment at this facility?

Current: Flow Metering Yes No
 Sampling Equipment Yes No
 Planned: Flow Metering Yes No
 Sampling Equipment Yes No

If so, please indicate the present or future location of this equipment on the sewer schematic and describe the equipment below:

5.9 Are any process changes or expansions planned during the next three years that could alter wastewater volumes or characteristics? Consider production processes as well as air or water pollution treatment processes that may affect the discharge.

SEWER SERVICE in entire service area

() Yes () No, (skip question 5.10)

5.10 Briefly describe these changes and their effects on the wastewater volume and characteristics: (Attach additional sheets if needed.)

6.0 CHARACTERISTICS OF DISCHARGE

All current industrial/commercial users are required to submit monitoring data on all pollutants that are regulated specific to each process. Use the table at the end of this section to report the analysis of the analytical results. Do Not Leave Blanks. For all other (non-regulated) pollutants, indicate whether the pollutant is known to be present (P), suspected to be present (S), or known not to be present (0), by placing the appropriate letter in the column for average reported values. Indicate on either the top of each table, or on a separate sheet, if necessary, the sample location and type of analysis used. Be sure methods conform to 40 CPR Part 136. If they do not, indicate what method was used.

New users should use the table to indicate what pollutants will be present or are suspected to be present in proposed wastestreams by placing a P (expected to be present), S (may be present), or O (will not be present) under the average reported values.

7.0 TREATMENT

7.1 Is any form of wastewater treatment (see list below) practiced at this facility?

() Yes () No

7.2 Is any form of wastewater treatment (or changes to an existing wastewater treatment planned for this facility within the next three years?

() Yes () No

7.3 Treatment devices or processes used or proposed for treating wastewater or sludge (check as many as appropriate).

- () Air Flotation*
- () Chemical precipitation*
- () Cyclone*
- () Flow Equalization*
- () Grease Trap*
- () Centrifuge*
- () Chlorination*
- () Filtration*
- () Grease or Oil Separation, Type _____*

10.0 FORM OPERATING AGREEMENTS

10.1 Operating Agreement for Users whose discharge into the System is limited to **domestic or "restroom wastes."**

OPERATING AGREEMENT

This Agreement is entered between Bluegrass Water UOC (the Utility), and

USER: NAME: _____

ADDRESS: _____

TELEPHONE NUMBER: _____

FAX NUMBER: _____

In consideration of the services rendered by the Utility, User agrees to be bound by the provisions of the Utility's tariff on file with the Kentucky Public Service Commission and further agrees that it will not place, deposit, or suffer to be deposited any wastes other than domestic or "restroom wastes" into the Utility's system through any connection to the system from property it uses, rents, owns, or controls.

User specifically acknowledges that placing, depositing, or suffering to be deposited any waste other than domestic or "restroom wastes" in the Utility's system by it or any persons under its control is a violation of the rules and regulations of the Utility for which the Utility may disconnect User's sewer service and recover any damages from User which the Utility may incur as a result of User's violation, including but not limited to any fines or penalties for which Utility may become liable to the Commonwealth of Kentucky, Division of Water of the Natural Resources and Environmental Protection Cabinet, under Utility's Kentucky Pollution Discharge Elimination System Permit.

This Agreement is effective as of the date of the last signature.

10.2 Operating Agreements for Users who are or will be placing, depositing, or suffering to be deposited wastes **other than domestic or "restroom wastes."**

OPERATING AGREEMENT

This Agreement is entered between Bluegrass Water UOC (the Utility), and

USER: NAME: _____

ADDRESS: _____

TELEPHONE NUMBER: _____

FAX NUMBER: _____

In consideration of the services rendered by the Utility, User agrees to be bound by the provisions of the Utility's tariff on file with the Kentucky Public Service Commission.

1. User acknowledges that a violation of the Utility's Industrial/ Commercial User Policy as contained in the Utility's tariff permits the Utility to disconnect User's sewer service and recover any damages from User which the Utility may incur as a result of User's violation , including but not limited to any fines or penalties for which Utility may become liable to the Commonwealth of Kentucky or the United States of America.

2. User is authorized to discharge into the System at the following discharge point(s):

3. User shall not exceed the discharge limits set forth in Section 7.0 of the Industrial/Commercial User Policy.

4. User shall monitor the following parameters at the indicated frequency using the indicated sampling method, at the location where the waste stream first enters the Utility's System, as shown on the description required by Section 8. 7 of the User Information Reports of monitoring and analysis shall be submitted to the Utility as provided in Section 6.2 of the policy.

5. Pursuant to Section 5.2 of the policy, the Utility may, upon 30 days notice to Users and to the Commission, impose such additional restrictions, conditions, prohibitions, or monitoring requirements upon User as may be required of the Utility by DOW as a condition for maintaining or renewing its Permit. User further agrees to accept such other modifications proposed by Utility as are required of User or the Utility by local, state or federal law or regulation.

6. User acknowledges its duty to take all reasonable steps to minimize or correct any adverse impact to the System or the environment resulting from its failure to comply with this Agreement and the Utility's tariff including but not limited to additional or accelerated monitoring as may be necessary to determine the nature and impact of the non-complying discharge.

7. User shall not increase the use of potable or process water or, in any way, attempt to dilute an effluent or discharge as a partial or complete substitute for adequate treatment to achieve compliance with the limitations contained in this Agreement and the Utility's tariff.

8. User shall not by-pass the System unless it is unavoidable to prevent loss of life, personal injury, or severe damage.

9. User shall maintain and operate all facilities and equipment for the treatment and control of wastewater which are installed or used to comply with the policy and this Agreement. If User's facilities or and/or equipment for the treatment of wastewater fails or suffers a reduction in capacity, or if the Utility's system fails, User shall reduce or stop its discharge into the System as necessary until its facilities or equipment or the System is repaired and capable of treating wastewater in compliance with this policy and the Utility's Kentucky Pollutant Discharge Elimination System Permit ("KP DES Permit 'J).

10. User shall dispose of all solids, sludges, backwash, or other pollutants removed in the course of treatment or control of wastewaters in accordance with the Clean Water Act, the Clean Air Act, the Resources Conservation and Recovery Act, and KRS Chapter 224.

11. User shall routinely calibrate, inspect, and maintain all equipment used for sampling and analysis of wastewater. Equipment used for sampling and analysis shall be capable of measuring flows with a maximum deviation of less than 10 percent from true discharge rates throughout the range of expected discharge volumes.

12. User shall include the results of all monitoring done in excess of the requirements of the policy and this Agreement in its monthly reports to the Utility.

13. All reports submitted to the Utility shall contain the following certification and be signed by an authorized representative of user:

I hereby swear under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted, is to the best of my knowledge and belief true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including immediate termination of service and the possibility of fines and criminal penalties for knowing violations. "

12.0 EXCESS TREATMENT FEE

Users exceeding the discharge limits for BOD, TSS, or Ammonia Nitrogen set forth in Section 7.0 of this policy must obtain the prior Utility approval before making such discharges and shall pay an excess treatment fee in addition to other specified charges. In no event shall a User's 24-Hour Maximum Daily Concentration (mg/l) exceed 400 mg/L for BOD, 400 mg/l for TSS, or 100 mg/L for Ammonia Nitrogen.

Excess treatment fees shall be as follows:

BOD	\$1.78 per pound in excess of Section 7.0 discharge limit
TSS	\$1.78 per pound in excess of Section 7.0 discharge limit
Ammonia Nitrogen	\$8.36 per pound in excess of Section 7.0 discharge limit
