All customers may pay their bills by credit/debit card. This method of payment may be made in person at the office or by phone. If on the bill due date, an attempt to pay by credit/debit card is made and the card is declined for any reason, payment is still due in full on that date and will be considered late after that date. All late charges and penalties will be applied. If a customer is paying on our disconnect day and the card is declined, the same rules as above apply, in addition to service being disconnected.

When a customer makes a payment by credit card, the utility will assess a fee equal to the charges to the utility by the credit/debit card processing company to process the transaction. This fee is generally calculated using a formula applied to the balance of the amount charged to the credit/debit account but may be a flat fee per transaction. Prior to processing the transaction, the customer will be informed of the fee amount and upon request by the customer, the formula employed to arrive at this fee amount.

FIRE DEPARTMENTS:

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the utility's water distribution system for the purpose of fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15th day of the following calendar month.

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district that withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water.

A non-reporting user's usage shall be presumed to 0.3 percent of the utility's total water sales for the calendar month. A non-reporting user may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and may adjust the presumed usage amount accordingly.

The non-reporting user shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting user shall also be assessed a penalty of \$ 25.00 for each failure to submit a report in a timely manner.

DEPOSITS

All customers will pay equal deposits as set forth in this tariff. Interest will accrue on all deposits at the rate prescribed by law beginning on the date of the deposit. Interest accrued will be refunded to the customer or credited to the customer's bill on an annual basis. If interest is paid or credited to the customer's bill prior to twelve (12) months from the date of deposit or the last interest payment date, the payment or credit shall be on a prorated basis.

(T)
↓

Deposits will be returned after one (1) year if the customer has established a satisfactory payment record for that period. The district considers a customer to have a satisfactory payment record if they have had no more than three late payments within a twelve (12) month period. If a deposit has been returned and the customer fails to maintain a satisfactory payment record, another deposit may be required. Upon termination of service, any deposit and interest owed to the customer will be credited to the final bill with any remainder refunded to the customer.

RULES AND REGULATIONS

The following rules and regulations are made and approved by the Corinth Water District and no employee of the Corinth Water District has any power or authority to alter or change these rules and regulations.

1.) APPLICATION FOR CONNECTION: Connection to the mains of Corinth Water District, hereinafter referred to as "District" will be made on the written application on blanks provided by company, after applicant agrees to comply with the rates, rules, and regulations of company, and after the approval of the application by district indorsed thereon. The size of service lines, valves, meters, and other fittings, fixtures, or appliances necessary to render the service for which application is made shall be determined by district.

2.) APPLICATION FOR SERVICE: On application of the owner or any authorized agent or any tenant of the owner, water will be furnished through existing connections, or, on application of the owner, through new connections, after owner agrees to comply with the rates, rules, and regulations of district, and after the approval of the application by district indorsed thereon. The application shall state the name of the owner of the premises, the character and extent of the service desired, a description of the premises, including the name of the street and house number, if any, the number and kind of fixtures through which water will be supplied, and such other information as district may reasonably require.

17.) DISCONTINUANCE OF WATER SERVICE IN EVENT OF EMERGENCY:

As necessity may arise in case of break, emergency, or for any other unavoidable cause, district may temporarily cut off the water supply in order to make necessary repairs, connections, or the like. However, district will use all reasonable and practicable measures to notify consumer of such discontinuance of service. In such case, district shall not be liable for any damage or inconvenience suffered by consumer or for any claim against it at any time for interruption in service, lessening of the supply, inadequate pressure, a poor quality of water, or for causes reasonably beyond district's control.

18.) RESERVE FOR EMERGENCY: District may reserve a sufficient supply of water at all times in its reservoirs to provide for fires and other emergencies or may restrict or regulate the quantity of water used by consumers in case of scarcity or whenever the public welfare may require it. No street or lawn sprinkling shall be done at times of water shortage, and sprinkling shall be discontinued during the period whenever a fire alarm has rung.

19.)
