2.11 Service Term Commitments

- A. **Termination Charges - Discontinuance Before Expiration.** Should customer discontinue service before the expiration of any term commitment specified in this tariff, customer shall be liable for termination charges as specified in the term commitment.
- B. **90-Day Term Agreement** – In consideration for the value of various promotional offerings granted to certain new customers, such customers may elect to be subject to a 90-Day Term Agreement. Should a customer under this term agreement terminate service with Company prior to completion of the term, that customer is subject to an early termination charge equal to the amount of estimated billing for such customer, applied on a pro-rata basis for the remainder of the term. The monthly estimated billing for a customer is determined by customer's previous carrier's invoice. The initiation date of the term is deemed the date of customer's first call. The date of termination of service is deemed as the date Company's Winback Department notes customer's account as in "jeopardy." The pro-rata early termination charge amount is determined by multiplying customer's monthly estimated billing by three (3) (to determine the total term estimated billing), determining the percentage of the remaining days of the term after termination, as compared to the entire term, and applying the remaining term percentage to the total term estimated billing. Percentages are rounded up to the next whole number, and termination charges are rounded up to the next whole dollar. The early termination charge will be applied to customer's next invoice after the date of termination. Customer's 90-Day Term Agreement will automatically renew for subsequent additional 90-Day terms unless customers cancel their account within 30 days of completion of the current term.
- C. **6-Month Term Agreement** – In consideration for the value of various promotional offerings granted to certain new customers, such customers may elect to be subject to a 6-Month Term Agreement. Should a customer under this term agreement terminate service with Company prior to completion of the term, that customer is subject to an early termination charge equal to the amount of estimated billing for such customer, applied on a pro-rata basis for the remainder of the term. The monthly estimated billing for a customer is determined by customer's previous carrier's invoice. The initiation date of the term is deemed the date of customer's first call. The date of termination of service is deemed as the date Company's Winback Department notes customer's account as in "jeopardy." The pro-rata early termination charge amount is determined by multiplying customer's monthly estimated billing by six (6) (to determine the total term estimated billing), determining the percentage of the remaining days of the term after termination, as compared to the entire term, and applying the remaining term percentage to the total term estimated billing. Percentages are rounded up to the next whole number, and termination charges are rounded up to the next whole dollar. The early termination charge will be applied to customer's next invoice after the date of termination. Customer's 6-Month Term Agreement will automatically renew for subsequent additional 6-Month terms unless customers cancel their account within 30 days of completion of the current term.

2.11 Service Term Commitments (Cont'd)

- D. 1-Year Term Agreement** – In consideration for a guarantee, granted to certain new customers, that a customer's long distance Interstate and IntraLata usage rates will not increase during the Agreement term, such customers may elect to be subject to a 1-Year Term Agreement. Should a customer under this term agreement terminate service with Company prior to completion of the term, that customer is subject to an early termination charge equal to the amount of estimated billing for such customer, applied on a pro-rata basis for the remainder of the term. The monthly estimated billing for a customer is determined by customer's previous carrier's invoice. The initiation date of the term is deemed the date of customer's first call. The date of termination of service is deemed as the date Company's Winback Department notes customer's account as in "jeopardy." The pro-rata early termination charge amount is determined by multiplying customer's monthly estimated billing by twelve (12) (to determine the total term estimated billing), determining the percentage of the remaining days of the term after termination, as compared to the entire term, and applying the remaining term percentage to the total term estimated billing. Percentages are rounded up to the next whole number, and termination charges are rounded up to the next whole dollar. The early termination charge will be applied to customer's next invoice after the date of termination.
- E. Discontinuance Without Liability** - Customers may discontinue service before expiration of any term commitment specified in this tariff without incurring the applicable termination charges if customers restructure their service by agreeing to a new service term of equal or greater length as that of the service term customer discontinues or to a new service with a greater volume commitment for a term, the combination of which (that is, the new term and greater volume commitment) has a value equal to or greater than the value of the service being discontinued.

2.13 Arbitration of Disputes

The Company will in good faith attempt to resolve all disputes raised by Customer to the Company. In addition, the Kentucky Public Service Commission shall have the authority to investigate and resolve complaints made by Customers regarding telecommunication services provided in Kentucky. The Commission may resolve Customer complaints between the Customer and the Company pursuant to Commission procedures by attempting to work with both parties to come to resolution. All disputes submitted to the Commission by a Customer which are not ultimately resolved through Commission procedure, or disputes which the Customer chooses not to resolve through Commission procedure, shall be resolved through binding arbitration.

Arbitration of disputes, whether raised by the Company or by the Customer, shall resolve all issues between the Company and the Customer, and shall not involve any form of class or collective arbitration nor any form whatsoever of class action lawsuit. A dispute occurs when the customer fails to pay an invoice or contests it for any reason associated with the ordering, installation, provisioning, maintenance, repair, interruption, restoration or termination of any service or facility offered under this Tariff. Once a dispute is raised, arbitration is mandatory, and counterclaims may be asserted. The arbitration shall be administered by the neutral third party administrator (Administrator) jointly chosen by the customer and Company and shall be conducted under rules and procedures normally followed for arbitrations conducted in this country. As a condition of service under this Tariff, and as disclosed in the customer authorization for service (LOA), any dispute or any counterclaims in response to such a dispute shall be governed by such arbitration rules and procedures. Nothing herein shall be construed to deny a customer its rights to file complaints with the Kentucky Public Service Commission pursuant to applicable statutory or regulatory provisions at any time.

3.2 Rate Elements (Cont'd)

3.2.11 Rounding

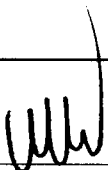

3.2.11.1 Rounding at 18/6. Company follows the industry practice of "rounding," that is, in its most basic form, when call duration does not end on the nearest whole 6-second increment, the call's duration is rounded to the next whole 6-second increment. Services with billing increments of 6 second increments with an 18-second minimum are billed as follows - a minimum of 3 call units, equal to either 3 ICUs of 6-seconds each, or 1 Minimum Call Unit (MCU) of 18 seconds as the minimum, with additional call duration rounded to the next higher 6-second increment, i.e., the next ICU having a value in this case of a whole 6 seconds.

3.2.11.2 Rounding to Whole Cents. Charges for each call are totaled. If the computed charges include a fraction of a cent, the fraction is rounded up to the next whole cent (e.g., \$1.4233 would be rounded up to \$1.43).

3.0 DESCRIPTION OF SERVICE (CONT'D)

3.3 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between the serving wire center locations associated with the originating and terminating points of the call. At present, Carrier does not offer mileage sensitive products or services.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the rate centers as defined by AT&T in its Tariff No. 10 as filed with the FCC in the following manner:

Step 1 _ Obtain the "V" and "H" coordinates for the rate center of the customer's switch and the destination point.

Step 2 _ Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the Difference between the "H" coordinates.

Step 3 _ Square the differences obtained in Step 2.

Step 4 _ Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 _ Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

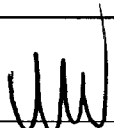

Step 6 _ Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating rate centers of the call.

Formula:
$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

3.0 DESCRIPTION OF SERVICE (CONT'D)

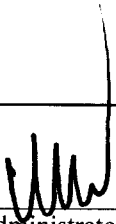

3.6 Telecompetitive Service Offerings ("TSOs")

- 3.6.1** From time to time, Carrier shall tariff rates or select tariffed rates, the purpose of and/or design for which is to retain Carrier's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential customers, which if not matched or bettered would result in the loss of an existing or potential customer and/or in the reduction of traffic volume of the customer. Carrier either shall require customer confirmation of the competitive offer in writing or shall confirm the availability of a more favorable competitive rate from published tariffs, marketing materials, or other public sources to establish a customer's right to obtain a TSO.
- 3.6.2** TSOs will comply with the Carrier's net revenue test which is founded on established economic principles ensuring above-cost pricing.
- 3.6.3** A customer or potential customer which is similarly situated may request service under a new or previously tariffed TSO. To qualify as a similarly situated customer for purposes of this Section, the customer seeking the TSO must demonstrate the existence of circumstances substantially and materially like those which justified the TSO as tariffed.
- 3.6.4** An existing customer or potential customer unable to demonstrate being similarly situated under a tariffed TSO may, nonetheless, be able to qualify for a different or new TSO tailored to that customer's circumstances.
- 3.6.5** TSOs are available for all rates published in this Tariff.

6.6.1 General Terms and Conditions

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Advantage Plan" or "CAP," the purpose and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential Customers, which if not matched or bettered would result in the loss of an existing or potential Customer and/or in the reduction of traffic volume of a Customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a Customer's right to obtain a CAP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Advantage Plan offerings are available for eligible Customers taking outbound and inbound equal access switched services of Company originated from and terminated to locations within this state whenever Company determines that but for the availability of these rates, Company will not retain an existing Customer ("save") or will not be able to winback a prior Customer already having switched its services to another carrier ("winback"). The following terms and conditions must exist for any CAP to be valid.

- A. CAPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- B. A Customer or potential Customer which is similarly situated may request service under a new or previously tariffed CAP. To qualify as a similarly situated Customer for purposes of this Section, the Customer seeking the CAP must demonstrate the existence of circumstances substantially and materially like those which justified the CAP as tariffed.

6.11 1st and 3rd Invoice Credit

For new customers and those qualifying as save or winback customers, and who meet the eligibility requirements of Section 6.11.1 following, the customer will receive a credit equal to customer's monthly Total Call Unit charges in the first and third invoices (exclusive therefore of fees, taxes, surcharges, assessments or other non-TCU charges - "Qualifying Charges"). The credit will issue with the first and third invoice in the form of that number of pre-paid calling cards at a \$50.00 denomination that equals the total of the customer's Qualifying Charges for the first and third invoices. A customer's Qualifying Charges will be rounded up to that number of \$50.00 pre-paid cards that equals or exceeds the totals of Qualifying Charges in customer's first and third invoices. For example, if a customer's Qualifying Charges in the first invoice total \$125.00, three pre-paid \$50.00 calling cards (a total of \$150.00) would be provided and remain activated until fully decremented.

New customers who meet the eligibility requirements set forth below, may receive credits under the "One, Two, Three, Every Third Invoice Free" Promotion as follows:

1. A credit applied to customer's first, second and third invoices equal to 33% of customer's long distance call traffic charges, appearing on the same invoice, excluding calling card charges, fees, taxes, surcharges, assessments and similar charges, applied to the same invoice, and
2. A credit applied to every third invoice, starting with customer's sixth invoice (6th, 9th, 12th, etc.), equal to an average of the long distance call traffic charges appearing on the two invoices immediately preceding the credit invoice, excluding calling card charges, fees, taxes, surcharges, assessments and similar charges.

This promotion is non-cumulative and can not be carried over to any following month or otherwise accumulated. 7.10 CierraCom Systems Service Customer Loyalty Plans

7.10.1 General Terms and Conditions

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Loyalty Plan" or "CLP," the purpose and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential customers, which if not matched or bettered would result in the loss of an existing or potential customer and/or in the reduction of traffic volume of a customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a customer's right to obtain a CLP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Loyalty Plan offerings are available for eligible customers taking outbound and inbound equal access switched services of Company originated from and terminated to locations within this state whenever Company determines that but for the availability of these rates, Company will not retain an existing customer ("save") or will not be able to winback a prior customer already having switched its services to another carrier ("winback"). The following terms and conditions must exist for any CLP to be valid.

- A. CLPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- B. A customer or potential customer which is similarly situated may request service under a new or previously tariffed CLP. To qualify as a similarly situated customer for purposes of this Section, the customer seeking the CLP must demonstrate the existence of circumstances substantially and materially like those which justified the CLP as tariffed.

7.12 Customer Advantage Plans ("CAPs")

7.12.1 General Terms and Conditions

From time to time, rates may be tariffed or tariffed rates selected, a "Customer Advantage Plan" or "CAP," the purpose and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential customers, which if not matched or bettered would result in the loss of an existing or potential customer and/or in the reduction of traffic volume of a customer. Customer confirmation of the competitive offer in writing may be required or the availability of a more favorable competitive rate may need to be confirmed from published tariffs, marketing materials or other public sources to establish a customer's right to obtain a CAP. In order to respond to the competitive pricing initiatives of competitors, the following Customer Advantage Plan offerings are available for eligible customers taking outbound and inbound equal access switched services of Company originated from and terminated to locations within this state whenever Company determines that but for the availability of these rates, Company will not retain an existing customer ("save") or will not be able to winback a prior customer already having switched its services to another carrier ("winback"). The following terms and conditions must exist for any CAP to be valid.

- A. CAPs will comply with the net revenue test as defined by the one or more regulatory commissions having competent jurisdiction and which is founded on established economic principles ensuring above-cost pricing.
- B. A customer or potential customer which is similarly situated may request service under a new or previously tariffed CAP. To qualify as a similarly situated customer for purposes of this Section, the customer seeking the CAP must demonstrate the existence of circumstances substantially and materially like those which justified the CAP as tariffed.

SECTION 7.0 - DESCRIPTION OF SERVICES & RATES

7.15 1st and 3rd Invoice Credit

For new customers and those qualifying as save or winback customers, and who meet the eligibility requirements of Section 7.15.1 following, a credit equal to customer's monthly Total Call Unit charges in the first and third invoices (exclusive therefore of fees, taxes, surcharges, assessments or other non-TCU charges - "Qualifying Charges"). The credit will issue with the first and third invoices in the form of that number of pre-paid calling cards at a \$50.00 denomination that equals the total of the customer's Qualifying Charges for the first and third invoices. A customer's Qualifying Charges will be rounded up to that number of \$50.00 pre-paid cards that equals or exceeds the totals of Qualifying Charges in customer's first and third invoices. For example, if a customer's Qualifying Charges in the first invoice total \$125.00, three pre-paid \$50.00 calling cards (a total of \$150.00) would be provided and remain activated until fully decremented.

7.15.1 Eligibility

To be eligible for the first and third invoice credits, each customer must have initiated the TCU service; have current usage which exceeds applicable monthly minimum usage levels, if any; have a credit worthy history or profile; have received three consecutive and uninterrupted invoices over the preceding three month period; have selected the first and third invoice credit prior to the first day of service; and timely pay all Qualifying and non-Qualifying Charges rendered in the customer's first, second, and third invoices.

7.15.2 Terms

Each \$50.00 pre-paid calling card is decremented at the rates set forth in Section 7.3 for peak rates with each fractional increment of less than 60 seconds rounded to the next full 60 second increment (full minute billing). Rates are distance and time-of-day insensitive.

SECTION 7.0 - DESCRIPTION OF SERVICES & RATES

7.16 Freedom Plan Plus (FPP)

Customers who qualify as either a "winback" or "save" under Telecompetitive Service Offerings ("TSO's"), and who Company determines that but for the availability of an alternative rate plan structure, Company would not be able to retain ("save"), or will not be able to winback a prior customer already having switched its services to another carrier ("winback"), may be offered Freedom Plan Plus. The Freedom Plan Plus telecompetitive service offering, whenever added to a customers calling plan, is limited in duration to six consecutive invoices once initiated.

Freedom Plan Plus customers' accounts are subject to ninety-six (96) second Minimum Call Units (MCU's) and Incremental Call Units (ICU's), with rounding to the next full ninety-six (96) second increment thereafter, unless subject to other rounding methodology under a telecompetitive service offer. However, Customers under Freedom Plan Plus receive a waiver of Equivalent Call Units (ECU's). That is, Customers under Freedom Plan Plus are charged, on a per-call basis, for the duration of a call only.

All conditions applicable to Freedom Plan customers must be satisfied in order for a customer to qualify for Freedom Plan Plus. A Customer under Freedom Plan Plus shall be billed at Freedom Plan Rates for Freedom Plan Services, as determined by the Customer's applicable Freedom Plan Rate Category. However, Freedom Plan Plus Customers' accounts must have an applicable Freedom Plan Rate Category which corresponds to a call unit rate of \$0.109 or higher. Freedom Plan customers who select Freedom Plan Plus, whose accounts are subject to a Freedom Plan Rate Category which corresponds to a lower call unit rate than \$0.109 will have their Rate Category adjusted upward to a Rate Category corresponding to a call unit rate of \$0.109 or higher. The same promotions and incentives available to other Freedom Plan customers are available to Freedom Plan Plus customers, subject to the same qualifications and other requirements applicable to other Freedom Plan customers for those promotions or incentives.

As of October 1, 2003, any Customer who has had the Freedom Plan Plus service offering active on their account for six or more consecutive invoices shall have this offering removed from their calling plan.

All Freedom Plan Plus customers in service on or before May 15, 2013, whose services are not part of an unexpired term plan or usage rate guarantee, and which have not experienced a rate category change during the previous three consecutive invoices, shall have their rates adjusted upward by two Rate Categories or to the highest available rate category, whichever is lower, effective for all calls on or after April 17, 2013, that are reflected on invoices rendered on or after May 15, 2013.
