**RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE**

Where necessary for construction, maintenance or operation purposes, the Company may temporarily discontinue service to a Customer, however, notice shall be given whenever practical to do so.

The Company may discontinue service to a Customer immediately and without notice where it is discovered that the Customer has been or is using gas without same being partially or wholly measured through the meter or where the gas is, or has been, used fraudulently, or where the Company's equipment has been tampered with. Where the service has been discontinued for any of these reasons the Company, by written notice to the Customer, may require the Customer, at his expense, to make proper changes or corrections as required by the Company before service is restored.

In addition to the foregoing the Company may require the Customer to pay the Company the cost of any and all damages to the Company's equipment, the deficiency in revenue estimated on as accurate a basis as is available, and the cost incurred by the Company in the correction of the defects or diversion including the cost of removal and installation of meters and regulators and the cost of restoring the service.

Neglect or refusal on the part of the Customer to provide reasonable access to the premises for the purposes of reading meters, inspection, maintenance and operation shall also be deemed to be sufficient cause for the Company to discontinue the service.
