**IV. RULES AND REGULATIONS**

**A. APPLICATION OF TARIFF**

This tariff applies to Interexchange Resale Service provided by Carrier to all points in Kentucky. Long distance Resale Service is a public telecommunication service for hire that includes providing both interstate and intrastate long distance service and operator service to Subscribers through the resale of WATS and other telecommunications services.

**B. AVAILABILITY OF SERVICE**

Carrier is a statewide telephone company providing interexchange communications and long distance message toll telephone service to Subscribers for their direct transmission of voice, data, and other types of telecommunications. The service is available to multiple users.

Communications originate when the customer accesses Carrier facilities directly or through the facilities of the local service carrier via one or more access lines, equal access or on a dial-up basis by calling the local access number of the local service carrier. Carrier may act as the

**V. DESCRIPTION OF SERVICE (Cont'd)**

**C. INTERCONNECTION**

Service furnished by Carrier may be interconnected with services or facilities of other authorized communications common carriers and with private systems, subject to the technical limitations established by Carrier. Service furnished by Carrier is not part of a joint undertaking with such other carriers. Any special interface equipment or facilities of Carrier and other participating carriers shall be provided at the Subscriber's expense.

Interconnection with the facilities or services of other carriers shall be under the applicable terms and conditions of other carriers' tariffs. The Subscriber is responsible for taking all necessary legal steps for interconnecting his Subscriber-provided terminal equipment or communications systems with Carrier's facilities. The Subscriber shall

secure all licenses, permits, and other arrangements necessary for such interconnection.

**D. CALCULATION OF DISTANCE**

Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The Company uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communication Research in their NPA-NXX V&H Coordinate Tape and AT&T Tariff No. 10.

**V. DESCRIPTION OF SERVICE (Cont'd)**

**F. GENERAL DESCRIPTION OF CARRIER'S COMMUNICATION SERVICE**

Carrier offers common shared access switched service, hereinafter referred to as Message Toll Service or MTS. The Subscriber's total monthly use of Carrier's service is charged at the applicable rates per minute set forth herein and are based on the airline mileage between the points, where applicable, as determined by the formula in Section IV.D, Calculation of Distance. Carrier will engineer its transmission and switching systems on the basis that ninety-five percent (95%) of the Subscribers accessing their system will be served during the busy hour.

**1. Message Toll Service (MTS) Options**

MTS service is a measured use, full time service and is offered on a monthly basis, utilizing interexchange communications facilities shared among multiple users. The individual Subscriber's basic monthly charges for the use of
