MONITORING OF CUSTOMER USAGE

The Company will monitor the usage of each customer according to the following procedures:

If the annual usage for two periods are substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions common to all customers, no further review will be done.

If the usages differ and cannot be attributed to a readily identified common cause, the Company will compare the customer's monthly usage records for the two (2) month period with the monthly usage for the same months of the preceding year.

If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the Company will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service line.

Where the deviation is not other wise explained, the Company will test the customer's meter to determine whether it shows an average error greater than two (2) percent fast or slow.

The Company will notify the customer of the investigation, its findings, and any refund or backbilling in accordance with 807 KAR 5:006, Section 10 (4) and (5).

In addition to the routine monitoring, the Company will immediately investigate usage deviations brought to its attention as a result of its on going meter reading or billing processes or customer inquiry.

The Company cannot and does not guarantee either a sufficient supply or an adequate or uniform pressure of the gas supplied, except as mandated by the Public Service Commission, and shall not be liable for any damage or loss resulting from inadequate or interrupted supply or from any pressure variations when such conditions are not due to willful fault or neglect on its part.

BUDGET PAYMENT PLAN

The Company has a budget payment plan available for its residential customers whereby a customer may elect to pay a monthly amount for the budget year in lieu of monthly billings for actual usage. The monthly budget payment will be determined by the Company based, under normal circumstances, on a minimum of one-twelfth of the estimated annual usage, subject to review and adjustment during the budget year. The normal budget year for all residential customers is the twelve months from April to May with May being the settlement month.

The customer's account may be adjusted through a series of levelized adjustments on a monthly basis if usage indicates that the account will not be current upon payment of the last budget amount.

If customer fails to pay bills as rendered under the budget payment plan, the Company reserves the right to revoke the plan, restore the customer to regular billing and require immediate payment of any deficiency.

Failure to receive a bill in no way exempts customer from the provisions of these Terms and Conditions.

When the Company is unable to read a meter after reasonable effort, the customer will be billed at the average of the three preceding monthly bills and the billing adjusted when the meter is read. Customer's bill will be due within 10 days from date of bill.
