E.1.1 General

1. Special charges in the form of installation charges, monthly charges, or both, are applied in addition to the usual service connection charges and monthly rates, when, because of the occasional nature of the service or an unusual investment or expense, the revenue does not reasonably compensate the Company, as for example:
 - a. The facilities are provided in remote or undeveloped areas outside the base rate area.
 - b. The facilities are provided on a temporary basis.
 - c. Conditions require the provision of special equipment or unusual methods of plant construction, installation or maintenance.

2. Title to all construction, provided wholly or partly at a customer's expense, is vested in the Company.
3. The word "cost", when used in this Section, means the in-plant cost consisting of labor, engineering, materials, supervision, and other overhead expenses associated with the construction. Estimated cost may be used; however, where the customer requests, actual cost will be used where practicable.
4. When attachments are made to poles of other companies in lieu of providing new pole line construction for which construction charges would be applicable under the provisions of this Section, the attachment rental charged to the Company may be assessed to the applicant (s) in whole or in part as the particular circumstances may warrant.
