GAS COST ADJUSTMENT CLAUSE

APPLICABILITY

The charge to each customer for the cost of gas shall be the appropriate Gas Cost Recovery Rate applied to the customer's monthly consumption. This charge is applicable to all Company sales that are under jurisdiction of the Kentucky Public Service Commission (Commission).

DETERMINATION OF GCRE AND GCRN

The Company shall file a quarterly report with the Commission which shall contain updated gas cost recovery rates (GCRE, GCRN) and shall be filed at least thirty (30) days prior to the beginning of each calendar quarter. The GCRE and GCRN shall become effective for billing with the final meter readings of the first billing cycle of each calendar quarter.

The gas cost recovery rates are comprised of:

- (1) The expected gas cost component (EGC) on a dollar per MCF basis, rounded to the nearest 0.1 cent, which represents the average cost of gas supplies including propane.
- (2) The supplier refund adjustment (RA) on a dollar per MCF basis, rounded to the nearest 0.1 cent, which reflects refunds received during the reporting period plus interest at a rate equal to the average of the "3-month Commercial Paper Rate" for the immediately preceding 12-month period, less $\frac{1}{2}$ of 1 percent to cover the cost of refunding; except that portion of refunds applicable to the period prior to January 1, 1980, which are ultimately determined to be payable for sales to non-exempt industrial customers, which shall be paid in a lump-sum as approved by the Commission. Prior refund amounts not distributed or amounts over distributed shall be added to, if under distributed, or subtracted from, if over distributed, the refunds received, during the reporting period. (C)
- (3) The balancing adjustment (BA) on a dollar per MCF basis, rounded to the nearest 0.1 cent, which compensates for any previous over or under collections of gas cost by the Company through operation of the gas cost recovery procedure.
- (4) The incremental pricing credit component (IPC) on a dollar per MCF basis, rounded to the nearest 0.1 cent, which distributes to exempt customers the monies collected by the Company from non-exempt customers under provisions of the Natural Gas Policy Act of 1978 (NGPA).
- (5) The incremental pricing surcharge (IPS) on a dollar per MCF basis, rounded to the nearest 0.1 cent, not included in the determination of the GCRE, which provides for compliance with the provisions of the NGPA applying to non-exempt customers.

BILLING

The gas cost recovery rate to be applied to bills of exempt customers shall equal the sum of the following components:

$$GCRE = EGC + RA + BA + IPC$$

The gas cost recovery rate to be applied to bills of non-exempt customers shall equal the sum of the following components:

$$GCRN = EGC + RA + BA + IPC + IPS$$

DEFINITIONS

For purpose of this tariff:

- (A) "Average Cost" means the cost of gas supplies, including associated transportation and storage charges, and propane which results from the application of suppliers' rates currently in effect, or reasonably expected to be in effect during the calendar quarter, on purchased volumes during the twelve month period, ending with the reporting period, divided by the corresponding sales volume.
- (B) "GCR" means the sum of the expected gas cost component plus the supplier refund adjustment plus the balancing adjustment; i.e., $GCR = EGC + RA + BA$.

TRANSPORTATION SERVICE

AVAILABILITY

Available in communities indicated on Sheet No. 2 of this tariff.

APPLICABILITY

Applicable to gas customers who have purchased natural gas pursuant to the rules and regulations of the Federal Energy Regulatory Commission and request the Company to transport such gas. Any such transportation service shall be accomplished through displacement and delivered on a "best efforts" basis and shall be subject to the terms and conditions set forth herein. The Company reserves the right to decline requests to initiate such service whenever, in the Company's judgment, rendering the service would be detrimental to the operation of the Company's system or its ability to supply gas to its customers receiving service under the provisions of its standard general service or off peak service tariffs.

1. The customer must be receiving gas service pursuant to the provisions of the Company's Off Peak rate and the volume of Off Peak Gas specified in the written Service Agreement is the maximum volume to be transported by the Company; and,
2. The customer must present to the Company an affidavit to verify that the customer has a source of supply of an alternative fuel which is lower in equivalent price, including transportation charges and taxes, than the Company's current gas charges, which reflect its base rate and applicable adjustments including the gas cost adjustment (GCA). The affidavit must be dated within thirty (30) days of the requested transportation service and may be verified by the Company within each subsequent twelve (12) month period.

PUBLIC SERVICE COMMISSION MANAGER

ALTERNATIVE FUELS

The Company may charge a lower rate than that specified in the "NET MONTHLY BILL" provision to meet competition from alternate fuels without prior Commission approval. The decision to charge a lower rate will be made on a case by case basis, supported by a statement in the customer's current affidavit that absent such lower rate, customer would utilize an alternate fuel source.

TERMS AND CONDITIONS

The Customer shall enter into a written agreement with the Company. Such agreement shall set forth specific arrangements as to volumes to be transported as well as any other circumstances relating to the individual customer.

The Customer shall be responsible to make all necessary arrangements and secure all requisite regulatory or governmental approvals, certificates or permits to enable the gas transported to be delivered to the Company's system.

The Company's "best effort" basis is defined as the right, at any time, to curtail or interrupt the delivery or transportation of gas under this tariff when, in the judgment of the Company, such curtailment or interruption is necessary to enable the Company to maintain deliveries to residential and other high priority customers or to respond to any emergency.

The term of contract shall be contained within the written Service Agreement.

TRANSPORTATION SERVICE

AVAILABILITY

Available in communities indicated on Sheet No. 2 of this tariff.

APPLICABILITY

Applicable to gas customers who have purchased natural gas pursuant to the rules and regulations of the Federal Energy Regulatory Commission and request the Company to transport such gas. Any such transportation service shall be accomplished through displacement and delivered on a "best efforts" basis and shall be subject to the terms and conditions set forth herein. The Company reserves the right to decline requests to initiate such service whenever, in the Company's judgment, rendering the service would be detrimental to the operation of the Company's system or its ability to supply gas to its customers receiving service under the provisions of its standard general service or off peak service tariffs.

1. The customer must be receiving gas service pursuant to the provisions of the Company's Off Peak rate and the volume of Off Peak Gas specified in the written Service Agreement is the maximum volume to be transported by the Company; and,
2. The customer must present to the Company an affidavit to verify that the customer has a source of supply of an alternative fuel which is lower in equivalent price, including transportation charges and taxes, than the Company's current gas charges, which reflect its base rate and applicable adjustments including the gas cost adjustment (GCA). The affidavit must be dated within thirty (30) days of the requested transportation service and may be verified by the Company within each subsequent twelve (12) month period.

NET MONTHLY BILL

Computed in accordance with the following charges:

The charge shall be \$0.69 per MCF of transported gas except as specified in the "ALTERNATIVE FUELS" provision.

EXPERIMENTAL COMPETITIVE FUEL SERVICE

APPLICABILITY

Applicable to gas customers who request the Company to purchase natural gas for their use in lieu of using a competitive fuel at one point of delivery where distribution mains are adjacent to the premise to be served. Any such gas which the Company shall purchase shall be delivered on a "best efforts" basis and shall be subject to the terms and conditions set forth herein. The Company reserves the right to withhold such service whenever, in the Company's judgment, rendering the service would be detrimental to the operation of the Company's system or its ability to supply gas to its customers receiving service under the provisions of Rate GS, Rate F or Rate OP. The customer's required monthly volume shall be nominated prior to February 1 for deliveries during the seven (7) month period beginning April 1 and prior to September 1 for deliveries during the five (5) month period beginning November 1 of each year. Prior to each nominating date, the customer must present to the Company an affidavit to verify that the customer has an alternative fuel supply which is lower in equivalent price than the Company's cost of gas delivered under its tariffs. In addition, the customer must be receiving gas service pursuant to the provisions of Rate OP and the volume of gas to be purchased shall be specified in a written agreement and shall constitute the maximum volume to be purchased by the Company for deliveries under this tariff. This rate will terminate as of April 18, 1987 unless extended upon approval by the Kentucky Public Service Commission.

NET MONTHLY BILL

Computed in accordance with the following charges:

\$0.74 per 1,000 cubic feet (MCF) of gas delivered, except as specified in the "ALTERNATIVE FUELS" provision contained herein, plus gas cost per MCF based on the Company's highest cost source of spot market purchases during the billing period.

In the event the customer uses natural gas in excess of the nominated volumes, the excess volume shall be billed in accordance with the provisions of Rate OP, as specified in the written agreement.

LATE PAYMENT CHARGE

Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

VOLUME OF GAS SOLD TO CUSTOMER

Whenever it is necessary to restrict gas supplied under this tariff, the Company will provide due notice of such restriction in a reasonable manner as determined by the Company. If a customer, at any time after due notice of restriction has been given, takes gas in excess of the amount made available by such notice, and if such usage either adversely affects gas supply to all other customers or causes the Company to incur a penalty charge from its pipeline suppliers, then the customer shall be billed for such excess gas at the rate of ten dollars (\$10) per MCF in addition to the charges specified under the Net Monthly Bill provision as stated above. The Company, at its sole discretion, shall have the right to waive any penalty for unauthorized use of gas.

GAS COST CREDIT

A Gas Cost Credit (GCC) based upon a rate of \$0.05 per MCF, shall be calculated monthly and credited to the Company's booked cost of gas. The GCC shall be included in the determination of the Gas Cost Recovery Rate provision set forth on Sheet No. 19 of this Tariff.

ALTERNATIVE FUELS

The Company may charge a lower rate than that specified in the "NET MONTHLY BILL" provision to meet competition from alternate fuels without prior Commission approval. The decision to charge a lower rate will be made on a case by case basis, supported by a statement in the customer's current affidavit that absent such lower rate, the customer would utilize an alternate fuel source.

SECTION VI - BILLING AND PAYMENT

1. Billing Periods - Time and Place for Payment of Bills.

Bills ordinarily are rendered regularly at monthly intervals, but may be rendered more or less frequently at Company's option. Non-receipt of bills by Customer does not release or diminish the obligation of Customer with respect to payment thereof.

The word "month" as to any Customer shall mean the period of approximately thirty days between meter readings, as fixed and made by Company. Meters are ordinarily read at monthly intervals but may be read more or less frequently at Company's option. Company shall have the right to establish billing districts for the purpose of reading meters and rendering bills to customers at various dates. A change or revision of any Rate Schedule shall be applicable to all bills on which the initial monthly meter reading is taken on or after the effective date of such change or revision, except as otherwise ordered by the Kentucky Public Service Commission.

Bills are due on the date indicated thereon as being the last date for payment of the net amount, and bills are payable only at the Company's offices or authorized agencies for collection. If a partial payment is made, the amount will be applied to items of indebtedness in the same order as they have accrued.

The Company may issue interim bills based on average normal usage instead of determining actual usage by reading the meter. Interim bills may also be used when access to Company's meter cannot be obtained or emergency conditions exist.

2. Billing Periods - Time and Place for Payment of Bills

Interim bills will be considered payable by the due date and if not then paid will be handled in the same manner as all other bills; provided however, partial payment of at least one-half of the interim bill, in addition to full payment of any unpaid service charges previously billed and other billed items, will avoid the delayed payment charge on the interim bill.

The Company will continue monthly meter reading upon a customer's request.

3. Charge for Restoring Service for Non-Payment of Bill and Unlawful Use of Service.

Company may charge and collect in advance the sum as specified on Tariff Sheet "Charge For Reconnection of Service" for reconnecting a customer's service after service is disconnected because of non-payment of bill when due or when service is discontinued because of fraudulent use.

4. Temporary Discontinuance of Service.

If any residential customer, because of absence or otherwise, shall notify Company in writing to discontinue service, Company will make no minimum charge for any full meter reading period during the period of discontinuance; provided however, that Company may charge and collect the sum as specified on Tariff Sheet "Charge For Reconnection of Service" prior to reconnecting a service which was discontinued at customer's request within the preceding twelve months.

5. Availability of Budget Billing.

Company has available to its customers a "Budget Billing Plan" which minimizes billing amount fluctuations over a twelve month period. The Company may exercise discretion as to the availability of such a plan to a customer based on reasonable criteria, including but not limited to:

- (a) Customer's recent payment history.
- (b) The amount of the delinquent account.
- (c) Customer's payment performance in respect to any prior arrangements or plans.
- (d) Any other relevant factors concerning the circumstances of the customer including health and age.
