5. BASIC LOCAL EXCHANGE SERVICE (Cont'd)

5.1 Exchange Service

The Company provides one-party service throughout its service area.

5.1.1 Description of Service

Local Exchange Service provides a Customer with a telephonic connection to, and a unique telephone number address on the public switched telecommunications network. Each Exchange Access Service is available on a "Full" service basis, whereby service is delivered to a demarcation/connection block ("protector") at the Customer's premises.

Each Exchange Access Service enables users to:

- 1 Receive calls from other stations on the public switched telecommunications network;
- 2 Access other services offered by the Company as set forth in this tariff;
- 3 Access (at no additional charge) the Company's operators and business office for service related assistance;
- 4 Access (at no additional charge) emergency services by dialing 0- or 9-1-1; and
- 5 Access services provided by other common carriers that purchase the Company's Switched Access services as provided under the Company's Federal and State tariffs, or that maintain other types of traffic exchange arrangements with the Company.

5.1.2 Area of Operations

The Company provides its competitive service throughout the operating areas of Kentucky subject to the availability of facilities and equipment. (C)

Issue Date: May 19, 2011

Effective Date: May 20, 2011

Issued By: Paul D. Gearheart, Vice-President

5. BASIC LOCAL EXCHANGE SERVICE (Cont'd)

5.2 Local Calling Areas

5.2.1 General

The rates in this Tariff entitle callers to receive local calling (i.e., toll-free) to the areas included as being within the local calling area. Calls to areas not listed as local will be subject to applicable long distance charges by the long distance provider.

5.2.2 Local Calling Exchanges

The Company concurs with the local calling areas established by GTE and BellSouth Telephone Companies in their respective serving areas unless otherwise indicated here.

5.5 Talk Exchange Line Service

5.5.1 General

1. Talk Exchange Line Service provides the features specified following and a flat rate residential access line. The access line includes calling Touch-Tone capability.
2. The rate specified herein entitles a residence subscriber to unlimited calling to all exchange access lines within the subscriber's exchange and the Limited Local Calling Area as defined elsewhere in this Tariff.
3. The rate specified herein also entitles a residence subscriber to unlimited use of the following services/features:
 - Custom Calling Services
 - CLASS Service excluding Permanent Calling Number Delivery Blocking
 - Customized Code Restriction
 - Distinctive Ring service
 - Message Waiting Indication

A subscriber may select an unlimited number of compatible services or features from the sections listed above. All rules, regulations and limitations specified in the sections listed (except as indicated above) apply to the respective services/features requested as part of this service.

4. Rates and Charges contained elsewhere in this tariff apply.
5. Customers who select Company-provided long distance services will be automatically "PIC-frozen" to the Company's affiliated long distance service.

6. DIRECTORY LISTINGS

6.1 Regulations

1. The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory. Listings are intended solely for the purpose of identifying subscriber's telephone numbers and as an aid to the use of telephone service.
2. The Telephone Company will furnish to its subscribers, without charge, one directory per access line or as it deems necessary for the efficient use of the service. Other directories will be furnished at the discretion of the Company at a reasonable charge.
3. The Telephone Company shall have the right to make a charge for subsequent directories issued in replacement of directories destroyed, defaced, or mutilated while in the possession of the subscriber.
4. The listing of subscribers either without charge or at the rate specified herein for additional listings in the alphabetical section of the directory does not contemplate special prominence of arrangement. The Company bears no responsibility in any dispute that may arise as a result of the publication of such listings in its directories.
5. Listings must conform to the Company's specifications with respect to its directories. The Company reserves the right to reject listings when in its judgement such listings would tend to delay or impede the use of the service.
6. The Company reserves the right to limit the length of any listing to one line in the directory by use of abbreviations when in its sole judgement the clearness of the listing and the identification of the subscriber is not impaired thereby.

6. DIRECTORY LISTINGS (Cont'd)

6.1 Regulations (Cont'd)

7. Listings are regularly provided in connection with all classes of exchange service except public telephone service. A listing may be omitted from the directory upon request of a customer under the conditions specified in this tariff.
8. Street numbers, followed by the names of streets, will be used in identifying the location of the subscriber except when in the judgement of the Company names of buildings, apartment houses or communities serve as a better means of identification. Corner addresses will be used only where the street number is not available. The use of floor, room or suite numbers of buildings or apartment houses, or other such designation is not permitted.
9. Listings are not provided in connection with public telephone service except when the lists will facilitate the operations of the Company. No additional listings are permitted. Listings of Exchange Access Line Service used for the provision of Pay Telephone Service are pursuant to rules, regulations and charges for business listings.
10. If in the judgement of the Company, additional listings are warranted for better identification of the subscriber or governmental offices, such listings may be provided without charge.

6. DIRECTORY LISTINGS (Cont'd)

6.1 Regulations (Cont'd)

11. Whenever any question arises to the authorization of a subscriber to list the name of a business or to use a listing which includes the trade name of another business, the Company, at its discretion, may require the subscriber to provide proof of such authorization. Such proof may include, but is not limited to, written authorization from the owner of such name addressed to the Company specifically to permit the listing requested by the subscriber. The Company may refuse or delete a listing when the owner either does not provide appropriate written authorization or withdraws previous authorization in a written letter to the Company.
12. The length of contract period for directory listings, where the listing actually appears in the directory, is the directory period. The directory period is from the day the directory is published to the day the succeeding directory is published. When the listing appears in information records only, the period is one month.

6.2 Primary Listings

A primary listing is provided without charge as follows for each separate subscriber service. When two or more main station lines or PBX trunk lines are consecutively operated, the first number of the group is considered the primary listing. When two or more access lines are not consecutively assigned, a primary listing may be made for each line.

6. DIRECTORY LISTINGS (Cont'd)

6.3 Unlisted Number Service

Unlisted number service is the withholding of a customer's listing from the printed telephone directory. The number may be obtained from the directory assistance operator.

6.4 Non-Published Number Service

1. Non-published number service is the withholding of a customer's listing from both the telephone directory and directory assistance records. Subscribers requesting such arrangements agree to hold the Company harmless from any damages that might result from the non-published listing including the failure to receive calls.
2. The Company is not liable for damages resulting from the inadvertent publication of a non-published number in a telephone directory or for refusing to disclose a non-published number to any party.
3. Non-published service does not preclude the Company from supplying the customer's name, address and telephone number to the E911 / 911 service administrator.

6.6 Residence Listings

Residence names in the directory listings shall be limited to the following:

1. The individual name of subscriber, or
2. The individual name of a member of the subscriber's family or joint user.

6.7 Regular Additional Listings

1. Business additional listing may include the following:
 - (a) the names of partners or members of a firm if the subscriber or joint user is a partnership of the firm;
 - (b) the names of officers of the corporation, if the subscriber or joint user is a corporation; and for any business establishment;
 - (c) the names of associates or employees of the subscriber or joint user.

No other class of listing, such as service agency commodity, etc., will be accepted.

2. Residence additional listings may be the names of members of the subscriber's family or other persons residing in the customer's household as part of the family unit.
3. Additional listings that are designed to give publicity to a commodity or service are not accepted.

6. DIRECTORY LISTINGS (Cont'd)

6.8 Special Types of Additional Listings

6.8.1 Duplicate and Cross Reference Listings

Duplicate listings, i.e., listings of nicknames, abbreviated names which are commonly spelled in more than one way, and rearrangement of names, are permitted when, in the opinion of the Company, they are necessary for the proper identification of a subscriber. The Company will not permit such listings for purposes of securing a preferential position in the directory or for advertising purposes. Duplicate and Cross Reference Listings will be provided at the Regular Additional Listing rate.

6.8.2 Alternate Call Number Listings

The listing of an alternative number to be called in case no answer is received is permitted for customers in all classes of service. The consent of the subscriber to the alternately listed service must be obtained before the alternate listing is furnished. Alternate Call Number Listings will be provided at the Regular Additional Listing rate.

6.8.3 Foreign Exchange Listings

Foreign Exchange Listings, i.e., listings of subscribers located in an exchange other than in which the listed service is furnished, are permitted subject to the terms of this Tariff for listing services. The foreign company listing charge will apply for each foreign listing in the Company's directory.

6.8 Special Types of Additional Listings (Cont'd)

6.8.4 Temporary Listings

Residence subscriber who lease their premises for period of less than one year and request the Company to render service to their tenant without change in contract, may arrange for listing of such tenant provided that the subscriber and the tenant do not occupy the premises at the same time. All billing and contractual arrangements remain unchanged and the subscriber is responsible for the payment for all charges. Temporary listings will be provided at the Regular Additional Listing rate.

6.8.5 Office Hour Listings

Listing of office hours or other information which is not required in order to efficiently handle telephone traffic, is not included in the charges for service. Subscribers wishing to include office hours in connection with their listings may do so at the Regular Additional Listing rate.

6.8.6 Night Connection

A phrase directing the method of calling when a PBX operator is not on duty may be listed in the directory at Regular Additional Listing rates whenever night connections are provided.

7.1 Touch-Tone / Pushbutton Telephone Service

7.1.1 General

1. Pushbutton Telephone Service provides for the origination of telephone calls through the use of pushbutton in lieu of a rotary dial.
2. The service is furnished with all grades of central office lines.
3. Pushbutton and rotary dial instruments can both be used on a subscriber line.

7. MISCELLANEOUS SERVICES (Cont'd)

7.2 Custom Calling Features

7.2.1 Feature Description

Custom Calling Features are services provided through Company central offices. Customers can choose from the following custom service additional features.

Call Forwarding Variable - allows subscribers to redirect all incoming calls to another telephone number. This service uses a courtesy call so the Customer can notify the party at the "forward to number" that calls are going to be redirected to their number.

Call Forwarding Busy Line - automatically redirects incoming calls to a pre-designated telephone number when the customer's line is busy. The customer must designate the destination number at the time the order for service is placed. Changes to the destination require a service order.

Call Forwarding Don't Answer - automatically redirects incoming calls to a pre-designated telephone number or to a voice mail (First Line) service when the Customer's line is not answered within a specified amount of time. The customer must designate the destination number and forwarding interval at the time the order for service is placed.

Requests for changes in the forwarding interval placed within thirty days of service installation will be completed at no charge.

Call Forwarding Ring Control - allows the customer to alter the number of rings or cycle before a call is forwarded to the number specified to the customer when placing the service order

Remote Activation of Call Forwarding - allows the Customer to activate or deactivate Call Forwarding Variable from a telephone other than the one to which the service is assigned.

7. MISCELLANEOUS SERVICES (Cont'd)

7.2 Custom Calling Features (Cont'd)

7.2.1 Feature Description (Cont'd)

Remote Call Forwarding - automatically redirects all incoming calls to a Customer's number to a pre-designated number.

Call Waiting - alerts the Customer to an incoming call while the line is in use. The service signals the Customer with two separate tones or tone patterns. The Customer is able to place the first party on hold while he/she takes the second call. The Customer can switch back and forth between the two parties by flashing the switch hook.

Cancel Call Waiting - allows the Customer to cancel the Call Waiting feature on a call by call basis. This can be done before the Customer places a call or during a conversation (if the Customer also subscribes to Three Way Calling).

Three Way Conferencing - allows Customers to have a conference call with two other parties at different numbers. With this service the Customer can initiate calls to both parties or add another party to an established call.

Speed Calling 30 - allows the subscriber to assign 1 or 2 digit dial codes for telephone numbers and/or access codes. Up to 30 codes can be assigned.

Distinctive Ring Option - allows the subscriber to terminate an additional number to the underlying access line. Notification of number called is through a distinctive ring pattern.

7.3 CLASS (Custom Local Area Signaling Service) Features

7.3.1 Feature Description

CLASS features are available to subscribers of Basic Exchange Line on an "a la carte" basis where service capabilities are available.

Automatic Call Back (ACB) - automatically redials the telephone number of the last outgoing call. If the number being called back is busy Automatic Call Back will alert Customer with a special ring when the line becomes clear.

Up to 30 ACB requests can be queued for each subscriber. A request is removed from the queue either when the switch places a call to the called party or when the monitoring period for the request ends.

The system will attempt to monitor the called line(s) for up to 30 minutes. When both stations are idle, the switch will notify the subscriber with a distinctive ringing tone. The feature activation can be cancelled by the customer when desired.

Automatic Recall (AR) - allows Customer to receive notice of the number of the last incoming call and at the subscriber's option, automatically return that call (whether the call was answered or missed).

Selective Distinctive Ringing / Call Waiting - provides a distinctive ring pattern and call waiting tone, if applicable, to the subscriber for up to thirty-two specific calling telephone numbers.

Selective Call Forwarding - allows the customer to transfer calls from up to thirty-two calling numbers to a specified forwarding number. Calls from lines not in the subscriber list (or of unknown origination) will not be forwarded.

7. MISCELLANEOUS SERVICES (Cont'd)

7.3 CLASS (Custom Local Area Signaling Service) Features (Cont'd)

7.3.1 Feature Description (Cont'd)

Selective Call Acceptance – allows the customer to accept calls from a list of up to thirty-two calling numbers. Callers not on the list (or of unknown origination) will be routed to a recording that the caller is not accepting calls and the call will be rejected.

Selective Call Rejection – allows the customer to prevent incoming calls from up to thirty-two calling numbers. Callers will receive a recording indicating the line is blocked. Selective Call Block takes priority over Selective Call Forwarding.

Customer Originated Trace (COT) – permits the subscriber of the service to activate an automatic trace of the last call received. This information is forwarded to the Company's annoyance call bureau and will not be shared with the subscriber. Disclosure of COT information will only be provided to the appropriate law enforcement agencies when duly authorized to receive such information.

Calling Name and Number Delivery - displays the name and number of the calling party on a special display telephone or display unit. In addition to the caller's telephone number, the first 15 digits of the calling subscriber's first name will also appear.

Calling Number Delivery - displays the number of the calling party on a special display telephone or display unit. Number delivery will occur between the first and second rings. Use of this service requires a customer premise display unit.

7. MISCELLANEOUS SERVICES (Cont'd)

7.3 CLASS (Custom Local Area Signaling Service) Features (Cont'd)

7.3.1 Feature Description (Cont'd)

Directory Number and Number Delivery Blocking (CNDB/CNAB) - allows Customer to prevent his/her number from appearing on the called party's Caller ID telephone or display unit. Calls from users with CNDB/CNAB activated will appear as "private" in the calling party's display unit.

CNDB/CNAB is available on either a per call or per line basis.

Per call blocking of CNDB/CNAB is available to all Company subscribers without presubscription. Customers with CNDB/CNAB activated on a per line basis may deactivate that blocking should per call activation be attempted.

Per Line blocking of CNDB/CNAB is available only to those customers of non-published listing services and / or the following entities and their employees / volunteers for lines over which the official business of the entity is conducted: a) Non-profit, tax exempt private and public social welfare agencies, and b) federal, state, and local law enforcement agencies.

Use of CNDB/CNAB will not prevent disclosure of calling information to E911 services or the serving end office of the calling party. The called party may have the ability to activate ACR, call trace, and call screening capabilities.

Anonymous Call Rejection – Allows the subscriber to automatically reject calls from lines which have the calling number information blocked. Anonymous callers will receive a recorded announcement directing them to unblock the line to complete the call.

8. CONNECTIONS WITH CERTAIN FACILITIES AND / OR EQUIPMENT OF OTHERS

8.1 Regulations

1. Customer-provided terminal equipment or wiring may be used with the facilities furnished by the Company for telecommunications services as provided in this tariff. In all such cases the customer-provided equipment or wiring will be constructed, maintained and operated to work satisfactorily with the facilities of the Company, and to meet all published standards of the Federal Communications Commission (FCC).
2. Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Company, except upon the consent of the Company, with the exception of inside wiring.
3. Where telecommunications service is available under this Tariff for use in connection with customer-provided equipment and wiring, the operating characteristics of such equipment or wiring shall not interfere with any of the service offered by the Company. Such use is subject to the further provision that the customer-provided equipment or wiring does not endanger the safety of the Company's employees or the public; damage, require change in or alteration of, the equipment or other facilities of the Company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Company's service. Upon notice from the Company that the customer-provided equipment or wiring is causing or is likely to cause such hazard to interference, the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. The customer shall be responsible for the payment of Company charge in Section 3, "Maintenance of Service Charge," for visits by the Company to the customer's premises where a service difficulty or trouble report results from customer-provided equipment or wiring.

8. CONNECTIONS WITH CERTAIN FACILITIES AND / OR EQUIPMENT OF OTHERS (Cont'd)

8.1 Regulations (Cont'd)

4. The Company shall not be responsible for the installation, operation or maintenance of any customer-provided communications systems. Telecommunications service is not represented as adapted to the use of customer-provided equipment or systems. When such equipment or facilities are connected to the Company facilities, the Customer is responsible for telecommunications service and the maintenance and operation of customer provided facilities in a manner proper for telecommunications service. Subject to this responsibility, the Company shall not be responsible for (1) the through transmission of signals generated by the customer-provided equipment or systems or for the quality of, or defects in, such transmission, or (2) the reception of signals by customer-provided equipment or system.
5. The Company shall not be responsible to the customer if changes in the criteria outlined herein or in any of the facilities or procedures of the Company render any customer-provided equipment or communications systems inoperable or otherwise affect its use or performance.
6. The Company will not be responsible for any loss or damage, nor for any impairment or failure of the service, arising from or connection with the use of facilities of customers and not caused solely by the negligence of the Company.
7. Where any customer-provided equipment or system is used with telecommunications service in violation of any of the provisions in this tariff, the Company will take immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. Following the receipt of written notice from the Company, the customer shall either discontinue use of the equipment or system or correct the violation. Confirmation of corrective action must be provided in writing to the Company within 10 days. Failure of the customer to take corrective action and provide written confirmation to the Company within the time stated above may result in termination of the customer's service.

8.2 Network Protection Criteria

To protect the telecommunications network and the services furnished to the general public by the Company from harmful effects, the signal from the customer-provided communications system to the long distance message telecommunications network must comply with the following minimum network protection criteria:

8.2.1 Customer Premises Requirements

Where the customer-provided communications system is connected, the customer-provided communications systems must comply with the following criteria:

1. To prevent excessive noise and crosstalk in the power of the signal at the central office must not exceed 12 db below one milliwatt when averaged over any three-second interval. To permit each customer, independent of distance from the central office, to supply signal power that approximates the 12 db below one milliwatt limit at the central office, the power of the signal which may be applied by the customer-provided equipment located on the customer's location, but in no case shall it exceed one milliwatt.
2. To protect other services the signal that is applied by the customer-provided equipment located on the customer's premises must meet the following limits:
 - a. The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 db below the power of the signal as specified in 8.2.1 (1).
 - b. The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 db below one milliwatt.
 - c. The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 db below one milliwatt.

8. CONNECTIONS WITH CERTAIN FACILITIES AND / OR EQUIPMENT OF OTHERS (Cont'd)

8.2 Network Protection Criteria (Cont'd)

8.2.2 Network Control Signaling Output (Cont'd)

6. To prevent the interruption or disconnection of a call, the signal applied by the customer-provided equipment located on the customer's premises must be limited so that the signal at the input to the Company line shall at no time have energy solely in the 2450 to 2750 Hertz band. If there is signal power in the 2450 to 2750 band, it must not exceed that power present at the same time in the 800 to 2450 Hertz band.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

MAR 12 2000

PURSUANT TO 807 KAR 5.011,
SECTION 9(1)

BY: Stephan D. Bell
SECRETARY OF THE COMMISSION

Issue Date: February 9, 2000

Effective Date: February 10, 2000

Issued By: Paul R. Gearheart

Paul R. Gearheart, General Manager

8. CONNECTIONS WITH CERTAIN FACILITIES AND / OR EQUIPMENT OF OTHERS (Cont'd)

8.3 Customer-Provided Communications Systems

Customer-provided systems may be connected, at a service point of the customer, on a voice grade basis with telecommunications service furnished by the Company, through customer-provided equipment which affects such connections externally to the Company by means of physical connection for transmitting and/or receiving. The customer-provided system shall comply with the minimum network protection criteria contained in Section 8.2

8.4 Entrance Facilities

All connections of entrance facilities to customer-provided communications systems shall be made through connecting arrangements approved by the Company. Customer, by use of its own equipment, but only within the normal transmission characteristics of the grade of channel ordered, may not create additional channels from the channels provided for entrance facilities. The charges for entrance facilities and the connecting arrangements will be based on cost as specified in the Tariffs of the Company.

8.5 Connection of Customer-Provided Communications Systems with Instruments Furnished by the Company

The Company does not provide instruments solely for use on customer-provided communications systems.

8.6 Maintenance Service Charge

The customer shall be responsible for the payment of the charges indicated in Section 3 "Maintenance of Service Charge," for visits by the Company to the customer's premises where a service difficulty or trouble report results from customer-provided equipment or facilities.

Issued By: Paul R Gearheart
Paul R. Gearheart, General Manager

Effective Date: February 10, 2000

16. SPECIAL ARRANGEMENTS

16.1 Special Construction

16.1.1 Basis for Charges

Where the Company furnishes a facility or service for which a rate or charge is not specified in the Company's tariffs, charges will be based on the costs incurred by the Company and may include:

1. non-recurring type charges;
2. recurring type charges;
3. termination liabilities; or
4. combinations thereof

16.1.2 Termination Liability

To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities specially constructed at the request of the Customer.

1. The termination liability period is the estimated service life of the facilities provided.
2. The amount of the maximum termination liability is equal to the estimated amounts for cost installed of the facilities provided including estimated costs for rearrangements of existing facilities and/or construction of new facilities as appropriate, less net salvage. Cost installed includes the cost of, (a) equipment and materials provided or used, (b) engineering, labor and supervision, (c) transportation, and (d) rights-of-way.
3. license preparation, processing, and related fees;
4. tariff preparation, processing, and related fees;

SECTION 9 (10), 2000
BY: Stephanie Bell
Effective Date: February 10, 2000
SECRETARY OF THE COMMISSION

16. SPECIAL ARRANGEMENTS (cont'd)

16.1 Special Construction (cont'd)

16.1.2 Termination Liability (cont'd)

5. cost of removal and restoration, where appropriate; and
6. any other identifiable costs related to the specially constructed or rearranged facilities.

16.1.3 Calculation of Termination Liability

The applicable termination liability method for calculating the unpaid balance of a term obligation. The amount of such charge is obtained by multiplying the sum of the amounts determined as set forth in Section 16.1.2 preceding by a factor related to the unexpired period of liability and the discount rate for return and contingencies. The amount determined in section ## preceding shall be adjusted to reflect the re-determined estimate net salvage, including any reuse of the facilities provided. This product is adjusted to reflect applicable taxes.

Effective Date: February 10, 2000

16. SPECIAL ARRANGEMENTS (cont'd)

16.2 Individual Case Basis ("ICB") Arrangements

Arrangements will be developed on a case-by-case basis in response to a bona fide request from a Customer or prospective Customer to develop a competitive bid for a service offered under this tariff. Rates quoted in response to such competitive requests may be different than those specified for such services in this tariff. ICB rates will be offered to the Customer in writing and on a nondiscriminatory basis.
