RULES AND REGULATIONS

PURCHASED GAS ADJUSTMENT APPLICABLE TO ALL RATE SCHEDULES

The rates authorized herein are based upon the wholesale cost of gas to the Applicant as computed upon rates of its wholesale suppliers then currently in effect under valid contracts or under wholesale tariffs of this Commission. For the purpose of this purchased gas adjustment clause, these rates shall be considered as the base rate for purchased gas. In the event there is an increase in this base rate the Applicant shall file with this Commission the following information:

(1) A copy of the wholesale supplier tariff or wholesale tariff of this Commission effecting the change in the base rate and a statement relative to the effective date of such proposed change.

(2) A statement setting out the details of gas purchased under the provision of the base rate for the previous twelve months showing billing under the base rate and under the proposed revised rate applicable to this service.

(3) A statement setting out the details of gas sold for the previous twelve months.

(4) A balance sheet as of the end of the latest twelve-month period and a statement of operating expenses and revenues in the same detail as reported to this Commission in the utility's annual report.

(5) Such other information as this Commission may request for a proper determination of the purchased gas adjustment.

PUBLIC SERVICE COMMISSION  
OF KENTUCKY  
EFFECTIVE

JAN 17 1984

In the event there is a decrease in purchased gas costs or refund, the Applicant shall file the information required in 1, 2 and 4 above.

and will issue its Order setting out the purchased gas adjustment that the utility shall apply to its rates.

The maximum amount of the adjustment so prescribed shall not produce revenue adjustments based upon the actual preceding twelve-month period, greater than the difference between the purchased gas billed at the then existing rates and the purchased gas billed at the revised rate.

On and after the effective date of this rate schedule, if any increase or decrease is made into the rate at which the company's gas suppliers sell gas to the company, the unit charges of the afore-said rate schedule shall be increased or decreased by a purchased gas adjustment determined as follows:

(1) Gas purchasers will be determined by the company under supplier's applicable rate schedule during a period of twelve calendar months ending within three months preceding the month of the effective date of the supplier's rate change. Such purchases shall be:

- (a) At the base supplier rate
- (b) At the new supplier rate

The difference between these amounts shows the total change in the company's purchased gas costs.

(2) The total change in purchased gas costs shall be divided by the actual number of cubic feet of gas sold by the company during said twelve-month period, yielding the purchased gas adjustment expressed in cents per cubic feet, unless the company's gas loss exceeds five percent. The unit charge or credit so determined shall be the purchased gas adjustment applicable to consumer billings.

RULES AND REGULATIONS

In instances where the gas loss exceeds five percent, the actual gas sales shall be divided by 95 percent, yielding the maximum allowable gas purchases. The maximum allowable gas purchases shall then be multiplied by the change in cost per cubic foot yielding the total allowable change. The total allowable change shall then be divided by the actual number of cubic feet of gas sold by the company during the said twelve-month period, yielding the unit charge or credit applicable to consumer billings.

(3) The new supplier rate shall become the base supplier rate to be used in measuring the effect of any subsequent supplier rate change. Each such subsequent change shall be treated in the same manner as set forth above for the establishment of a new purchased gas adjustment and for the establishment of a new base supplier rate.

In the event that the company receives from its supplier a refund of amounts paid to such supplier in respect of a prior period, the company will apply to the Commission for authority and upon receipt thereof make adjustments on the amount charged to its customers under this provision, as follows:

(1) The "refundable amount" shall be the amount received by the company as a refund. Such refundable amount shall be divided by the number of cubic feet of gas that company estimates it will sell to its customers during the four-month period commencing with the first day of the month following receipt of the refund thus determining a "refund factor".

(2) Effective with meter readings taken on and after the first day of the second month following receipt of the refund, the company will reduce by the refund factor so determined any purchased gas adjustment that would otherwise be applicable during such period. Provided, however, that the period of reduced purchased gas adjustment will be adjusted, if necessary, in order to refund as nearly as possible the refundable amount.
