INDEX
Original Sheet 2

This tariff contains regulations and rates applicable for the furnishing of local exchange service, message toll telephone service, wide area telephone communications service, and for other general subscriber service, equipment and facilities associated with the above services offered by Logan Telephone Cooperative within this state. This tariff is on file with the Kentucky Public Service Commission.

Intrastate communication services are furnished through facilities provided by Logan Telephone Cooperative for the transmission of intelligence by electrical impulse, principally by means of wire, radio, or a combination thereof.

Failure on the part of any subscriber to observe these rules and regulations, after due notice of such failure, automatically gives the Telephone Company the privilege to discontinue the furnishing of service.

This Tariff cancels and supersedes all other Tariffs of the Telephone Company issued and effective prior to the effective date of this Tariff.

EXPLANATION OF SYMBOLS

FACILITIES

All property, means and instrumentalities owned, operated, leased, licensed, used, furnished, or supplies for, by or in connection with the rendition of telephone service.

GRADE OF SERVICE

The term used in describing network access service with respect to the number of subscribers telephones which may be connected to a central office line. (One-Party)

HARASSING CALLS

The use of telephone facilities or equipment for the purpose of communicating language, suggestions or proposals which are obscene, profane, lewd, lascivious or indecent in a manner reasonably to be expected to annoy, abuse, harass, torment or embarrass another.

HOUSEHOLD

Any individual or group of individuals who are living together at the same address as one economic unit. A household may include related and unrelated persons. An "economic unit" consists of all adult individuals contributing to and sharing in the income and expenses of a household. An adult is any person eighteen years or older. If an adult has no or minimal income, and lives with someone who provides financial support to him/her, both people shall be considered part of the same household. Children under the age of eighteen living with their parents or guardians are considered to be part of the same household as their parents or guardians.

(N)
|
(N)

INITIAL SERVICE PERIOD

The minimum length of time for which a customer is obligated to pay for service, facilities and equipment, whether or not retained by the customer for such minimum length of time.

INSTALLATION CHARGE

A separate initial non-recurring charge, which when applied is in addition to service connection charges. This charge may be applied when the equipment furnished is in addition to a network access line.

INTERCEPTING SERVICE

A service arrangement whereby a person calling a disconnected or discontinued telephone number is informed that, the called telephone number has been discontinued, or disconnected, or changed to another number, or that calls are received by another telephone.

JOINT USER SERVICE

A classification of exchange service furnished to a joint user, in connection with customers' exchange service. A joint user is a person, firm, or corporation sharing the customers' exchange service in accordance with tariff provisions, but who would not otherwise be entitled to the use of the service.

KENTUCKY RELAY CENTER

The Kentucky Relay Center permits hearing and speech impaired users of Telecommunications Devices for the Deaf (TDD) to communicate with users of ordinary telephones. Communications take place by relaying conversations (voice to TDD and TDD to voice). These calls are between one party who must communicate by means of a TDD and another who communicate by means of an ordinary telephone. Messages are rated from the rate center of the calling party to the rate center of the called party.

GENERAL REGULATIONS

B.1 Application of Regulations

The regulations set forth herein apply to intrastate services and facilities furnished within the State of Kentucky by Logan Telephone Cooperative, hereinafter referred to as the "Company", subject to the jurisdiction of the Kentucky Public Service Commission. When service and facilities are provided in part by the Company and in part by other companies, the regulations of the Company apply to that portion of the service or facilities furnished by it.

B.2 Limitations and Use of Service

B.2.1 Use of Subscriber's Service

1. Except as otherwise provided in this tariff, telephone equipment and facilities are furnished for the use of the subscriber's, employees, agents or representatives of the subscriber or members of the subscriber's domestic establishment except in connection with semi-public telephone service and except as the use of the service may be extended, in addition (N) to other service which may be separately ordered, to joint users, patrons of hospitals or of hotels, members of clubs, students living in quarters furnished by schools, colleges or universities, to persons temporarily subleasing a subscriber's residential premises, to tenants living in retirement complexes, or to approved Sharing and Resale of Basic Local Exchange Service Subscribers or Customer Provided Public Telephones.

2. Except as otherwise provided in this tariff, service furnished by the Company is intended only for communications in which the subscriber has a direct interest and shall be received by him from any other person, firm, or corporations for use, or in the collection, transmission or delivery of any communication for others. This prohibition shall not apply to a subscriber who is engaged as a communications common carrier for message telegraph communications, or to approved Sharing and Resale (N) of Basic Local Exchange Service Subscribers, or customer provided public telephones.

3. In view of the fact that the subscriber has exclusive control of his communications over the facilities furnished him by the Company, and of the other uses for which facilities may be furnished him by the Company, and because of unavoidable errors incident to the services and to the use of such facilities of the Company, the services and facilities furnished by the company are subject to the terms, conditions, and limitations herein specified.

B.2.2 Establishment of Identity

1. The calling party shall establish his identity in the course of any communications as often as may be necessary.

SHARED TENANT SERVICE OFFERINGS

B.3.5.1 General

1. In general, Basic Local Exchange Service is furnished for the exclusive use of the subscriber, and the subscriber's family, guests, employees, agents, or representatives. Resale of Basic Local Exchange Service is permitted only under the specific conditions described in this Tariff. For the purpose of this Tariff section, "sharing" of Basic Local Exchange Service is considered synonymous with "resale" of Basic Local Exchange Service.

(N)

2. When in the judgment of the Company it is deemed necessary or when the projected number of clients is five or more, the customer must apply in writing to resell exchange services provided by the Company and may be required to submit layout maps defining the intended geographic resale area and anticipated development plan in terms of new or existing buildings.

All rates and charges in connection with the resale operation and all repairs and rearrangements behind and including the reseller's communication system will be the responsibility of the reseller (customer of record) owner. The reseller will be the single point of contact for all shared tenant services provided in the resale service area. Customers who choose to obtain service directly from the Company may subscribe to any local exchange service available.

Nothing in this Tariff section impairs the Company's franchise or ability to operate in the state. This Tariff is not intended, nor does it, enfranchise or certify the recipients of this service as a telecommunications company.

3. Resale is permitted where facilities permit and within the confines of specifically identified continuous property areas under the control of a single owner or within a common development with a single name identity, such as multi-tenant office buildings, apartment complexes, condominium complexes, commercial malls, campus complexes, and office and industrial parks. Areas designated for resale may be intersected or transversed by public thoroughfares provided that the adjacent property segments created by intersecting or transversing thoroughfares would be contiguous in the absence of the thoroughfare.

If a designated resale service area is located within the confines of more than one exchange boundary, the serving central office will be determined by the Company. A resale area may be served by only one central office.

- 5. Private line services may be provided to tenants of resellers under the rules and regulations specified in this tariff and the Private Line Services Tariff. Resellers may obtain private lines for security purposes such as fire, burglary, etc.
- 6. Private interconnection of resale service areas within an exchange local calling area and LATA is prohibited. Tie Lines are restricted to the private use of a single resale client and cannot be used to access Local Exchange Service via Sharing and Resale trunks or lines.
- 7. All other rules and regulations specified in other sections of this Tariff will apply.

B.3.5.1 SHARES TENANT SERVICES LISTINGS

- 1. A client of shared tenant services may request the reseller, on his behalf, to obtain listings as specified in this tariff. All appropriate charges and regulations for directory listings specified herein are applicable to clients listings. Clients listing changes will be billed to the reseller (customer of record) and will not be billed separately.
- 2. A client of a reseller who does not require a directory listing but requires that a telephone number be accessible for E-911 or other similar services, must be listed as a Private (un-listed) listing. The un-listed directory number charge will apply per section F.f.9 preceding.

B.3.5 Customer Billing

- 1. The customer is responsible for all direct dial charges in conjunction with the services furnished him including collect toll messages originating from or made collect to his telephone, (T) regardless of who places or talks on the calls, (third party billing, credit card, or IDDD).
- 2. Monthly recurring charges are billed in advance and toll charges are billed in arrears. Special billing arrangements may be established for services provided to Governmental agencies.
- 3. Bills are due when rendered unless otherwise specified on the bill and may be paid at any business office of the Company (L) or at any agency authorized to receive such payments.
- 4. For billing purposes each month is presumed to have 30 days.
- 5. Retroactive billing adjustments will not be made for a period exceeding three years, unless sufficient proof is available which will allow an adjustment for a period exceeding three years.

B.3.6 Telephone Numbers

1. The subscriber has no property right to the telephone number nor any right to continuance of service through any particular central office.

2. The Company reserves the right to change the subscriber's telephone number of the central office associated with such number, or both, as may be required for the proper conduct of its business.

B.3.7 Transfer of Service Between Subscribers

1. Service previously furnished one subscriber may be assumed by a new subscriber upon due notice of cancellation, provided there is not lapse in the rendition of service. Such transfers are subject to service connection charge regulations and may be arranged for under the following conditions

A. If the new subscriber, fully understanding the regulations governing the service and the status of the account and willingly assumes all obligation thereunder, then future bills will be rendered to him without an adjustment to or from any particular date, with the Company arranging for the requested change in billing and directory listing.

B. Under transfer of service the reassignment of the old telephone number to the service of the new party is arranged for only after the former subscriber has given his consent to its use, and then only when, in the judgement of the Company there exists no relationship, business or otherwise, between the old and new subscriber, and when in the judgement of the Company a change in the telephone number is not required. (L)

C. When a relationship does exist, business or otherwise, between the old and new subscribers, the reassignment of the old telephone number will not be permitted unless all charges due under the current account have been paid, and then only when in the judgement of the Company a change in the telephone number is not required.

1. The subscriber is responsible for the provision and maintenance at his expense, of all suitable space and floor arrangements, including but not limited to adequate lighting, proper relative humidity and temperature control, required on his premises for communication facilities provided by the Company in connection with services furnished to the subscriber by the Company. Any power outlets and commercial power required for the operation of such facilities shall be provided by, and at the expense of, the subscriber.

2. Except as may be specified elsewhere in this tariff, all operating required for the use of communications facilities provided by the Company at the subscriber's premises will be performed at the expense of the subscriber, and must conform with the operating practices and procedures of the Company to maintain a proper standard of service.

B.3.9 Termination of Service

1. Termination of Service by the Company

A. Violation of any of the regulation contained in this Tariff on the part of the subscriber may be regarded as sufficient cause for termination of the subscriber.

B. When the service is terminated on the initiative of the Company because of violation of its regulations by the subscriber, the regulations stipulated below for termination of service at the subscriber's request apply.

C. The Company may refuse to furnish or continue to furnish service hereunder, if such service would be used or is used for a purpose other than that for which it is provided or when its use interferes with or impairs, or would interfere with or impair any other service rendered to the public by the Company.

C.5 Kentucky Telecommunications Relay Service for Hearing-Impaired or Speech-Impaired Persons in Kentucky

C.5.1 Regulations

Pursuant to KPSC Administrative Case No. 333 and 372, a monthly surcharge shall be imposed on all local exchange access lines to fund the Kentucky Telecommunications Relay Service. This service provides telephone communications between deaf and hearing / speech-impaired customers who use telecommunications devices for the deaf and customers who use standard voice telephones.

C.5.2 Surcharge Rate

1. Recovery of state costs associated with the Telephone Relay Service (“TRS”) and Telecommunications Access Program (“TAP”) is based on a fixed monthly charge per access line.
2. For purposes of application of the surcharge, access lines are defined as facilities that provide access to and from the telecommunications network for toll service and for local calling. WATS, Remote Call Forwarding, Radio Common Carriers, InterLATA Foreign Exchange Lines, Private Line Services, Mobile, Other Common Carriers, and Company Official Accounts are excluded from this category.
3. The monthly surcharge will appear in customer invoices labeled “TRS/TAP Surcharge.”
4. The monthly surcharge amount is as follows:
Per access line

TRS	\$0.01 (R)
TAP	<u>\$0.02</u>

Section D
Original Sheet 2

D.1 GENERAL

D.1.1 The term service charges as specified herein, and in other sections of this tariff is defined as a non-recurring charge or charges applying to the ordering, installing, moving, changing, rearranging, and furnishing of telephone service. All Service Connection charges expressed in this section of the tariff are in lieu of any membership fees specified in the by-laws of the Cooperative. Temporary installations of less than one year may pay service connection charge of \$28.00 — non-refundable— in lieu of membership requirements.

D.1.2 Charges in this section apply to basic single line business or residential service. Where equipment listed in other sections of this tariff is installed in addition to, or in place of, basic single line instruments, installation charges may apply either in addition to, or in place of charges specified herein.

D.2 PAYMENT OF SERVICE CHARGES

D.2.1 Payment of residential service charges for the initial establishment of service, may be extended equally over a period of two months. However, at the company's option, service charges may be required to be paid at the time of application.

D.2.2 The charges specified herein do not contemplate work being performed by company employees at a time when overtime wages apply due to the request of the customer. If the customer requests overtime labor being performed or interrupts work once begun, a charge in addition to the specified charges will be made based on the additional costs involved.

D.3 DEFINITION OF TERMS

D.3.1 Changes: A change is a substitution of a different type of telephone equipment, or a rearrangement of equipment or wiring which does not involve a change in location of the instrument.

D.3.2 Initial Service Periods; That service is installed and remain in use for three calendar months.

D.3.3 Inside Move: A transfer of telephone service or equipment from one location to another within the same building or that portion of the same building occupied by the same subscriber, where there is no interruption of the service other than is incident to the work involved.

D.7 Regulations and Application of Rates for Shared Tenant Service

1. An S.T.S. provider must present to Logan Telephone Cooperative a certificate of public convenience and necessity from the Public Service Commission to construct and operate its facilities.

2. Resale of Basic Local Exchange Service is available on a PBX flat rate basis. Other business services will be provided at the rates specified in other section of this Tariff.

3. The client of the reseller is defined as a different business, firm, corporation, company, subsidiary, association, associate or a residence. Listings for Shared Tenant Service Clients may be obtained under the conditions and rates specified in this Tariff. Charges for Listings will not be separately billed. (N)

4. The service establishment charge shown in K5 trunk rates applies for all resale service applications processed under this Tariff and is in addition to all other applicable nonrecurring and recurring charges.

5. Whether the tenants included in a resale service area are residence or business, such tenants may be serviced by the reseller and the same PBX rates specified in this and other Tariffs will apply to the reseller.

6. The minimum period of service is 36 months with a Service Cancellation Fee (SCF) applicable at the date of termination based on the exchange rates in effect. The Service Cancellation Fee is reduced by 1/36 per month and will be an amount equal to the business rates being billed at the time of termination. A nine month notice is required prior to termination of service by the reseller. If a nine month notice is not received, the resellers will be required to continue to provide access service until the Company can provide individual access facilities, but in no case will this requirement extend beyond nine months from the date that the notice is received.

7. When a subscriber located within the designated resale service area wishes to be directly served by the Company on a non-resale basis, or when Logan Telephone or customer provided Coin Telephone Service is to be provided in the resale service area, the owner/developer will bear the responsibility for and cost of providing premises access for such services. The owner/developer will make either cable pairs or their equivalents available, or provide facility support (conduit or poles) access to the Company at no charge for provision of these services. 8. The Company will provide facilities to the first point (demarcation/network interface) on the reseller's premises which, in the judgment of the Company is suitable for the location of a network interface. The most economical route from existing network distribution facilities will generally determine the approach used in establishing the point-of-demarcation. The customer may designate an alternate approach route for entrance facilities at additional construction charges as specified in this Tariff. The Company will extend the point-of-demarcation to any point designated by the reseller inside his premises at the charges specified in this Tariff. Route selection and location of point-of-demarcation must be in compliance with regulations set forth in other section of this Tariff and F.C.C. Part 68. (N)

9. All usual and applicable Service Charges and Installation Charges as appropriate indicated in this and other Tariffs apply to the activation, move or change of lines within the sharing and resale offering.

10. Suspension of service as described in this Tariff is applicable to this service.

11. Transfer of service responsibility between resellers is permitted and will not change the initial service establishment date used to calculate the SCF identified in this section.

D.9 LIFELINE

D.9.1 GENERAL

1. The Lifeline program is designed to increase the availability of telecommunications services to low income subscribers by providing a credit to monthly recurring local service for qualifying residential subscribers.
2. Lifeline is supported by both the federal and state universal service support mechanism.
3. The state universal service support mechanism will be funded by a Kentucky Public Service Commission approved charge on all customers' bills.
4. Total support is passed through to the subscriber. The total amount of the eligible credit will not exceed the sum of the state and federal subscriber support or the charge for local service, which includes the access line, the Subscriber Line Charge and local usage.

(C)

(C)

D.9.2 REGULATIONS

1. (D)
2. One low-income credit is available per Household (T) and is applicable to the primary residential connection only.
3. A Lifeline customer may subscribe to any local service offering available to other residence customers.
4. Toll blocking, if elected, will be provided at no charge to the Lifeline subscriber.
5. The deposit requirement is not applicable to a Lifeline customer who subscribes to full toll blocking. If a Lifeline customer removes full toll blocking prior to establishing an acceptable credit history, a deposit may be required. When applicable, advance payments will not exceed the connection and local service charges for one month.
6. The federal primary inter-exchange carrier charge (PICC) will not be billed to Lifeline customers who subscribe to full toll blocking and do not pre-subscribe to a long distance carrier(s).
7. A Lifeline subscriber's local service will not be disconnected for non-payment of regulated toll charges. Local service may be denied for non-payment of local and miscellaneous service in accordance with Section 2 of this Tariff. Access to toll service may be denied for non-payment of regulated tolls. A Lifeline subscriber's request for reconnection of local service will not be denied if the service was previously denied for non-payment of toll charges.
8. Lifeline is not available for resale.

1. To be eligible for a Lifeline credit, a customer must be a current recipient of any one of the following (T) programs or have income at or below 135 percent of the Federal Poverty Guidelines [Note 1].
 - a. Supplemental Security Income (SSI)
 - b. Supplemental Nutrition Assistance Program
 - c. Medicaid
 - d. Federal public housing / Section 8
 - e. Veterans Pension Benefits (C)
 - f. Survivor Pension Benefits (C)
 - g. (D)
2. All applications for service are subject to verification with the state agency responsible for administration of the qualifying program.
3. Proof of eligibility in any of the qualifying low-income programs should be provided to the company at the time of application for service. The Lifeline credit will not be established until the Company has received proof of eligibility. If the customer requests installation prior to the company's receipt of proof of eligibility, the requested service will be provided without the Lifeline credit. When eligibility documentation is provided subsequent to installation, the Lifeline credit will be provided on a going forward basis.
4. Proof of eligibility shall be in the form of an affidavit, certifying under penalty of perjury, that the subscriber is receiving benefits under one of the qualifying programs. It is the customer's responsibility to notify the company when the customer is no longer participating in any of the qualifying programs.
5. The company reserves the right to periodically audit its records, working in conjunction with the appropriate state agencies, for the purpose of determining continuing eligibility. Information obtained during such audit will be treated as confidential information to the extent required under State and Federal law. The use or disclosure of information concerning enrollees will be limited to purposes directly connected with the administration of the Lifeline plan.
6. When a customer is determined to be ineligible as a result of an audit, the company will contact the customer. If the customer cannot provide eligibility documentation, the Lifeline credit will be discontinued.

E.1 Construction Charges

E.1.1. General

1. Special charges in the form of installation charges, monthly charges, or both, are applied in addition to the usual service connection charges and monthly rates, when, because of the occasional nature of the service or an unusual investment or expense, the revenue does not reasonably compensate the Company, as for example:

- a. The facilities are provided in remote or undeveloped areas outside the base rate area.
- b. The facilities are provided on a temporary basis.
- c. Conditions require the provision of special equipment or unusual methods of plant construction, installation or maintenance.
- d. The customer's location requires the use of costly right-of-way.

2. Title to all construction, provided wholly or partly at a customer's expense, is vested in the Company.

3. The word "cost", when used in this Section, means the in-plant cost consisting of labor, engineering, materials, supervision, and other overhead expenses associated with the construction. Estimated cost may be used; however, where the customer requests, actual cost will be used where practicable.

4. When attachments are made to poles of other companies in lieu of providing new pole line construction for which construction charges would be applicable under the provisions of this Section, the attachment rental charges to the Company may be assessed to the applicant(s) in whole or in part as the particular circumstances may warrant.

5. Except as otherwise provided herein, the regulations in this tariff contemplate that the type of construction required to provide the quantity and class of service involved will be determined by the Company. The applicant may be required to pay the additional costs involved where a different type of construction than that proposed by the Company is desired.

6. The customer is required to pay construction charges made by another company providing facilities connecting with the facilities of the Telephone Company.

7. Construction charges will not apply to the customer's aerial or buried drop which extends from the last pole to the building in which the telephone is located.

8. When an applicant is so located that it is necessary to use private right-of-way to furnish service and the company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the costs incurred in securing, clearing, and retaining such right-of-way.

9. No construction charge is applicable for the provision of construction on public highways or other easements within the base rate area, or beyond the base rate area when such construction is to be used in serving customers with the grade and and class of telephone service normally offered in a given area.

E.1.2 Construction for Rural Service

Under normal conditions, or until the Company has met its requirements under Rural Electrification Administration (REA), and Area Cover Design (ACD), the company will extend its lines to reach applicants within the exchange service area. After the ADC agreement has been met, the Company, without charge, will extend its lines to reach applicants within the exchange service area, subject to the following conditions:

1. Extension of rural line facilities outside the base rate area will be provided without construction charges under the following conditions:

a. Under normal conditions, the Telephone Company will extend its rural lines one-half mile to reach a rural customer within the exchange area.

b. The Telephone Company will provide main line extensions for the provision of rural service to a group of applicants if the number of applicants in the group for permanent service on an annual basis averages one for each half mile or less of plant extension, by shortest public highway measurement.

2. In all other cases, construction or extension of rural lines outside the base rate area will be made on the basis of construction charges as follows:

a. That portion of the construction expense to be borne by the telephone Company shall not be more than seven times the annual exchange revenue of the applicant or group of applicants.

3. Underground Service Entrances

When underground service connections are desired by the customer as initial installation in places where aerial drop wires would ordinarily be used to provide service or channels to a customer and subsequently the customer desires that such facilities be placed underground, the following regulations apply:

A. Underground service entrances may be provided at the customer request as special construction in connection with either existing or new services in lieu of the usual aerial drop wire.

B. Buried service entrance facilities will be furnished without a construction charge where buried service wire or buried cable would normally be provided by the company for service entrance; unless agreements between the company and a contractor or customer have been made prior to land development.

C. Where cable is laid in conduit, the underground conduit shall be constructed and maintained by or at the expense of the customer and in addition, the customer shall pay the cost of the underground cable including the cost of installing less the estimated cost to the Company of installing such aerial facilities as would be (or are) required to furnish the same service. The underground conduit shall be constructed in accordance with plans and specifications furnished by the Company.

D. The duct or ducts required in the underground conduit by the Company to furnish service shall be reserved for its exclusive use.

E. Where armored cable is laid in a trench, the trench shall be constructed and back-filled by or at the expense of the customer. In addition, the customer shall pay the cost of the cable, including the cost of installation, less the estimated cost of installing such aerial drop as would be required to furnish the same service.

F. Where facilities are changed from aerial to underground, in addition to the above, the customer is charged the cost of dismantling and removing the aerial facilities.

E.4 Special services and facilities, not ordinarily used in the furnishing of service and not otherwise mentioned in, or provided for or contemplated by the tariff of the Company, may be furnished or leased pursuant to special contract for such special service or facility for such period as may be agreed upon, provided such special service or facility does not interfere with the telephone service furnished by the Company.

In the event any such service or facility or the use made thereof interferes with, or the facilities used in furnishing such special service or facility are needed for the furnishing of telephone service by the Company, it may terminate such contract and cease to furnish such special service and facility after thirty days written notice to the customer and provided further that the Public Service Commission may terminate such contract whenever, in its opinion, public interest required such termination.

E.5 Moves or Changes of Existing Construction

When the Company shall move or change existing construction or equipment for which no specific charge is quoted in this tariff, the person at whose request the move or change is made may be required to bear the cost of such move or change.

E.6 Construction in Residential Development

E.6.1 Terms

1. Single family development-is five or more adjoining lots in a recorded plan for the construction of single family residences including mobile homes intended for year round occupancy.

2. Duplex development-is three or more lots in a recorded plan for the construction of dual family residence intended for year round occupancy.

3. Multi-family development-is one or more lots in a recorded plan with three or more units planned for each lot, and intended for year round occupancy. In this category would fall apartment complexes, apartment buildings and condominiums.

4. Speculative development-where a tract of land is being developed, where distribution facilities of the Company have to be installed in conjunction with the development of the tract prior to its completion either at the convenience of the developer or the Company, and where dwellings are being constructed without a sales contract or signed

lease. The intent of the term speculative is defined as a situation where the Company is requested to make facility investments with no firm guarantee of a timely return on that investment.

5. Non-speculative development-where a tract of land is being developed where facilities of the Company exist or where the development of the tract permits distribution extension as the customer requires service, and necessary cable facilities can be provided at the Company's convenience. The term non-speculative is intended to mean that investment to plant can be made with firm guarantees of a timely return on investments.

E.6.2 Condition

E.6.2.1 Where requests are made of the Company by the developer of a residential development, the Company will require:

E.6.2.2 1. At his own expense, provide the Company with a detailed subdivision plan, showing detailed surveys of each lot in the plan, street location, and a key map showing all other specific locations.

2. At his own expense, provide the Company with easement satisfactory to the Company for occupancy and maintenance of distribution and related facilities, except service lines in public places which the Company has the right to occupy.

E.6.2.3 At his own expense, the developer will clear easements for the aforementioned facilities clear of tree stumps and other obstructions.

E.6.2.4 Should the developer make changes in the plot plan after the Company has completed engineering or begun construction, which creates for the Company additional expense, the developer shall bear the cost of these additional expenses.

E.6.2.5 Before the construction of Company facilities, the developer is responsible for identifying all underground facilities of others. Should in the course of construction of it's facilities, the Company damages the facilities of others that were not identified by the developer, the developer will bear all expense in the repair of said facilities.

E.6.2.6 During the following completion of construction of Company facilities, and prior to completion of the development, the developer shall bear the cost of damage to the Company's facilities caused by the developer and others. This includes all distribution and service lines. Costs here are defined as labor, material and overhead expenses.

applicable at the time of damage. This liability is only to those areas where lots or buildings have not been sold or occupied by tenants and is still under construction, or where development of lots have been completed and sold to a contractor operating independently of the developer.

E.6.3 Conditions - Speculative Development

E.6.3.1 If the development in the sole opinion of the Company is speculative, the following conditions apply in addition to those specified in paragraph E.6.2.

1. After the developer has supplied the Company with a subdivision plan, the company will prepare an estimate of costs involved in supplying distribution cable and service wires.
2. The developer will be required to post an amount (non-interest bearing) equal to the construction estimate.
3. The company will then begin work on detailed engineering and construction of facilities required by the developer.
4. Once construction has been completed and the actual cost of construction has been determined, the developer will be refunded any difference should the cost be less than the amount originally posted, or to pay the balance of the costs exceed the original amount paid.
5. These funds will then be considered payment for construction of facilities. These facilities shall be owned and maintained by the Company.
6. As each dwelling unit is occupied and its occupant accepts service from the Company, the Company will refund the developer or his designate the pro rata share of the construction cost. The proration will be determined by dividing the total number of lots and dwelling units in the total development, by the total cost of construction.
7. From the date of completion of the Company's facilities, the Company is liable to refund construction costs for a period not to exceed ten years.

DIRECTORY LISTINGS

F.1 Regulations Applicable to Directory Listings

1. The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory. Listings are intended solely for the purpose of identifying subscriber's telephone numbers and as an aid to the use of telephone service.
2. The Telephone Company will furnish to its subscribers, without charge, only such directories as it deems necessary for the efficient use of the service. Other directories will be furnished at the discretion of the Company at a reasonable charge.
3. Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request. Subscribers must not deface or mutilate directories. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories destroyed, defaced, or mutilated while in the possession of the subscriber. No binder, holder, or auxiliary cover, except such as may be provided by or with the consent of the Telephone Company shall be used on or in connection with any directory furnished by the Telephone Company.
4. The listing of subscribers either without charge or at the rate specified herein for additional listings in the alphabetical section of the directory does not contemplate special prominence of arrangement. In accepting listings as requested by the subscribers of prospective subscribers the Company will not be a party to controversies between subscribers as a result of the publication of such listings in its directories.
5. Listings must conform to the Company's specifications with respect to its directories. The Company reserves the right to reject listings when in its judgement such listings would tend to delay or impede the use of the service.
6. The Company reserves the right to limit the length of any listing to one line in the directory by use of abbreviations when in its judgement the clearness of the listing and the identification of the subscriber is not impaired thereby.
7. Except as hereinafter provided only one listing is furnished without charge for each main service, joint user service, PBX system or

Centrex system; where a number of main services are provided on a rotary basis they are considered as one service. If additional listings are required to properly identify the subscriber, such additional listings may be provided without charge to the extent that the number or listing allowed does not exceed the number of main station line or PBX trunks associated with that service. Directory listings showing the appropriate station number may be furnished indented under the main listing or additional listings at the charge for additional listings. Such listings may be specific department, location or titles of key personnel.

8. Additional listings on rotary numbers usually bear the call number of the first line of the rotary group but, at the subscriber's request, they may bear any one of the rotary numbers.

9. Street numbers, followed by the names of streets, will be used in identifying the location of the subscriber except when in the judgement of the Company names of buildings, apartment houses or communities serve as a better means of identification. Corner addresses are undesirable and will be used only where the street number is not available. The use of floor, room or suite numbers of buildings or apartment houses, or other such designation is not permitted.

10. Listings are not provided in connection with public telephone service except when the lists will facilitate the operations of the Company. No additional listings are permitted. Listings in connection with semipublic telephone service are furnished under the rates and regulations as other business service.

11. When in the judgement of the Company the use of reference or other listings in excess of the number of listings permitted without extra charge as previously outlined, are needed for better identification of the subscriber or governmental offices to facilitate the Company operations, such listings may be provided without charge.

12. Whenever any question arises to the right of a subscriber (1) to list the name of a business which he claims he is authorized to represent; or (2) to use a listing which includes the trade name of another, the company is privileged to require the subscriber to secure from the owner of such name, written authority to use it, addressed to the company for the acceptance for insertion or for the continuance of such listings; and is privileged to refuse to accept or delete such lists where (1) such written authority is not so furnished or (2) such authority is withdrawn by such owner in writing to the company

1. One listing without charge, termed the primary listing, is provided as follows:

A. For each separate subscriber service. When two or more main station lines or PBX trunk lines are consecutively operated, the first number of the group is considered the primary listing.

B. For each semi-public service.

C. For each joint user.

D. For each service station subscriber.

14. Unlisted number service is the withholding of a customer's listing from the printed telephone directory. The number may be obtained from the directory assistance operator.

15. Non-published number service is the withholding of a customer's listing from both the telephone directory and directory assistance records.

16. The length of contract period for directory listings, where the listing actually appears in the directory, is the directory period. The directory period is from the day the directory is distributed to the customer to the day the succeeding directory is distributed to the customers. Unless the listing no longer serves the customer because of disconnection, removal, etc., of the service the minimum contract period will be for 30 days.

G.2 Service Options

At the request of the subscriber, certain options may be added to the access line for Public Telephone Service and will be billed at the approved tariff rate. All options must be compatible with the hardware and software in use by the existing telephone Company switching equipment.

a. Coin Supervision Additive Service

The Company will provide Coin Supervision Additive Service to PSPs who order Access Line Service for the provision of Public Telephone Service and where the Public Telephone equipment connected to the Access Line Service required central office coin supervision capability.

Coin Supervision Additive Service provided the capability of central office line equipment to pass signals and/or tones from the Access Line Service to a trunk terminating at the PSPs operator service provider. These signals enable an operator service provider to recognize coin deposits and return coins to the Public Telephone user. Coin Supervision Additive Service also permits a suitable equipped operator service provider to automatically ring back the originating access line upon completion of a call.

This option requires a special central office line card which differs from the standard access line card and will be provided where facilities exist.

b. Public Telephone Screening/Blocking

Screening/Blocking for Public Telephone access lines includes Company provided services necessary to coordinate with operator connections or block subscribers from making specific types of calls. This service includes software translations done at the Company's facilities and also includes coordination between the Company and connecting Company databases.

FOREIGN EXCHANGE (FX) SERVICE

I.1 Definition

1. Foreign exchange service is exchange service furnished to a customer from an exchange other than the one from which he would normally be served.

I.2 Regulations

1. Foreign exchange service is not in accord with the general plan of furnishing telephone service and such service is furnished only under special conditions where warranted by the circumstances involved and provided facilities are available.

2. The service is furnished in connection with individual line main station or private branch exchange service only.

3. The service is furnished subject to the same conditions and restriction as to the use of the service by others than the customer and his representatives as applies in connection with other classes of main station service.

4. All negotiations for the establishment of foreign exchange service will be initiated by the prospective customer with the exchange from which he would normally receive service, and the customer will be required to contract for local service in this exchange.

I.3 Conditions

1. When the service involves exchange areas not served by this Company, its establishment will depend on the ability and willingness of the other Company to provide and maintain the required lines and apparatus that fall within its territory.

2. All rates and charges imposed by the other participating Company will be in addition to those that apply to this Company's facilities. All such charges will, however, be paid by the Company and incorporated in the statement issued to the customer so that only one monthly bill will be used for the overall facilities.

3. Miscellaneous service, equipment and facilities used in connection with foreign exchange service are furnished subject to the rates and regulations applying in the foreign exchange from which the customer is served. This also includes service connection, move and change charges.

4. The Company's accepted method for serving subscriber to Foreign Exchange Service, is by use of our Central Office and existing distribution plant. Connection with the foreign exchange will be facilitated by a route from central office to central office. The Company will not provide or permit provision of foreign exchange service by the extension of distribution plant across exchange boundaries.

5. In accordance with PSC order dated 2/21/81, Administrative Case 218, the Company will no longer provide or permit Foreign Exchange Service by extension of local exchange facilities "cross-boundary," the Company, also recognized that it has a responsibility to continue serving existing Foreign Exchange customers served in this manner. Since rates and charges for Foreign Exchange assumes a proper serving method, those "grandfathered" Foreign Exchange customers will be charged Foreign Exchange mileage from their residence to the point of connection with the serving company. Customers who presently have Foreign Exchange service under these arrangements are "grandfathered" only at their existing premise. The Company will deny reestablishing this form of Foreign Exchange if the customer discontinues services, or relocated service to another premise.

6. All Foreign Exchange Service whether terminating in the Companies territory or served solely within its boundaries will require a termination agreement for a period not to exceed six months.

7. Installation charges for Foreign Exchange service are in addition to service charges in Section D.

I.4 Rates and Charges

I.4.1 When an applicant located in an area normally served by this Company request local exchange service privilege through an exchange owned and operated by another Company, the following charges will apply thereto:

1. All charges made by the other Company for the use of its line and facilities, plus \$1.00 per quarter mile measured by airline mile or a fraction thereof, between the territory boundary of the two exchanges to this Company's central office plus the applicable local service rate at this company's central office. The foreign termination will determine this company's local service rate as provided for elsewhere in this tariff.
