CAMPBELL COUNTY WATER DISTRICT

RULES AND REGULATIONS

DIVISION I - GENERAL PROVISIONS

1. Water will be turned on only by an authorized employee of the Water District.
2. No application for water service will be allowed and no water shall be supplied to any applicant or customer where the applicant or customer is indebted to the Water District. This section will apply whether the indebtedness is incurred at the premises for which application is made or at any other premises supplied by the District within or without the District limits.
3. Where any parcel of property is supplied through two or more connecting service branches, each branch shall be equipped with a check valve so set that water can flow into and not out of the premises and each service branch or building using water shall be equipped with a separate meter.
4. No connection into more than one building shall be made from any one tap unless the District has given its approval in writing.
5. No attachment shall be made to any service branch or to any pipe or other fixture which has been shut off pursuant to this operating code, without first having obtained a permit upon application duly made, nor shall water be taken from any service branch, which has not been used, without permit.

CAMPBELL COUNTY WATER DISTRICT

RULES AND REGULATIONS

DIVISION I - GENERAL PROVISIONS (Cont.d)

- 6. The original purchase and installation of a meter shall be made by the District. The District shall retain possession of and maintain all meters without charge to the customer with the exception that if a meter should be destroyed or damaged through negligence of the customer or property owner, the replacement or repair shall be charged to the customer. Failure to pay this charge will result in the discontinuance of the water service.
- 7. It shall not be permitted for any customer of the Water District to have the piping within a house cross connected to any other source of water supply.
- 8. Authorized employees of the District shall have the right at reasonable times to enter any premises where a meter is installed for the purpose of reading, examining, changing, inspecting or testing the meter.
- 9. It shall not be permitted for any person to waste water by leaving open a fire hydrant or other device connected to the waterworks system.
- 10. It shall not be permitted for any person not properly authorized by the District to use any property or to make attachments to any water pipes belonging to the Water District.

RULES AND REGULATIONS

DIVISION I - GENERAL PROVISIONS (Cont'd.)

11. It shall not be permitted for any person other than an employee of the Water District, or a Fireman in case of emergency, to use any fire hydrant on the water system without first having secured written permission from the Water District. No person shall use a fire hydrant on the water system without a regulation fire hydrant spanner wrench.
12. It shall not be permitted for any other than an authorized employee of the District to remove a meter without permission from the District.
13. When a meter has been lawfully removed it shall be unlawful to use water supplied by the service branch to which the meter was attached.
14. When a meter has been found to have been unlawfully removed the water shall be discontinued and not restored until payment has been made for the estimated amount of the water used in addition to any fine that may be imposed and the payment of a \$2.00 reconnect fee.

RULES AND REGULATIONS

DIVISION IV - PAYMENT OF BILLS

1. Water bills shall be payable on the dates as indicated on the bill. A 10% penalty will be applied after due date.

2. Following the delinquency of a bill, a second notice will be mailed to the customer in an effort to collect said bill. In the event that this notice is ignored, in a reasonable time the District shall mail to the premises a cut off notice specifying the date of cut off. If the cut off notice is not paid by the specified date indicated, the District shall send a service man to discontinue the water service for this property.

(I) 3. In the event that the water service is discontinued for non-payment of bills or failure to comply with the District Rules and Regulations, a sum of \$5.00 will be added to the bill and the property owner or customer will be required to pay the full amount due plus the \$5.00 reconnection fee before the water service will be restored to said property.

4. Any water user who has been delinquent or has refused to pay past due bills may be required to place a cash deposit with the District in the sum equal to the estimated charges for water for a three month period.

RULES AND REGULATIONS

DIVISION V - ADJUSTMENT OF WATER BILLS

1. No reduction in water charges or billing shall be made for leakage except in cases where it shall occur on an investigation that the leakage is underground and not subject to detection by ordinary methods and where the owner and other occupants of the premises are free from negligence in causing or failing to report the leakage. Also in cases during periods of emergency where and by reason of shortages of material or manpower immediate repairs are not available. No reduction for leakage shall be permitted in an amount to exceed 50% of the estimated leakage.

RULES AND REGULATIONS

DIVISION VI - METER TEST

1. Meters will be removed and tested for accuracy when requested by any water customer providing that the water customer or a representative of the customer accompany said meter to the office to witness the test. However, the cost of such testing shall be paid by the customer in the event that the accuracy of the meter is within 2% of a true and correct test. In the event the meter accuracy varies more than 2% the cost of the testing shall be borne by the District and a new or reconditioned tested meter will be installed at no cost to the customer. If the meter is more than 2% fast a refund shall be computed on the basis of the percentage fast that the meter tested for a period not to exceed the previous twelve months.

RULES AND REGULATIONS

DIVISION VII - SERVICE INSTALLATIONS

1. Any property owner or prospective water user desiring water service and the installation of the service branch into the premises shall apply at the District Office. The owner or water user shall, in signing the application, agree to be bound by all of the provisions of this operating code and as it may be amended from time to time. No service branch shall be installed to serve property which does not abut the street or road of which the service main is located without specific approval of the District. Every building wherein water is used shall have a separate service branch and meter provided, however, that any variation in this respect may be authorized by the District. The District reserves the right to specify the size service branch for each installation. When application for a service branch installation is made a tapping fee shall be paid according to the following schedule:

(I)
|
(I)

3/4" Service Branch	\$200.00
1" Service Branch	\$220.00
1 1/2" Service Branch	\$350.00
2" Service Branch	\$400.00

All over 2", actual cost of installation plus 10%

Crossing Four(4) Lane Highway in addition to the foregoing \$150.00

The above tapping fee includes the installation of a Read-O-Matic Meter or an outside meter pit.

RULES AND REGULATIONS

DIVISION VII - SERVICE INSTALLATIONS (Cont'd.)

- 5. The portion of the service branch from the service cut off to the building shall be installed by the owner or water user at no cost to the District. All service branches shall be subject to inspection and approval by the Water District before water service will be turned on for use.
- 6. The Water District shall retain possession of, and maintain the service line from the main to the service cut off.
- 7. The property owner shall be responsible for maintenance and repair of the service line from the service cut off to and throughout the premises. Failure to repair a leak or leaks when notified of the same within the time allowance on the notice, shall be sufficient cause to justify discontinuance of water service.
- 8. In cases where the property owner desires a water pressure other than that pressure provided by the Water District mains in the surrounding area, it shall be the responsibility of the property owner to install the necessary devices to provide the desired pressure.

RULES AND REGULATIONS

DIVISION IX - WATER FOR TEMPORARY USE

1. Where water is required for temporary use in connection with construction, the party desiring the temporary service shall apply for a permit from the District at the District office. Unmetered water shall be paid for on the basis of metered rates according to the estimated amount used or to be used.
2. In the case of a large construction project the District may require the use of a special meter to register water consumed. The meter in such case shall be furnished by the District without charge, providing that the person obtaining the meter shall be charged for the cost of the meter itself if it is not returned promptly after the discontinuance of its use.
3. Any special connections or taps required to make temporary use of water available shall be made by the District and shall be paid for by the party desiring the temporary service. Charges shall be the cost plus 10% of the installation cost. A temporary service will not be installed where a permanent service will be required at a future date.

CAMPBELL COUNTY WATER DISTRICT

RULES AND REGULATIONS

DIVISION XI - WATER MAIN INSTALLATION

Except as specifically provided by resolution, all construction of water main extensions in streets and ways not already supplied with water shall be in accordance with the following plan:

The District will make main extensions from its existing distribution system on the following basis:

The party or parties who desire a main extension shall enter into a contract with the Water District and make an advance deposit on the following basis:

2" Main and under	\$2.25 per foot
4" Main	3.00 " "
6" Main	3.50 " "
8" Main	5.00 " "

The District shall determine the size of the main required prior to the advance deposit. The deposit shall be subject to refund, without interest, for a period of six years. The basis for refunds shall be an amount equal to the average deposit for 50' of the water main extension for each bonafide customer served within the limits of the extension.

All mains installed under this plan shall become and remain the property of the District.

C 3-80

Failure to comply with any of these rules and regulations shall be sufficient justification for the Water District to discontinue the water service.
