Blue Sky, Inc. P. O. Box 7036 Lexington, Kentucky 40502

Gentlemen:

Sold to Let. Water Co.

ter District wire tates ...

Athens-Boonesboro Road Water District will furnish the properties of Blue Sky Industrial Estates with water service to those applicants for service who sign standard Customer Contracts and pay the appropriate connection fee for metered connections to the existing mains of the District. Interior service lines from the meters to the structures to be served will be installed in the property of the customers at their expense.

At this time we have no main line extending into the subdivided parts of your property and our rules provide that you cannot re-sell or give away water to others. Therefore, a new main line must be extended into certain parts of your property for us to serve them, which main must be the property of the District in order for us to guarantee service.

The new main should be extended at the expense of the District, but we are without funds for such a project at this time, and we do not feel that a new issue of our revenue bonds could be marketed successfully. Therefore, we propose that the new mains be built for the District by you, and that your actual costs for the main be reimbursed by the District on the basis of new customers for the District that will be generated by your development.

In order to provide adequately for the area to be served we require a 6-inch main of asbestos-cement pipe class 150 or its equivalent constructed in the dedicated right-of-way of your interior service road. It appears that, in order to serve all of your property platted for subdivision, some 6,600 linear feet of main line will be required at an estimated cost of \$7.00 per foot or \$46,200.

We propose to divide the costs of the new main by the number of acres in your area zoned for industrial or commercial development, and as each acre is sold or leased to new customers of the District we will reimburse your costs for the main on the basis of the per acre factor multiplied by the amount of acreage occupied acre factor multiplied by the amount of acreage occupied acrease occupied acrease occupied acrease occupied acrease occupied and the District connection new customer. If the District notifies you in writing at the connection of the reimbursement in cash, religible accept our Revenue Bonds in a like amount. Bonds issued in lieu of the reimbursements will bear interest equal to the prime rate charges of the York banks on the date of their issue, and the District may redsem the bonds at any time for their par value and any interest accreed the solution.

We are ready, willing and able to serve you with water for 2 service stations, a motel and related commercial facilities along with 108 acres of industrial development. Your project will result in greater usage of water by the District and will cause a marked decrease in rate because of a much higher ratio of volume in proportion to the new main to be installed.

If the terms and conditions herein stated are acceptable to you please indicate so by signing in the space provided for you below. Invalidation of any of these terms and conditions by judgement or court order shall in no way affect any of the other provisions which shall or remain in full force and effect. THIS AGEEMENT WILL BE FILED WITH THE KENTUCKY PUBLIC SERVICE COMMISSION AND IS SUBJECT TO ITS APPROVAL.

PUBLIC SERVICE COMMISSION

Gentlemen:

Enclosed herewith you will find copies of the comments of the Public Service Commission on our Contract along with our answers to various questions asked by the Commission.

It appears that the second question raised by the Commission requires an addendum to our Contract in order for the question to be fully satisfied as well as answered.

Therefore we propose that Paragraph #3 of the Contract be expanded to say:

> Such refunds of the costs of new mains shall be made on the basis of additional customers connected during a period of ten years (10) after completion by you of the construction of the main, with the understanding that the total amount refunded shall not exceed the cost of the mains and after the end of the refund period, no refund will be required to be made.

If you agree with this addendum to our Contract please indicate as much in the space provided for your signature(s) below.
