

**CLASSIFICATION OF SERVICE**  
**SERVICE CLASSIFICATION NO. 4**

**Applicable**

Applicable to the entire Service Territory of Kentucky-American Water Company unless otherwise noted.

**Availability of Service**

Available for municipal or private fire connections used exclusively for fire protection purposes.

**Rates for Public Fire Service**

	<u>Rate Per Month</u>	<u>Rate per Annum</u>
(I) For each public fire hydrant contracted for or ordered by Urban County, County, State or Federal Governmental Agencies or Institutions.	\$53.95	\$647.40

**Rates for Private Service**

(I) For each private fire hydrant contracted for by Industries or Private Institutions.	\$84.80	\$1,017.60
---	---------	------------

Fire service connections are furnished for the sole purpose of supplying water for the extinguishment of fires. If the Company has reason to believe water is being used for other purposes, including that the connection or line is leaking, the Company may install a meter to monitor usage, and, in addition, to the rates for fire protection listed above, all usage shall be billed at the Commercial rate in Service Classification No. 1. The applicable Service Charge listed In Service Classification No. 1 shall also be charged.

The charges under this provision are in addition to any general water service charges.

**Special Provisions**

A few hydrants are connected to mains by a “special connection.” A “special connection” exists when a customer and the Company entered into a service contract in which the customer agreed to maintain an unmetered water line from a Company main to the customer’s service line. If the Company has reason to believe water from a special connection is being used for purposes other than fire protection, including that the connection or line is leaking, the Company may install a meter and charge for usage under this tariff. The Company may require the customer to pay for the meter and its installation if:

- (1) the Company gives the customer written notice of the usage problem, requests that the customer correct the problem, and informs the customer that failure to correct the problem within 90 days could result in liability of the customer for the cost of installing a meter to monitor usage,
