Water Main Extension

All developers must submit a preliminary drawing of the water main extension development plans to Consumers Water District for review. These plans must be prepared by a professional engineer. After reviewing the plan, the Board will contact the developer with changes or final approval. The developer will then have the professional engineer prepare four (copies) of the plans. The developer will submit these plans along with the filing fee to the District. The District will submit the plans to the Division of Water.

After approval by the Division of Water, the District will hire a contractor to construct the project. The District will be paid for the project by the developer before any work is begun. The final cost of the project will not exceed cost estimate.

A ten (10) year refund period will begin after the project is completed and a contract is signed by both parties. This date will become the anniversary date. The developer will be reimbursed annually on this date for any water meter installed on the said water main extension.

To determine the refund amount, the total cost of the project will be divided by the total length of the extension. This will determine the cost per foot. At each anniversary date, the cost of 50 feet of the main extension will be paid to the developer for each water meter installed during that year. (All persons desiring water will be responsible for the meter tap on fee)

Refunds shall continue each year until reimbursement is paid in full (no interest) or ten years have elapsed, whichever occurs first. No refunds after ten years.

GUIDELINES

TERMINATION

Landlords with good credit cannot be denied service at their rental property because of a delinquent bill owed by former tenant even when the new tenant is a delinquent customer of the utility.

Likewise, a tenant with good credit cannot be denied service because of a prior delinquency incurred by a former tenant or the landlord at that address.

A utility cannot terminate previously existing service to a non-delinquent utility customer because that customer allows a delinquent customer to move into their home.

A utility may deny service to an applicant who is a member of a delinquent household where the prior customer continues to reside in the household and uses the service.

A utility cannot terminate service at a non-delinquent address where a customer has more than one account; however, a utility can deny service to an applicant for service because of a delinquency at another address.

PENALTIES

When a penalty is assessed due to late payment, any payment received shall first be applied to the bill for service rendered. Subsequent bills, a penalty shall not be assessed on an unpaid penalty.

A penalty shall be assessed only once on each delinquent monthly billing.
