II. TERMS AND CONDITIONS

A. APPLICATION OF TARIFF.

This tariff applies to interexchange telecommunications services provided by TMC of Lexington. ("TMC" or "Company") to all points in Kentucky. The Company's services are provided in conjunction with its interstate telecommunications services that originate or terminate within Kentucky.

Services offered pursuant to this tariff will be offered to Subscribers and to other Customers. As used herein, a Subscriber is a person or entity which orders service from TMC either directly or through TMC's authorized agent(s). Certain services (e.g. TMC operator-assisted services) will be offered to all Customers -- whether Subscribers or not -- who utilize the services. Therefore, where the context requires, the use of the term Customer shall include all users of the service, including Subscribers.

In the event the Company determines that provision of this service imposes a substantial risk of fraudulent use, the Company, at its discretion, may choose to not accept new orders for this service. After giving written notice, and providing this Commission thirty (30) days notice and proof that its customers are notified and alternative service available, the Company may cancel existing authorization codes.

3. TMC Operator Assisted Travel Service.

TMC Operator Assisted Travel Service is offered as an add-on service to TMC's Intra-State Service and Inter-State Service. In the event the subscriber is unable to enter an authorization code, the call will default (after six (6) seconds) to a Company Operator. The Operator will then enter the subscriber's authorization code and desination number allowing call completion.

E. TMC "0+" Service.

TMC "0+" service is available to all Company subscribers, and to other customers who utilize the Company's network to place calling card, collect and third number billed calls. TMC "0+" service permits customers (who may or may not be subscribers of the Company) to bill charges for telephone calls to LEC-issued calling cards, major credit cards, and to authorized telephone numbers.

"0+" calling card calls will be processed through an automated interface, without operator assistance. Operator assistance will be provided whenever necessary (e.g. from rotary telephones). Calls billed to calling cards or third numbers will be accepted only if the Company determines that the billing number is valid. If validation information is not available from the billing local exchange carrier, the Company shall decline to accept the call or require that the call be billed to a number which can be validated, or to a major credit card.

All calls are billed in tenths of a minute increments, with a minimum of one minute.

Aggregators include hotels and motels, hospitals, universities, airports, gas stations, and non-local exchange carrier pay telephone owners. This definition includes the provision of all non-local exchange carrier pay telephones even if no compensation is paid to the owner of the pay telephone. The residential use of operator services is specifically excluded from this definition.

A. Posting Requirements:

1. TMC shall provide tent cards and stickers to be placed near or on telephone equipment used to access their services.
2. Violators of these provisions will be subject to termination of service after twenty (20) days written notice to the owners of non-complying customer premises equipment.

B. Blocking and Interception Provisions:

1. TMC forbids subscribers to block or intercept operator services of competing carriers. This provision does not pertain in situations where the customers who control premises equipment are also the users and bill-payers of TMC's service.
2. TMC requires tis customers to block all intraLATA calls and to direct all such calls

V. MILEAGE BETWEEN RATE CENTERS

For all services provided pursuant to this tariff, mileage between rate centers will be calculated based on V & H coordinates as obtained by reference to AT&T's Kentucky General Services Tariff and AT&T's Tariff F.C.C. No. 10.

Method of Calculation

- 1) Obtain the V & H coordinates for each rate center.
- 2) Obtain the differences $V_1 - V_2$ and $H_1 - H_2$.
- 3) Square each difference and add the differences.
- 4) Divide by 10.
- 5) Obtain the square root of the result.

The result obtained is rounded up to the nearest integer value to determine the applicable mileage.

VI. RATE PERIODS

For all services provided pursuant to this tariff, the following rate periods are applicable. The applicable rate period will be determined based upon the time at the point of origination (for outbound calls) or point of termination (for inbound calls).

The call origination time shall be the local time at the place of call origination except for travel and 800 inbound which shall use the local time at the place of the first switch processing the call.

Calls that begin in one rate period and terminate in another rate period will be prorated accordingly.
