TARIFF FORMAT

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the KPSC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the KPSC follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

D. Check Sheets - When a tariff filing is made with the KPSC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Commission.

SECTION 2 - RULES AND REGULATIONS

2.1 Undertaking of GLOBAL TELCOIN, Inc.

GLOBAL TELCOIN, Inc. services and facilities are furnished for communications originating at specified points within the state of Kentucky under terms of this Tariff.

GLOBAL TELCOIN, Inc. installs, operates, and maintains the communication services provided hereinunder in accordance with the terms and conditions set forth under this Tariff. It may act as the customer's agent for ordering access connection facilities provided by other carriers or entities when authorized by the customer, to allow connection of a customer's location to the GLOBAL TELCOIN, Inc. network. The customer shall be responsible for all charges due for such service arrangement.

2.2 Limitations

2.2.1 Service is offered subject to the availability of facilities and the provisions of this Tariff.

2.2.2 GLOBAL TELCOIN, Inc. reserves the right to discontinue furnishing service, or limit the use of service necessitated by conditions beyond its control; or when the customer is using service in violation of the law or the provisions of this Tariff.

2.2.3 All facilities provided under this Tariff are directly controlled by GLOBAL TELCOIN, Inc. and the customer may not transfer or assign the use of service or facilities, except with the express written consent of The Company. Such transfer or assignment shall only apply where there is no interruption of the use or location of the service or facilities.

SECTION 2 - RULES AND REGULATIONS

2.2 Limitations (Cont.)

2.2.4 Prior written permission from The Company is required before any assignment or transfer. All regulations and conditions contained in this Tariff shall apply to all such permitted assignees or transferees, as well as all conditions for service.

2.3 Liabilities of The Company

2.3.1 GLOBAL TELCOIN, Inc.'s liability for damages arising out of mistakes, interruptions, commissions, delays, errors, or defects in the transmissions occurring in the course of furnishing service or facilities, and not caused by the negligence of its employees or its agents, in no event shall exceed an amount equivalent to the proportionate charge to the customer for the period during which the aforementioned faults in transmission occur.

2.3.2 GLOBAL TELCOIN, Inc. shall be indemnified and held harmless by the customer against:

(A) Claims for libel, slander, or infringement of copyright arising out of the material, data, information, or other content transmitted over The Company's facilities.

(B) All other claims arising out of any act or omission of the customer in connection with any service or facility provided by GLOBAL TELCOIN, Inc.

2.4 Interruption of Service

2.4.1 Credit allowance for the interruption of service which is not due to The Company's testing or adjusting, negligence of the customer, or to the failure of channels or equipment provided by the customer, are subject to the general liability provisions set forth in 2.3.1 here in. It shall be the obligation of the customer to open up the Company immediately of any interruption in service. EFFECTIVE

PUBLIC SERVICE COMMISSION MANAGER

SECTION 3 - DESCRIPTION OF SERVICE

3.1 Timing of Calls

The customer's long distance usage charge is based on the actual usage of GLOBAL TELCOIN, Inc. network. Usage begins when the called party picks up the receiver. When the called party picks up is determined by hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. When software answer supervision is employed, up to 42 seconds of ringing is allowed before it is billed as usage of the network. A call is terminated when the calling party hangs up.

3.2 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate center involved. The Company uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communications Research in their NPA-NXX V & H Coordinates Tape and Bell's NECA Tariff No. 4.

FORMULA:

$$\sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

3.4 Service Offerings (Cont.)

3.4.8 Pre-Paid Debit Card Service

Customers establish service with Global Telcoin through the purchase of a Customer Card Account. Each Customer Card Account has a unique authorization code which the company uses to verify the authorized user's available balance. Each customer card account is established with a specified available balance. The available balance is depleted on a real per call basis at the rates specified in this tariff.

The available balance and usage rates specified in this tariff are stated inclusive of taxes. Customers are notified of their available balance upon each entry into the Company's network.

When the available balance has been fully depleted, the customer may use another customer customer card account, provided there is an adequate balance remaining.

Prepaid Card Service is available to customers for originating calls from any business, residential, or pay telephone access line. Customers dial a 1-800 number followed by their customer card account authorization code. Customers are informed of their available balance and can place calls to any intrastate location until the customer card account available balance is fully depleted. Depletion of the available balance is based on minutes of use rounded up to the full minute.

(Per Minute Rate (all times/all miles): \$.45

Sponsor Programs

From time to time, the company may enter into sponsor programs with third parties for the joint marketing and production of cards and services. The Sponsor may offer the Company's services to end users at reduced rates or at no charge as a promotional offering, either alone or as part of a combined package with other goods and services.
