RULES AND REGULATIONS

DIVISION I - GENERAL PROVISIONS

1. Water will be turned on only by an authorized employee of the Water District.
2. No application for water service will be allowed and no water shall be supplied to any applicant or customer where the applicant or customer is indebted to the Water District. This section will apply whether the indebtedness is incurred at the premises for which application is made or at any other premises supplied by the District within or without the District limits.
3. Where any parcel of property is supplied through two or more connecting service branches, each branch shall be equipped with a check valve so set that water can flow into and not out of the premises and each service branch or building using water shall be equipped with a separate meter.
4. No connection into more than one building shall be made from any one tap unless the District has given its approval in writing.
5. No attachment shall be made to any service branch or to any pipe or other fixture which has been shut off pursuant to this operating code, without first having obtained a permit upon application duly made, nor shall water be taken from any service branch, which has not been used, without permit.

DIVISION I - GENERAL PROVISIONS (Cont'd)

- 6. The original purchase and installation of a meter shall be made by the District. The District shall retain possession of and maintain all meters without charge to the customer with the exception that if a meter should be destroyed or damaged through negligence of the customer or property owner, the replacement or repair shall be charged to the customer. Failure to pay this charge will result in the discontinuance of the water service.
- 7. It shall not be permitted for any customer of the Water District to have the piping within a house cross connected to any other source of water supply.
- 8. Authorized employees of the District shall have the right at reasonable times to enter any premises where a meter is installed for the purpose of reading, examining, changing, inspecting or testing the meter.
- 9. It shall not be permitted for any person to waste water by leaving open a fire hydrant or other device connected to the waterworks system.
- 10. It shall not be permitted for any person not properly authorized by the District to use any property or to make attachments to any water pipes belonging to the Water District.

DIVISION III - FIRE HYDRANTS

1. The District will maintain Fire Hydrants in Bellevue and Dayton previously installed and paid for by Campbell County Kentucky Water District at a yearly rental fee of \$40.00 per hydrant per year. District no longer to pay for hydrants.
2. The District will install at Owner's cost and maintain hydrants in City at a charge of \$9.00 per hydrant per year.
3. Standby Service Charge (added to Item 2) \$12.00 per hydrant per year.
4. The District will install fire hydrants in an unincorporated area of the County where distribution mains are adequate for fire protection subject to the following requirements:
 - a. A written request by the majority of the water customers to be served by said hydrant is required.
 - b. A letter from the Insurance Services Office of Kentucky stating that a credit rating will be given on the insurance premiums after the installation of the fire hydrant.
 - c. Fire hydrant location will be determined by the Campbell County Kentucky Water District Superintendent in a manner to provide the greatest fire protection for water customers within the hydrant area.

RULES AND REGULATIONS

DIVISION IV - PAYMENT OF BILLS

1. Water bills shall be payable on the due date as indicated on the bill. A delayed charge of ten per cent (10%) penalty will be added to the customer's account after due date.
2. Following the delinquency of a bill, a second notice will be mailed to the customer in an effort to collect said bill. In the event that this notice is ignored, in a reasonable time the District shall mail to the premises a cut off notice specifying the date of cut off. If the cut off notice is not paid by the specified date indicated, the District shall send a service man to discontinue the water service for this property.

If, prior to discontinuance of service, there is delivered to the utility office payment of the amount in arrears, then discontinuance of service shall not be made, or as to residential services where a written certificate is filed, signed by a physician, a registered nurse or a public health officer stating that in opinion of the person making the certification discontinuance of service will aggravate an existing illness or infirmity on the affected premises, service shall not be discontinued until the affected resident can make other living arrangements or until ten (10) days elapse from the time of the utility's notification.

DIVISION VI - METER TEST

- Meters will also be removed and tested for accuracy when requested by a customer in writing. We request that the customer or a representative of the customer accompany said meter to the office to witness the test. If the result of tests on a customer's meter shows an average error greater than two percent (2%) fast or slow then the customer's bills, for the period during which the meter error is known to have existed, shall be recomputed and the account adjusted on the basis of the test. In the event the period during which the meter error existed is unknown, then the customer's bill shall be recomputed for one-half (1/2) of the elapsed time since the last previous test but in no case to exceed twelve (12) months. If a meter is found upon test to register fast or slow, and if time for periodic test has overrun to the extent that one-half (1/2) of the time elapsed since the last previous test exceeds twelve (12) months, the refund or charge shall be for the twelve (12) months as stated above and in addition thereto, a like ~~refund or charge~~ **PUBLIC SERVICE COMMISSION OF KENTUCKY EFFECTIVE** for those months exceeding the periodic test period; **JUN 23 1988** provided, however, that the commission may relieve the utility from this **PURSUANT TO 807 KAR 9.011, SECTION 9 (1)** requirement in any particular case in which it is shown that the **BY: PUBLIC SERVICE COMMISSION MANAGER** failure to make the periodic test was due to causes beyond the utility's control.
- All District meters will be tested at least every five years as stated by the P.S.C.

RULES AND REGULATIONS

1. Any property owner or prospective water user desiring water service and the installation of the service branch into the premises shall apply at the District Office. The owner or water user shall, in signing the application, agree to be bound by all of the provisions of this operating code and as it may be amended from time to time. No service branch shall be installed to serve property which does not abut the street or road of which the service main is located without specific approval of the District. Every building wherein water is used shall have a separate service branch and meter provided, however, that any variation in this respect may be authorized by the District. The District reserves the right to specify the size service branch for each installation. When application for a service branch installation is made a tapping fee shall be paid according to the following schedule:

(I)	3/4" Service Branch	\$650.00
(I)	1" Service Branch	\$850.00

PUBLIC SERVICE COMMISSION
OF KENTUCKY
TAPING FEE

All over 1" Service Branches, actual cost of installation plus 10% overhead.

JAN 31 1990

DIVISION XIII - MAINLINE EXTENSION POLICY
OTHER THAN CONTRACTORS & DEVELOPERS

1. The District shall determine the total cost of the proposed water main extension (exclusive of the meter connections) and the total length of the extension. The District shall pay that portion of the cost of the water main extension equal to 50 feet for each applicant for service. That part of the cost not covered by the District's portion shall be contributed equally by those applicants desiring service on the main extension. Each applicant will also be required to pay the District's approved "Tap-on-fee" for a meter connection to the main extension.
2. For a period of five years after the original construction of the main extension each additional customer directly connected to each particular extension will be required to contribute to the cost of that water main extension based on a recomputation of both the District's portion of the total cost and each customer's contribution as set out above. The District will refund to those customers that have previously contributed to the cost of each main extension itself that amount necessary to reduce their contribution to the currently calculated amount for each customer connected to that extension. All customers directly connected to each main extension for a five-year period after it is placed in service are to contribute equally to cost of construction of the water main extension itself.
