PART II  
ORIGINAL SHEET 5

GENERAL EXCHANGE SERVICE TARIFFS

APPLICATION AND EXPLANATION OF SYMBOLS

A. APPLICATION

These Tariffs apply to the General Telephone Exchange Services of the Thacker-Grigsby Telephone Company, hereinafter referred to as the Telephone Company, in Exchanges of the Telephone Company in Kentucky. In the event of any conflict between any rate rule or regulation contained in these General Exchange Service Tariffs and any rate, rule or regulation contained in the Local Exchange Service Tariffs, the rate, rule or regulation contained in the Local Exchange Service Tariff shall apply.

The provision of services and facilities, as provided herein, is subject to the General Rules and Regulations of the Telephone Company, which General Rules and Regulations as they now exist or as they may be revised, added to or supplemented by superseding issues are hereby made a part of these General Exchange Service Tariffs.

These Tariffs cancel and supersede all other Tariffs of the Telephone Company issued and effective prior to the effective date of these Tariffs.

B. EXPLANATION OF SYMBOLS

- (C) Signifies a changed regulation.
- (D) Signifies a discontinued rate, treatment or regulation.
- (I) Signifies an increased rate or new treatment resulting in increased rate.
- (N) Signifies a new rate, treatment or regulation.
- (R) Signifies a reduced rate or new treatment resulting in reduced rate.
- (T) Signifies a change in text but no change in rate, treatment or regulation.

GENERAL EXCHANGE SERVICE TARIFFS

SERVICE CHARGES (T)

A. GENERAL

1. Service Charges are in addition to all other rates and charges that may be applicable for services provided by the Company. Service Charges apply in addition to installation and construction charges incurred because of unusual costs encountered in the provision of service.
2. Service Charges (T) are in addition to any other scheduled rates and charges normally applying under the tariffs. They apply in addition to and not in lieu of Mileage Charges, Installation Charges, or Construction Charges made because of unusual costs in establishing service.
3. Service Charges (T) may be payable at the time the application is made for the particular service or facility, and prior to the establishment of service, or upon presentation of a bill. Service may be established in advance of payment in the case of service connection charges for additions to the service of existing customers and in the case of any service for Departments, Administrations, and Agencies of the Federal, State, County, Township, or Municipal Governments.

GENERAL EXCHANGE SERVICE TARIFFS

SERVICE CHARGES (Cont'd) (T)

B. DESCRIPTION OF SERVICE CHARGES

The work functions required to establish, add to, move or change telephone service for a business or residence class of service customer are classified by type of service charge as follows:

Restoral of Service Charge applies when service has been discontinued for non-payment of any charge due or for failure of the subscriber to establish credit in accordance with the regulations.

Returned Check Charge applies for each returned check or moneys not honored by a bank or depository.

Service Connection Charge applies for the ordering and installation of telephone exchange service.

Outside Move Charge applies when a subscriber requests existing regulated telephone service at one premise to be relocated to a new premise for the same subscriber within the same serving wire center or requests the company to relocate service to a different demarcation point within the same premise.

Number Change Charge applies for a request by the subscriber to change the telephone number associated with the subscriber's telephone service.

Name Change Charge applies for any request by the subscriber to change the name of that subscriber as it appears on the subscriber's account.

GENERAL EXCHANGE SERVICE TARIFFS

SERVICE CHARGES (Cont'd)

B. DESCRIPTION OF SERVICE CHARGES (cont'd)

(N)\*

Trip Dispatch /Trouble Isolation Charge applies when a service outage or other trouble report, is submitted by the subscriber or the subscriber's agent and the trouble is isolated to non-Company equipment, or, if the subscriber or agent requests a support service, such as line tagging, and the Company is required to dispatch a technician to complete the service request.

Service Transfer Fee applies when the ownership of existing service is transferred from one subscriber to another upon death of the original subscriber. All other transfers are considered new services.

Directory Listing Change Fee applies when the subscriber requests that the Company modify the subscriber-listing in the published directory and / or directory assistance database.

(N)\*

GENERAL EXCHANGE SERVICE TARIFFS

**SERVICE CHARGES (Cont'd) (T)**

C. SERVICE CONNECTION CHARGES DO NOT APPLY TO:

1. "Public Pay Stations" established for the use of the general public (but not including Coin-Box Service at locations which are classed as Semi-Public.)
2. Private Branch Exchange Switchboards.
3. Battery Supply.
4. Directory Listings.
5. The following cases, provided service and facilities are assumed prior to their discontinuance and without lapse in rendition of service or billing for service:
  - (a) A change of name without a change of ownership.
  - (b) A change of ownership without a change of name.
  - (c) When one member of a family applies for the service previously contracted for by another member of the same family residing in the same household.
6. When a receivership for an existing subscriber is established or terminated.
7. Service changed from a residence to a business classification, or vice versa, without a change in the identity of the subscriber.
8. **(D)**
9. Service reestablished after the destruction or partial destruction of the subscriber's premises by means beyond the control of the subscriber whether at the same or another location. However, if service is established at a new location and the subscriber later moves back to the old location, the Service Connection Charge is applied in connection with the re-establishment of service at the old location.

I. AUDIBLE & VISUAL SIGNALS

Horns, loud bells, buzzers, beeptones, etc., will be installed and serviced by the Telephone Company as follows:

- 1. Extension Bells
  - a. Regular . . . . . \$10.00
  - b. Loud ringing. . . . . 10.00
  - c. Beep tone. . . . . 10.00
- 2. Horns . . . . . 20.00
- 3. Buzzer Systems
  - a. Buzzers may be furnished with all classes of telephone service. The rate specified contemplates that signals will be located within certain operating limits. Installation charges will be based on COST.

J. TWO-LINE TELEPHONES

This telephone system provides for two lines with a hold feature on each line and an intercom line.

Business or Residence Installation. . . . . \$30.00

K. KEY SYSTEMS

The following will provide the customer with the normal type and amount of standard equipment for the full operation of a basic illuminated Key Telephone System. In addition to telset charges, a Key System extension monthly charge equivalent to the business extension rate applies for each Key System set in excess of the number of central office lines. A service charge does not apply for this extension if installed as original equipment. The regular service charge for installation of a business extension applies if installed at a time the original equipment installation. Charges that apply to System service are as follows:

- 1. Addition of a line to the system. . . . . \$22.00
- 2. Moving an extension on the system . . . . . 22.00

- 2. Non-published service will not be furnished for use with this service.
- 3. Rates for installation, each set . . . . . \$20.00

M. TELEPHONE INSIDE MINES

Telephone service will be provided inside underground coal mines as follows:

- 1. Telephone service may be installed by the Telephone Company to shops, offices, or other buildings near the mine entrance under exchange service tariffs, rules and regulations.
- 2. Underground lines may be attached to a fuse type protector located outside the mine which will be provided by the Telephone Company. The protector will be arranged so that the underground line of the customer can be disconnected by the customer for test purposes by removing the protector fuses. All underground wire and equipment will be owned and maintained by the customer to the point of connection.
- 3. There shall be a charge of \$50.00 for providing the protector installed as a point of connection and includes one telephone set to be connected by the customer inside the mine. There will be a monthly charge equal to that of an off-premises extension including 1st. quarter mile.
- 4. It is intended that the customer will test his underground equipment by disconnecting it as the point of the connector and making a call from the main station set. Should the Telephone Company repair service make a service call and find the trouble to be in the customers equipment and wiring, a service charge of \$20.00 shall apply.

SECTION 9 (1)  
BY: Jordan C. Neal  
FOR THE PUBLIC SERVICE COMMISSION

GENERAL EXCHANGE SERVICE TARIFFS

SEMI-PUBLIC TELEPHONE SERVICE

1. Semi-public telephone service is an arrangement under which a subscriber station is equipped with a coin collecting device, designed for a combination of subscriber and public usage, and will be furnished, on individual lines only, in locations where, in the opinion of the Telephone Company, the installation of a public telephone is not warranted but where there is an appreciable demand for service on the part of the public.
2. The Telephone Company does not undertake to provide booths for housing semi-public telephones but the subscriber may at his option provide at his own cost suitable booths, shelves, or cubicles for such purpose.
3. Subscribers to semi-public telephone service are entitled to regular listings in the Telephone Company's official directory and may advertise such numbers for incoming calls and business purposes subject to rules and regulations otherwise specified in this Tariff.
4. Local Messages from Semi-Public telephones are charged for at the rates shown in the General Exchange Service Tariffs and Toll Messages are charged for at the Telephone Company's established rates.
5. Subscribers to Semi-Public telephone service are required to guarantee total monthly receipts from local exchange service equal to the individual line business rate plus \$5.00, making this a guarantee of \$20.00. The customer shall be billed and shall pay monthly in advance the guarantee amount and when the coin box is opened, monthly or at the convenience of the Telephone Company, any monies exceeding the toll charges shall be credited against the \$20.00 monthly guarantee on the following months billing. Local message receipts in excess of the guarantee collected during any collection period are not credited against the deficit for any other collection period.
6. All spurious, mutilated and foreign coins and slugs found in the coin box and all charges for long distance service will be deducted before computing receipts from local service over semi-public telephones.
7. Semi-public telephones are subject to the contract period, service connection, move, change, and transfer charges and general rules and regulations provided elsewhere in this Tariff.

TOUCH TONE

1. General Regulations

- a. Touch-Tone calling service provides for the origination of telephone calls through the use of telephones equipped with push buttons. The service requires special central office facilities and will be furnished only where the necessary facilities and equipment are available.
- b. The service is furnished in connection with single-party service only.
- c. The minimum contract period for Touch-Tone service is one month.
- d. All lines, unless otherwise requested, shall be equipped for touch-tone calling service. **(C)**
- e. Other facilities, miscellaneous and supplemental equipment, requested by customers and not detrimental to this service or other service of the Telephone Company will be furnished in accordance with regulations and at the rates specified in the applicable sections of this tariff.
- f. Rotary dial telephones may also be used on the same line with touch tone telephones.

2. Rates

All exchange lines provided herein include Touchtone with no additional charge. **(T)**

GENERAL EXCHANGE SERVICE TARIFFS

CUSTOM CALLING SERVICES

A. GENERAL

- (1) Call Waiting  
Provides the user, busy on a call, with a private signal which alerts him to an unanswered call waiting to be completed to his number. The user may, then, hold the existing call, answer the incoming call and alternately talk on both calls until one has been terminated.
- (2) Call Forwarding  
Provides for transferring incoming calls to another telephone number by dialing a code and the telephone number of the service to which calls are to be transferred. Satisfactory transmission levels cannot be assured on calls forwarded outside of the local calling area.
- (3) Three-Way Calling  
Permits an existing call to be held, and by dialing, a second telephone call can be established and added to the connection. Two toll points may be connected on a Three-Way Calling. Normal transmission performance cannot be assured on all calls.
- (4) Speed Calling  
Provides for the calling of a 7 or 10 digit telephone number by dialing an abbreviated code. The arrangement available has an eight (8-code) and thirty (30-code) number capacity.

N

B. PROVISION OF SERVICE

- (1) The services are limited to those areas served by central offices arranged for Custom Calling Services.
- (2) The services are furnished only in connection with individual line service excluding Semi-Public telephone service.

NUISANCE CALL INVESTIGATION

1. Nuisance Call Investigation is generally determined to be a public service offering and may be provided, where switching facilities permit, to the public to insure its well-being and safety.
2. The duration of a nuisance call investigation is generally limited to a 7-day period but may be extended if deemed necessary to further protect the public's well-being and safety.
3. The telephone company must conform to all local, county, state and federal laws applying to nuisance call investigations, and the delivering of results thereof.
4. Generally, a nuisance call investigation request must be initiated jointly by the governing law enforcement agency and customer in a document conforming to the local, county, state or federal law. Furthermore, the party requesting such an investigation must express in writing his willingness to prosecute whenever possible.
5. Results of nuisance call investigations are limited to the identification of the line and not the party originating the call; and, said results will only be submitted to the law enforcement agency originating the request.
6. The following charges will be collected at the time the request is made:
  - a. Installation and removal of Equipment \$17.50
  - b. Tracing Charge 12.50
  - Total \$30.00

Mobile Radio Paging Service

A. GENERAL

1. Mobile Radio Paging Service is a one-way, tone only or tone and voice paging service provided through a radio paging transmitter to a personal paging receiver equipped for such service.
2. Each paging service shall be activated by dialing a seven digit number to access the paging line, then dialing an additional three digits to initiate the paging call to the requested receiver.
3. Pager numbers are furnished only to the customer and will not be listed in either the telephone company's alphabetical directory or in information records available to the general public.

B. REGULATIONS

1. Regulations applicable to the provision of regular telephone service, as outlined in this General Exchange Tariff, are also applicable to Radio Paging Service.
2. Radio Paging Service is available within range of the radio paging transmitter and subject to transmission, atmospheric and like limitations inherent to radio transmission.
3. The liability of the Telephone Company for damages arising out of mistakes, omission, interruptions, delays or errors or defect in transmission occurring in the course of furnished service and not caused by the negligence of the customer, or of the Telephone Company in failing to maintain proper standards or maintenance and operation to exercise reasonable supervision shall in no event exceed an amount to the proportionate charge to the customer for the period of service which such mistake, omission, interruption, delay, error or defect in transmission occurs.
4. Radio Paging Service requires special transmitting equipment and the service will be provided subject to the availability of such facilities.

Access Line Service for Customer-Provided or Payphone Service Provided (PSP) T  
Public Telephones

- A. Access Line Service for Customer-Provided or PSP Public Telephones is T  
provided on a flat rate basis.

  - 1. Access Line Basic Rate  
The business line (B1) flat rate for the exchange in which service  
located is applicable.

- B. Service Charges are applied on the same basis as for individual business  
line service.
- C. At the request of the subscriber, Touch Tone service may be provided D  
pursuant to terms and conditions elsewhere in this Tariff. |
- D. The subscriber is responsible for Directory Assistance service charges  
equivalent to those billed on business individual line service.

COIN SUPERVISION ADDITIVE SERVICE

A Description

The Telephone Company will provide Coin Supervision Additive Service N  
to Payphone Service Providers (PSP) who order local exchange service  
lines for the provision of pay telephone service and where the pay  
telephone equipment connected to the local exchange service lines  
requires central office coin supervision capability.

Coin Supervision Additive Service provides the capability of central  
office line equipment to pass signals and/or tones from a local  
exchange service line to a trunk terminating at the PSP's operator  
service provider. These signals enable an operator service provider  
to recognize coin deposits and return coins to the pay telephone user.  
Coin Supervision Additive Service also permits a suitable equipped  
operator service provider to automatically ring back the originating  
local exchange service line upon completion of a call.

B. Rates and Charges

	Monthly Rate
Per Exchange Service Line	\$1.00

The Coin Supervision Additive Service charge is assessed monthly to  
the PSP for each local exchange service line for which Coin  
Supervision Additive Service is provided.

GENERAL EXCHANGE SERVICE TARIFFS

Shared Tenant Service Offerings

A. General

1. In general, Basic Local Exchange Service is furnished for the exclusive use of the subscriber, and the subscriber's family, guests, employees, agents, or representatives. Resale of Basic Local Exchange Service is permitted only under the specific conditions described in this Tariff. For the purpose of this Tariff section, "sharing" of Basic Local Exchange Service is considered synonymous with "resale" of Basic Local Exchange Service.
  
2. When in the judgement of the Company it is deemed necessary or when the projected number of clients is five or more, the customer must apply in writing to resell exchange services provided by the Company and may be required to submit layout maps defining the intended geographic resale area and anticipated development plan in terms of new or existing buildings.

All rates and charges in connection with the resale operation and all repairs and rearrangements behind and including the reseller's communication system will be the responsibility of the reseller (customer of record) owner. The reseller will be the single point of contact for all shared tenant services provided in the resale service area. Customers who choose to obtain service directly from the Company may subscribe to any local exchange service available.

FOR THE PUBLIC SERVICE COMMISSION

Shared Tenant Service Offerings

A. General (Continued)

Nothing in this Tariff section impairs the Company's franchise or ability to operate in the state. This Tariff is not intended, nor does it, enfranchise or certify the recipients of this service as a telecommunications company.

- 3. Resale is permitted where facilities permit and within the confines of specifically identified continuous property areas under the control of a single owner or within a common development with a single name identity, such as multi-tenant office buildings, apartment complexes, and office and industrial parks. Areas designed for resale may be intersected or transversed by public thoroughfares provided that the adjacent property segments created by intersecting or transversing thoroughfares would be contiguous in the absence of the thoroughfare. If the designated resale service area is located within the confines of more than one exchange boundary, the serving central office will be determined by the Company. A resale area may be served by only one central office.
- 4. The premises definition as applies to resale of Basic Local Exchange Service is a resale area as defined by layout maps if appropriate.
- 5. Private line services may be provided to tenants of resellers under the rules and regulations specified in this tariff and the Private Line Services Tariff. Resellers may obtain private lines for security purposes such as fire, burglary, etc.
- 6. Private interconnection of resale service areas within an exchange, local calling area and LATA is prohibited. Tie Lines are restricted to the private use of a single resale client and cannot be used to access Local Exchange Service via Resale trunks or lines.
- 7. All other rules and regulations specified in other sections of this Tariff will apply.

ISSUED: December 31, 1986 ; EFFECTIVE: December 31, 1986

BY: *Robert C. Thacker*  
General Manager

Shared Tenant Service Offerings

B. Regulations and Application of Rates (Continued)

2. The client of the reseller is defined as a different business, firm, corporation, company, subsidiary, association, associate or a residence. Listings for Shared Tenant Service Clients may be obtained under the conditions and rates specified in this Tariff. Charges for Listings will not be separately billed.
3. The service establishment charge shown in the Rates section of this Tariff applies for all resale service applications processed under this Tariff and is in addition to all other applicable nonrecurring and recurring charges.
4. Whether the tenants included in a resale service area are residence or businesses, such tenants may be served by the reseller and the same business rates specified in this and other Tariffs will apply to the reseller.
5. The minimum period of service is 36 months with a Service Cancellation Fee (SCF) applicable at the date of termination based on the exchange rates in effect. The Service Cancellation Fee is reduced by 1/36 per month and will be an amount equal to the business rates being billed at the time of termination. A nine month notice is required prior to termination of service by the reseller. If a nine month notice is not received, the reseller will be required to continue to provide service until the Company can provide individual access facilities. But in no case will this requirement extend beyond the nine months from the date the notice of termination is received.
6. When a subscriber located within the designated resale service area wishes to be directly served by the Company on a non-resale basis, or when Thacker-Grigsby or Customer Provided Coin Telephone Service is to be provided in the resale service area, the owner/developer will bear the responsibility for and cost of providing premises access for such services. The owner/developer will make either cable pairs or their equivalents available, or provide facility support (Conduit or poles) access to the Company at no charge for provision of these services.

Shared Tenant Service Offerings

B. Regulations and Application of Rates (Continued)

7. The Company will provide facilities to the first point (demarcation/network interface) on the reseller's premises which, in the judgment of the Company, is suitable for the location of a network interface. The most economical route from existing network distribution facilities will generally determine the approach used in establishing the point-of-demarcation. The customer may designate an alternate approach route for entrance facilities at additional construction charges as specified in this Tariff. The Company will extend the point-of-demarcation to any point designated by the reseller inside his premises at the charges specified in this Tariff. Route selection and location of point-of-demarcation must be in compliance with regulations set forth in other sections of this Tariff and F.C.C. Part 68.
8. All usual and applicable Service Charges and Installation Charges as appropriate indicated in this and other Tariffs apply to the activation, move or change of lines within the sharing and resale offering.
9. Suspension of service as described in this Tariff is not applicable to this Service.
10. Transfer of service responsibility between resellers is permitted and will not change the initial service establishment date used to calculate the SCF identified in this section.

Miscellaneous Service Arrangements  
Emergency Reporting Service

Thacker-Grigsby Telephone Company, Incorporated, called the concurring utility, assents to and adopts the South Central Bell Telephone Company of Kentucky General Subscriber Service Tariff, beginning with Original Page 27, dated November 30, 1986 (A 13.27) Public Service Commission of Kentucky Tariff 2A, through A 13.27.5 - E.5.c, as such Tariff now exists, or as it may be revised, supplemented, superseded by sheets or issues.

Thacker-Grigsby Telephone Company, Incorporated, hereby expressly reserves the right to cancel this statement of concurrence at any time when it appears that such cancellation is in the best interest of Thacker-Grigsby jurisdiction of the Kentucky Public Service Commission as it applies.

Non-published numbers, including the name and address of the subscriber, may be released to 911 providers for the purpose of responding to emergency calls. This includes service configurations such as those in which (1) the information is displayed at a Public Safety Answering Point (PSAP) only on a call-by-call basis, or (2) the company is required to provide the information to the appropriate local 911 authority for all subscribers.

Non-listed numbers, including the name and address of the subscriber, may be released to 911 providers for the purpose of responding to emergency calls. This includes service configurations such as those in which (1) the information is displayed at a Public Safety Answering Point required to provide the information to the appropriate local 911 authority for all subscribers.

Subscribers currently subscribing to non-published or unlisted service on May 29, 1990, or those who subscribe to such services prior to June 28, 1990, and whose listing would otherwise be released shall be given an opportunity to request that their listing be deleted from the data base supplied to the E911 provider.

Telecommunications Relay Service  
For Individuals with Hearing and Speech  
Disabilities in Kentucky

1.1 Regulation

On 04/15/91, the Kentucky Public Service Commission approved a program for Telecommunications Relay Service ("TRS") pursuant to KRS 278.548. This service provides telephone communications between deaf and hearing/speech impaired customers who use telecommunications devices for the deaf ("TDD") and all customers who use standard voice telephones. The service will begin operation on October 1, 1991.

On January 19, 1995 the KY PSC directed all telephone companies in Kentucky to establish a 1 cent per month per access line surcharge in addition to the original TRS surcharge, for the funding of Telecommunications Access (TAP) Program.

The Kentucky Telecommunications Relay Service will operate 24 hours a day, seven days a week. Customers can access the center using toll-free numbers.

To launch the service, the Kentucky Public Service Commission ordered all telephone companies in Kentucky to collect a monthly surcharge from their customers beginning July, 1991.

1.2 Rate

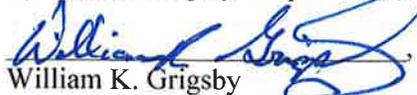

The amount of the TRS surcharge is prescribed by the Kentucky Public Service Commission per month per "access line". In addition to the TRS surcharge there will be a surcharge as prescribed by the Kentucky Public Service Commission per month per access line for the funding of the Telecommunications Access (TAP) Program. Local rates, if any, will apply. Long distance calls will be charged as normal. Long distance calls will be rated from the originating point to the terminating point of the call and will receive a discount in addition to other applicable discounts.

Telecommunication Relay Service  
(Continued)

1.3 "Access Line"

Access lines for purposes of application of this surcharge are defined as facilities which provide access to and from the telecommunications network for toll service and for local calling with the exception of Public Coin, Wats, Remote Call Forwarding, Radio Common Carriers, InterLATA Foreign Exchange Lines, Private Line Service, Mobile, Other Common Carriers, and Thacker-Grigsby Official Lines.

1.4 Billing Phrase

The .02 cent TRS surcharge as well as the .02 cent TAP surcharge shall be combined and identified as a one-line item on customers' bills as follows: R

"TRS/TAP Surcharge"

1.5 Calls to Which TRS Applies

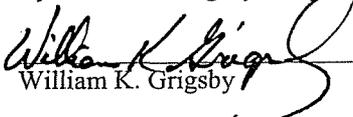

In accordance with KRS 278.548, TRS shall be available state-wide for all ready center calls originating and terminating within Kentucky, but shall not include interstate calls.

The Kentucky Telecommunications Relay Service will handle most calls normally handled over the regular telephone network (except "900" and "976" numbers). These include calls that are dialed direct, billed to a third number, collect, person to person, AT&T, and LEC calling cards.

DIRECT INWARD DIALING (DID) SERVICE

1.1 RULES AND REGULATIONS

DID service permits calls incoming to a PBX or other customer premises equipment from the network to reach a specific station line number without the assistance of an attendant. DID service is provided subject to the availability of facilities and may be furnished from the central office which regularly services the area in which the customer is located or from a foreign central office equipped to provide DID service subject to the appropriate Company intra and interexchange rates.

Rates are in addition to the rates shown elsewhere in this and other Company tariffs for the services and equipment with which this offering is associated.

The service includes central office switching equipment necessary for in-dialing from the network directly to station lines associated with customer premises switching equipment.

The service must be provided on all trunks in a group arranged for inward service. Each trunk group shall be considered a separate service. Grouping Service will not be provided between separate trunk groups.

Facilities and operational characteristics of interface signals between the Company-provided connecting arrangements and the customer-provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.

One primary directory listing will be furnished without charge for each separate trunk group. Additional listings can be obtained as specified in Section F of this Tariff.

The customer shall be responsible for providing interception of calls to vacant and nonworking assigned DID numbers by means of attendant interceptor recorded announcement service.

DIRECT INWARD DIALING (DID) SERVICE (CONT.)

DID numbers are provided in blocks consisting of a minimum of 20 consecutive numbers which may be assigned to station lines or reserved for future use at rates specified herein. The Company will be responsible for interception and administration of reserved numbers.

1.2 RATES AND CHARGES

Direct-Inward Dialing (DID) charges

A. Group of 20 Working or Reserved DID Numbers	INSTALLATION	MONTHLY
	<u>CHARGE</u>	<u>RATE</u>
(1) Working Numbers, each	\$479.66	\$3.97
(2) Reserved Numbers, each	\$479.66	\$3.97
B. DID One-Way Inward Trunk Termination in Central office		
(1) Each	51.40	26.27
C. Multifrequency (MF) Pulsing Option		
(1) Each Trunk	-	6.78
D. Dual Tone Multifrequency (DTMF) Option		
(1) Each Trunk	-	6.78

NOTE 1: The installation charge applies to the first group of DID numbers assigned to a customer per occasion. These rates and charges are applicable in addition to the rates and charges for the provision of PBX trunks and the associated equipment and services.

NOTE 2: These options provide faster signaling on DID trunks. The choice of pulsing alternative depends on the customer's premises equipment.

NOTE 3: Mileage charges on DID trunks are charged on the same basis as applies to other types of individual line access service.

ADVANCED CALLING SERVICES

A. Applications

1. Advanced Calling Services are a family of incoming and outgoing call management services offered in addition to basic telephone service that allow business and residential subscribers to screen, redirect or return selected calls.

B. Definition of Feature Offerings

1. Automatic Call Back

Automatic Call Back allows the customer to automatically redial the last number dialed. If the called line is not busy, the call will be placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. Unless cancelled, for the next 30 minutes both the calling and the called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone the call will automatically be placed.

2. Automatic Recall

This feature enables a customer to automatically return the last incoming call whether it is answered or not. Upon activation of the feature, the customer receives an automated voice response message stating the number of the party who called and is given the option of returning the call.

PART II  
ORIGINAL SHEET 32

If the called line is found to be busy, a 30-minute queuing process begins. The customer is given an indication that the network will attempt to set up the call when the called line is idle. The network periodically tests the busy/idle status of both parties until both lines are found idle, the customer cancels the request, or the queuing process expires. If both lines are found to be idle, the called party is alerted with a distinctive ring signifying that the call may now be completed.

3. Calling Number Delivery

This feature enables the customer to view on a display unit the Directory Number (DN) on incoming telephone calls.

When Calling Number Delivery is activated on a customer's line, the Directory Numbers of incoming calls are displayed on the called CPE during the first long silent period of the ringing cycle.

Any customer subscribing to Calling Number Delivery will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

If the incoming call originates from a multi-line group, the telephone number transmitted will always be the main number of the hunt group unless the calling number is Telephone Number (TN) identified within the group.

Calling Number Delivery is not available on operator-handled calls.

PART II  
ORIGINAL SHEET 33

4. Calling Number Delivery Blocking

a. Calling Number Delivery Blocking

This feature allows a customer to prevent their telephone number on a per-call basis from being seen by someone with Calling Number Delivery service or from being announced to someone with Automatic Recall or Selective Call Rejection service. When the feature is activated before a call, a private status message will be sent instead of the number.

This feature will be available without presubscription.

b. Calling Number Delivery Blocking-Per Line

This feature enables a customer to make all calls with the delivery of their calling number marked as "private". The feature is applicable on all outgoing calls placed from the customer's line; however, if the preassigned activation code for Calling Number Delivery Blocking is dialed on the line, the calling number may be delivered.

This service is only available upon request to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers where the head of the agency certifies to Telephone Company management a need for blocking upon health and safety concerns: (a) Non-profit, tax exempt, private and public social welfare agencies such as domestic violence intervention agencies, (b) federal, state and local law enforcement agencies.

OF KENTUCKY  
EFFECTIVE

MAY 15 1994

PURSUANT TO 807 KAR 5:011,  
SECTION 9 (1)

BY: George L. Lee  
PUBLIC SERVICE COMMISSION MANAGER

Operator services and 9-1-1 service takes precedence over Calling Number Delivery Blocking Per Call and Per Line service with all calling numbers available regardless of the privacy status.

4.1 CALLING NAME/NUMBER DELIVERY (CNAM)

Calling Name delivery displays the name and ten-digit telephone number associated with an incoming call as well as the date and time on the telephone set or adjunct unit after the first ringing displayed, beginning with the last name. This service will be offered in conjunction with Calling Number delivery. Name/Number display allows the subscriber to answer the call with a personalized greeting. With this service, the subscriber has more specific information upon which to base the decision to answer or not.

CNAM requires a telephone set or an adjunct to the set, capable of displaying an alphanumeric set of characters.

Any Customer subscribing to any of the services that requires a display device or any adjunct piece of equipment which will be located on the customer's premise, will be responsible for that equipment. The installation, repair and technical capability of that equipment to function in conjunction with these features specified herein will be the responsibility of the customer. The company assumes no reliability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

OF KENTUCKY  
EFFECTIVE

4.2 Calling Name Delivery Blocking (CNAB)

JUN 20 1998

a. Calling Name Delivery Blocking-Per Call

PURSUANT TO 807 KAR 5:011,  
SECTION 9 (1)

BY: Stephan D. Bell  
SECRETARY OF THE COMMISSION

Calling Name Delivery Blocking is an originating ~~CLASS~~ feature which provides the capability to the calling party to suppress his/her name so that the called party with Calling Name delivery does not receive the information. The called party will receive a "private" message instead of the calling party's name.

CNAB allows the subscriber to temporarily change the status of his/her line suppression status on a per-call basis. CNAB is made available to all subscribers on an office-wide basis without presubscription.

ISSUED: May 12, 1998 EFFECTIVE: June 20, 1998  
BY: Robert C. Thacker  
PRESIDENT

4.2 Calling Name Delivery Blocking (CNAB) (continued)

b. Calling Name Delivery Blocking-Per Line

This number suppression feature enables a customer to make all calls with the delivery of their calling name marked as "private". The feature is applicable on all outgoing calls placed from the customer's line; however, if the preassigned activation code for Calling Name Delivery Blocking-Per Call is dialed on the line, the calling name may be delivered.

This service is only available upon request to the following entities and their employees/volunteers, for lines over which the official business of the agency certifies to Telephone Company Management a need for blocking upon health and safety concerns: (a) Non-profit, tax exempt, private and public social welfare agencies such as domestic violence intervention agencies, (b) federal, state and local law enforcement agencies.

Operator services and 9-1-1 services take precedence over CNAB-per call and per-line service with all calling names available regardless of privacy status.

Although the caller's name can be blocked from a display by CNAB Per Call or Per Line, the name is still transmitted to the terminating CLASS end office. Therefore, the called party (if a CLASS subscriber) can still use the Automatic Recall, Customer Originated Trace and CLASS screening features against the calling party.

4.3 CALLER I.D. WITH NUMBER DELIVERY ON CALL WAITING

Calling Identity Delivery with number delivery on Call Waiting. Provides a subscriber with a display of the number of the calling party in a waiting call.

4.4 CALLER I.D. WITH NAME/NUMBER DELIVERY ON CALL WAITING

Calling Identity Delivery with name/number delivery on Call Waiting. Provides a subscriber with a display of the name/number of the calling party in a waiting call.

4.5 ANONYMOUS CALL REJECTION

Enables a customer to dial a special code to reject those calls from which a privacy indicator is received (meaning that the calling party chose to keep his number or name private). The calling party will receive a recorded announcement indicating that the person they are calling does not wish to receive calls from callers who chose to block their numbers or names.

PSC KY NO 3  
PART II  
1ST REVISED SHEET 34

5. Customer Originated Trace

This feature enables the customer to initiate an automatic trace of the last incoming call. Upon activation by the customer, the network automatically sends a message to the Company's Annoyance Call Bureau indicating the calling number, the time the trace was activated and the time the offending call was received. The customer using this feature would be required to contact their servicing law enforcement agency and have presented to the telephone Company a District Court order authorizing results of traces initiated by the customer to be released directly to the proper authorities for legal handling. There will be a charge to the customer for each annoyance call report provided. The customer acknowledges their understanding that under no circumstance will trace results be provided directly to the customer.

6. Distinctive Ringing/Call Waiting

This feature allows subscribers to program their lines for a distinctive ringing pattern associated with up to twelve (12) specific calling telephone numbers and with a normal ringing pattern for all other calling numbers. In addition, for subscribers who also have Call Waiting, a distinctive call waiting tone is generated when the line is called by one of the directory numbers included on the Distinctive Ringing/Call Waiting screening list.

PSC KY NO. 3  
PART II  
ORIGINAL SHEET 35

7. Selective Call Forwarding

Selective Call Forwarding allows the customer to transfer selected calls to another telephone number. A screening list of up to twelve (12) numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded to the Call Forwarding telephone number only if the calling number can be obtained and is found to match a number on the screening list.

8. Selective Call Rejection

This feature provides the customer the ability to prevent incoming calls from up to twelve (12) different telephone numbers.

A screening list is created by the customer either by adding the last unwanted call received or by pre-selecting the telephone numbers to be blocked. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

9. Selective Call Acceptance

This feature provides the customer the ability to select up to twelve (12) customer telephone numbers from which calls are to be received. All other calls are interrupted and routed to a recorded announcement that informs the caller the customer is not accepting calls.

C. Regulations and Limitations of Service

1. The services are provided subject to the availability of facilities and technical limitations and limited to the company's central offices specifically equipped to provide such service. Also, feature screening lists can only contain telephone numbers of subscribers served out of the company's properly equipped offices.

2. Advanced Calling Services are available to single party and multiple-line resident and business customers who have rotary dial or touch tone service.

3. Advanced Calling Services will not be provisioned on company provided public and semi-public telephone service.

4. Operator-assisted calls are designed to override the feature calls for emergency purposes.

5. Advanced Calling Services are not available for tie trunks, i.e. business groups that exist in multiple offices interconnected by tie trunks.

General Exchange Service Tariff  
Lifeline

A. Description of Service

1. The Lifeline program is designed to increase the availability of telecommunications services to low income subscribers by providing a credit to monthly recurring local service for qualifying residential subscribers. Basic terms and conditions are in compliance with the FCC’s Order on Universal Service in CC Docket 97-157, which adopts the Federal-State joint Board recommendation in CC Docket 96-45, which complies with the Telecommunications Act of 1996. Specific terms and conditions are as prescribed by the Kentucky Public Service Commission and are as set forth in this tariff.
2. Lifeline is supported by the federal and state universal service support mechanisms.

(D)

(D)

3. Federal and state support are available for each Lifeline service and is passed through to the subscriber:

(C)

The State and Federal Credit, one per Lifeline

	<u>Federal</u>	<u>State</u>
Lifeline Credit	*	\$3.50

- \* The Federal component of the Lifeline Credit will be pursuant to the FCC’s 2016 Lifeline Modernization Order, FCC 16-38, Released April 27, 2016.

General Exchange Service Tariff  
Lifeline (continued)

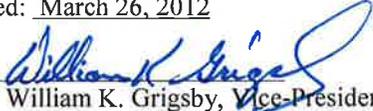

B. Regulations

1. General

- a.
- b. One low income credit is available per Household, and is applicable to the primary residential connection only. A Household is defined as any individual or group of individuals living together at the same address as one economic unit and may include related and unrelated persons. An economic unit consists of all adults contributing to and sharing in the income and expenses of a household. An adult is any person eighteen years or older. If an adult has no or minimal income, and lives with someone who provides financial support to him/her, both people shall be considered to be part of the same household as their parents or guardians.
- c. A Lifeline customer may subscribe to any local service offering available to other residence customers.
- d. Toll blocking, if elected, will be provided at no charge to the Lifeline subscriber.
- e. The deposit requirement is not applicable to a Lifeline customer who subscribes to toll blocking. If a Lifeline customer removes toll blocking prior to establishing an acceptable credit history, a deposit may be required. When applicable, advance payments will not exceed the connection and local service charges for one month.
- f. The federal primary interexchange carrier charge (PICC) will not be billed to Lifeline customers who subscribe to toll blocking and do not presubscribe to a long distance carrier.
- g. A lifeline subscriber's local service will not be disconnected for non-payment of regulated toll charges. Local service may be denied for non-payment of local and miscellaneous service in accordance with Part I of this Tariff. Access to toll service may be denied for non-payment of regulated tolls. A Lifeline subscriber's request for reconnection of local service will not be denied if the service was previously denied for non-payment of toll charges.
- h. Lifeline is not available for resale.

General Exchange Service Tariff  
Lifeline (continued)

2. Eligibility

- a. To be eligible for a Lifeline credit, a customer must be a current recipient of any one of the following programs or have income at or below 135 percent of the Federal Poverty Guidelines. (T)

  - 1. Supplemental Security Income
  - 2. Supplemental Nutrition Assistance Program (T)
  - 3. Medicaid
  - 4. Federal public housing / Section 8
  - 5. Veterans Pension Benefits (C)
  - 6. Survivor Pension Benefits (C)
  - 7. (D)
  - 8. (T)

- b. All applications for service are subject to verification with the state agency responsible for administration of the qualifying program.

3. Certification

- a. Proof of eligibility in any of the qualifying low-income programs should be provided to the company at the time of application for service. The Lifeline credit will not be established until the Company has received proof of eligibility. If the customer requests installation prior to the company's receipt of proof of eligibility, the requested service will be provided without the Lifeline credit. When eligibility documentation is provided subsequent to installation, the Lifeline credit will be provided on a going forward basis. (T)
- b. Proof of eligibility shall be in the form of an affidavit, certifying under penalty of perjury, that the subscriber is receiving benefits under one of the qualifying programs, is not already receiving a Lifeline benefit, will notify the carrier within 30 days if the subscriber is no longer eligible or moves to a new address and the subscriber acknowledges the recertification requirement which can result in de-enrollment if not completed. It is the customer's responsibility to notify the company when the customer is no longer participating in any of the qualifying programs. (T)

GENERAL EXCHANGE TARIFF

1. ISDN PRI

1.1 Description of Service

PRI (23B+1D)

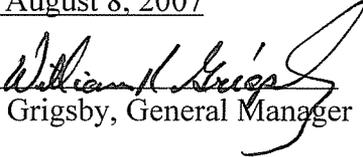

ISDN PRI service provides a method of access to the telephone network called Primary Rate Interface (PRI). Primary Rate Interface is an ISDN based, DS1 access link to the telecommunications network and provides integration of multiple voice and data transmission channels on the same line. The basic channel structure for PRI is twenty- three (@#) 64 Kbps bearer channels (B channels) and one (1) 64 Kbps data channel (D channel). These B channels may be used to connect the Customer's premise equipment to the Public Circuit Switched Network (e.g. outward, inward and two-way trunks, and WATS/800 Service access lines).

ISDN PRI service is a service for the transmission of digital signals only. Clear Channel Capability and Extended Superframe Format are inherent to the service. The user is responsible for providing Customer Premise Equipment (CPE) that is compatible with the ISDN PRI service interface. The Company shall not be responsible if changes in any of the equipment, operations or procedures of the Company utilized in the provision of ISDN PRI service render any facilities provided by the Customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance. Digital transmission rates at speeds less than those indicated may be accomplished as a function of the particular CPE furnished by the user. Suspension of service is not allowed. Individual Case Basis pricing will be available for on-network Customers or for Customers agreeing to term plans. Busy line verification and Emergency Interrupt service is not available for ISDN PRI services.

GENERAL EXCHANGE TARIFF

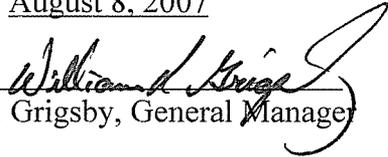

1. ISDN PRI (Cont'd)

1.2 Regulations

1. ISDN transmission cannot be completed to central offices that are connected by trunks that are not compatible to transmitting ISDN services.
2. ISDN transmission cannot be completed to central offices that are not equipped to provide ISDN services.
3. The Company will provide ISDN services to the Network Interface Device (NID) normally located outside the customer premises. It is the customer's responsibility to provide inside wire and compatible customer premise equipment (CPE).
4. Where loop conditions cannot be met, the customer must subscribe to ISDN Individual Line Loop Extension. Individual Line Loop Extension is restricted to one per line and to the copper loop beyond 14,000 feet but within 34,000 feet. Availability of Line Loop Extension service is subject to network limitations and may not be available to all subscribers.
5. Outside loop modifications to accommodate ISDN services (removal of load coils, loop extension installations, etc.) may require longer installation time than for other services.
6. Other services (Custom calling features, CLASS, etc.) can be ordered with ISDN pursuant to other sections of this tariff except Optional Calling Plans unless an operational conflict exists. In the event that such a conflict exists, the Company will notify the customer accordingly.

Issue Date: August 8, 2007

Effective Date: August 10, 2007

Issued by:   
William K. Grigsby, General Manager

GENERAL EXCHNAGE SERVICE TARIFF

1. ISDN PRI (Cont'd)

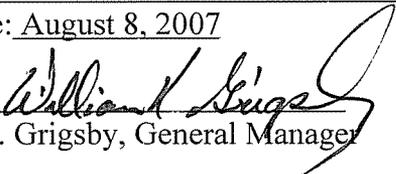

1.2 Regulations (cont'd)

7. Customer-requested suspension of service as shown in Part I Sheet 33 of this Tariff will not apply to ISDN services.
8. All rules and regulations shown elsewhere in this tariff will apply to ISDN services. In the event that a conflict exists, regulations in this section will supercede the regulation in conflict.
9. Due to the complexity of ISDN installation, standard installation intervals do not apply.
10. PRI operates over four-wire or equivalent digital facilities utilizing 1.544 high capacity digital transport technologies for connection from the designed Company ISDN-PRI serving central office to the customer serving central office and to the local digital loop facilities serving the customer. Rates for PRI Loop service are found in this section.
11. Customers requesting service from end offices not supporting ISDN can receive ISDN on a foreign basis. Additional charges apply based on the airline mileage between the ISDN-capable central office and the Customer's serving wire center pursuant to rates found in this Section.

LOCAL EXCHANGE SERVICE TARIFFS

PREFACE

Effective January 1, 1983, pursuant to the conditions imposed by the FCC's orders in Docket 20828, any customer premises equipment, as defined by the FCC offered within this Local Exchange Service Tariff of Thacker-Grigsby Telephone Company, Inc., shall be provided by the Company for use with new or existing service only so long as such equipment is available from Company inventory, except as otherwise permitted by the FCC and the Public Service Commission.

The Company shall continue to provide maintenance for Company provided customer premises equipment subject to the availability of replacement parts and equipment.

The use and provision of Company provided customer equipment remains subject to the regulations of filed tariffs.

LOCAL EXCHANGE TARIFFS – CODY EXCHANGE

(C)

I. General

- A. This Tariff is governed, except as otherwise specified herein, by the General Rules and Regulations, Kentucky P.S.C. No. 4 and the General Exchange Tariffs of KY P.S.C. No. 4 which are hereby made a part of this Tariff. Unless otherwise specified, the charges quoted in this Tariff or in the General Rules and Regulations and General Exchange Tariffs are for periods of one month, are payable monthly in advance and entitle the customer exchange access service within the exchange listed.
- B. The rates quoted herein entitle the subscribers of this exchange to call, without additional charge subject to paragraph III of this Section, the exchanges listed below. This listing refers exclusively to out-bound calling; the determination of in-bound toll-free calling is outside the scope of this tariff.

LOCAL EXCHANGE TARIFFS – PIPPA PASSES EXCHANGE

(C)

I. General

- A. This Tariff is governed, except as otherwise specified herein, by the General Rules and Regulations, Kentucky P.S.C. No. 4 and the General Exchange Tariffs of KY P.S.C. No. 4 which are hereby made a part of this Tariff. Unless otherwise specified, the charges quoted in this Tariff or in the General Rules and Regulations and General Exchange Tariffs are for periods of one month, are payable monthly in advance and entitle the customer exchange access service within the exchange listed.
- B. The rates quoted herein entitle the subscribers of this exchange to call, without additional charge subject to paragraph III of this Section, the exchanges listed below. This listing refers exclusively to out-bound calling; the determination of in-bound toll-free calling is outside the scope of this tariff.

FLAT-RATE AREA CALLING SERVICE

1. Description of Service - Flat-Rate Area Calling Service is an optional service which allows customers in a given exchange to originate calls to one or more exchanges without the application of long distance message telecommunications charges. Customers pay a monthly recurring flat rate charge which will allow calling into their extended local calling scope with no additional charges. Initial availability of the service in each exchange is determined by Thacker-Grigsby Telephone Company, Inc.
2. The exchanges in which Flat-Rate Area Calling is offered and the exchanges comprising the extended local calling scope for each exchange are listed below.

PURSUANT TO 807 KAR 5.011,  
SECTION 9(1)

Usage Charges

Calls into the Extended Local Calling Scope per minute of use charges. This will not affect calling within the local calling area. Local calls will not incur per minute of use charges. Usage charges will be distance sensitive and time-of-day sensitive, and will be applied to each minute of use.

BY: Jordan C. Neal  
FOR THE PUBLIC SERVICE COMMISSION

The per minute of use charge rates will depend on the time in which the call occurs and the location to which the call is terminated. The rates are charged in increments of an initial rate period of one minute and additional minutes. The initial rate period is for connections of one minute or any fraction thereof. Each additional minute is billed on a per minute of use or any fraction thereof that the connection continues beyond the initial rate period. If a call is initiated in one rate period and continues into another rate period, the per minute charges will change accordingly for any minutes occurring in the next rate period.

Minute of Use Charges

Distance <sup>1</sup>	STANDARD		DISCOUNT	
	1st Minute	Add'l Minute	1st Minute	Add'l Minute
0-10 Miles	.05	.03	.025	.015
11-16 Miles	.07	.05	.035	.025
17+ Miles	.10	.08	.05	.04

<sup>1</sup>Distance is the airline mileage from rate center to rate center V&H measurements which is equivalent to the mileage measurement for long distance calls.

Issued: November 2, 1994

Effective: December 12, 1994

By: Robert C. Thacker

II. GENERAL REGULATIONS (Continued)

G. Advance Payments

1. Applicants for service who have no account with the Telephone Company or whose financial responsibility is not a matter of general knowledge, may be required to make an advance payment at the time the application is signed, equal to any construction charges applicable and at least one month's estimated charges for the service provided.
2. The amount of the advance payment is credited to the customer's account as applying to any indebtedness under the contract.

H. Payment for Service

The customer is required to pay all charges for service in accordance with the Telephone Company's regular billing and collection practices.

I. Deposits

The Telephone Company may, in order to safeguard its interest, require an applicant or a customer to make a suitable deposit to be held by the Telephone Company as a guarantee of the payment of charges. The fact that a deposit has been made in no way relieves the applicant or customer from complying with the Telephone Company's regulations as to advance payments and the prompt payment of bills on presentation. At such time as the contract is terminated, the amount of the deposit is credited to the customer's account and any credit balance which may remain is refunded. At the option of the Telephone Company, such a deposit may be refunded or credited to the customer at any time prior to termination of the contract. In case of a cash deposit, simple interest at the legal rate is paid for the period during which the deposit is held by the Telephone Company, provided the period is thirty days or more.

II. GENERAL REGULATIONS (Continued)

J. Cancellation for Cause

Upon nonpayment of any sum due the Telephone Company or upon a violation of any of the conditions governing the furnishing of a service or upon the use of any service for the purpose of performing any service in competition with the service which the Telephone Company or its connecting carriers may now or hereafter furnish the Telephone Company may, by notice in writing to the customer without incurring any liability, forthwith discontinue the furnishing of said service and terminate the contract.

K. Application of Construction Charges

When special construction for individual customers is necessary, special construction charges may apply as set forth in the Construction and Installation Charges Part of the General Exchange Tariff.

II. METHOD OF APPLYING RATES

Insofar as our Company does not perform any toll operating, our Company concurs in the method of applying rates as filed in the Tariff of the Bell Company.

IV. TWO POINT SERVICE

A. Classes of Service

Two classes of message toll telephone service are offered, namely, station-to-station service and person-to-person service. For each class of service, Day, Night and Sunday rates apply as follows:

1. Day rates

Day rates apply from 4:30 a.m. to, but not including, 6:00 p.m. on all days except Sundays, Christmas, Thanksgiving and New Years Day.

2. Night and Sunday rates (reduced rates)

Night rates apply daily from 6:00 p.m. to, but not including 4:30 a.m. Sunday rates apply on Sundays from 4:30 a.m. to, but not including 6:00 p.m.

IV. TWO POINT SERVICE (Continued)

B. Station-to-Station Service

Station-to-Station service is that service under which the person originating the call gives only the telephone number of the station or branch exchange system desired or the name and address under which the telephone is listed and does not specify a particular person or branch exchange station to be reached at the called point.

C. Person-to-Person Service

Person-to-Person service is that service under which the person originating the call specifies a particular person to be reached at the called point or a particular station, department, office or branch reached through a branch exchange:

1. Where the person originating the call wishes arrangements made in advance with a particular party or station for the establishment of a connection at a specified time (appointment call), the call is classified as person-to-person.
2. When it is necessary for the Telephone Company to employ a messenger or other means to bring the called party to a telephone associated with the Telephone Company or its connecting carriers, the call is classified as person-to-person and, in addition to the charges for the message, a charge is made for the exact amount expended, if any, for messenger service.

D. Collection of Charges

1. Charges for all classes of telephone calls are billed against or collected from the calling telephone in all cases, except that upon request toll charges may be:
  - a. Billed against or collected from the called telephone (i.e., charges may be reversed) if the charges are accepted at the called station.

E. Time of Day

1. The time of day when conversation actually starts, determined in accordance with the time system--standard or daylight saving--legally or commonly in use at the point where the calling station is located, determines whether day, night or Sunday rates apply. This rule applies irrespective of whether the call is sent paid or collect.

COMMISSION

E. Time of Day (Continued)

- a. In cases where a message begins in one rate period and ends in another, the rate in effect at the conversation starts applies to the entire conversation.

F. Initial and Overtime Periods

- 1. Message toll rates are quoted in terms of initial and overtime periods.

- a. The initial period is the interval of time allowed at the rate quoted for a toll connection between given points.
- b. The overtime period is the unit of time used for measuring and charging for time in excess of the initial period.

2. Timing of Messages

- a. Length of conversation is the elapsed time between the start and the end of the telephone communication.
- b. On calls placed on a station-to-station basis, conversation is considered as starting at the time telephonic communication is established between the calling station and the called station.
- c. On calls placed on a person-to-person basis, conversation is considered as starting at the time telephonic communication is established between the person calling and the particular person called or another party acceptable to the person calling, or the private branch exchange extension station called.
- d. On all calls, conversation is considered as terminated at the time the disconnect signal is received by the operator handling the call.

G. Initial and Overtime Period Rates

Insofar as our Company does not perform any toll operating, our Company concurs in the filed Bell Tariff rates for long distance service.
