PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

Revised Sheet No. 16

Hendron Water District

Cancelling P.S.C. KY No. 4

JAN 10 1997

Original Sheet No. 16

PURSUANT TO 807 KAR 5:011.

SECTION 9(1)
RULES AND REGULATIONS

===== BY: Jordan C. Neel =====
FOR THE PUBLIC SERVICE COMMISSION

17. (Continued)

D. Other Combinations

Multiple service for a permanent single family residential dwelling in combination with trailer homes, and trailer homes not otherwise classified as a commercial trailer park may be served from a single meter. In such cases, the total consumption registered by the meter per month will be divided by the number of dwelling units being served and each shall be billed at the regular residential rates for his pro-rate share as if he were an individual customer.

18. Extension of Main

A. Normal Extension

Any prospective customer who wishes to apply for water service and presently does not have a main located along their property will be required to do the following:

1. The Applicant must submit to the District a written request for service. The District will then prepare a project estimate to cover costs incurred by the District, including materials, labor, engineering, inspection, testing, disinfection, water, and other costs associated with extending service to the applicant's property.
2. This estimate will then be used to calculate the average cost per foot of the extension. The applicant will be required to deposit with the District the estimated cost for this extension less the cost of the first 50 feet which the District will incur. If more than one (1) applicant will be served by this extension, the District will incur the cost of 50 feet for each applicant. Records

BY RULES AND REGULATIONS FOR THE PUBLIC SERVICE COMMISSION

of the cost associated with the extension will be kept by the District and made available to the applicant upon request.

- 3. Upon completion of construction, the actual cost per foot of the extension will be calculated. If the estimate was greater than the actual cost, the balance will be refunded to the applicant, and if the estimate was less than the actual cost, the applicant will be required to pay the balance within 30 days of completion of the extension. For a period of ten (10) years, the applicant will be refunded the cost for 50 feet of the extension for each additional customer that connects directly to the extension. This refund will be made to the applicant at the end of each year of the refund period. The refunded amount shall not exceed the amount paid to the District.
4. The Applicant will also be required to dedicate a 15' permanent utility easement across the width of their property for future extension of the water main.

B. Extension To A Real Estate Subdivision

- (1) Applicant's Cost Of Extension. An applicant desiring an extension to a real estate subdivision will initially be required to deposit a minimum of \$1,000.00 with the District prior to the development of preliminary construction drawings and cost estimate by the District's authorized engineering representative. If after the development of this preliminary information, the applicant withdraws the application for the real estate subdivision extension, the excess deposit over the actual administrative costs incurred by the District on the extension up to the time of withdrawal will be refunded to the applicant. Should the applicant desire to continue with the extension, the District may require the total estimated cost of the extension to be deposited with the District by the applicant. The preliminary costs incurred by the District and the initial deposit paid by the applicant will be included in the total estimated costs and total required deposit, respectively. This deposit shall be made within ten (10)

BY: [Signature] REGULATIONS FOR THE PUBLIC SERVICE COMMISSION

working days of the District's approval of the preliminary project cost estimate. The cost of the total extension shall be established from accurate records of construction cost by the District, including materials, labor, engineering, inspection, testing, disinfection, water and such other costs incurred by the District.

Records of cost shall be maintained by the District and made available to the applicant receiving service. If after the construction of the extension, the actual total cost of the extension is less than the total amount deposited by the applicant, the excess shall be refunded to the applicant. If the actual total cost of the extension is greater than the total amount deposited with the District by the applicant, an amount equal to the excess in cost shall be deposited with the District prior to the District's final acceptance of the extension.

If the balance is not deposited with the District within 30 days of the notice given the applicant by the District, a 2% surcharge will apply. This surcharge will be applied each 30 days the balance is not deposited.

- (2) Applicants Reimbursed For Cost Of Extension. Each year for a period of not less than 10 years, the Hendron Water District shall refund to the applicant who paid for the extension a sum equivalent to the cost of 50 feet of the extension installed for each additional customer connected during the year but in no case shall the total amount refunded exceed the amount paid to the District. After the end of the refund period from the completion of the extension (10 years), no refund will be required to be made.

C. Construction Procedure

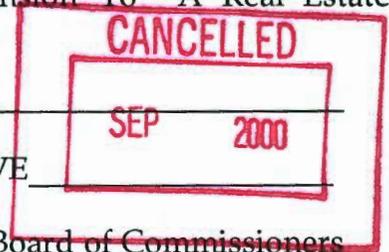

- (1) Extensions By Water District. Water line extensions extended to customers under Item (A) Normal Extension; or (B) Extension To A Real Estate

Subdivision, shall be installed by the Water District's forces, or by a competent contractor employed by the Water District or by the person or persons desiring service and approved in writing by the Water District.

- (2) Construction Drawings. Plans and Specifications for proposed extensions shall be prepared by the Hendron Water District's authorized engineering representative shall comply with the District's standards, shall meet the requirements of the Kentucky Division of Water, Kentucky Department of Health, the Public Service Commission and other applicable federal, state and local regulating agencies.
- (3) Real Estate Subdivision Plats. A reproducible plat of a real estate subdivision as recorded in the County Court Clerk's office shall be furnished by the developer for use by the District's Engineer in laying out the proposed water lines. This shall be on computer diskette when possible.
- (4) Utility Easements. Water mains shall generally be laid in a 15 foot permanent easement o private property. A 15 foot temporary construction easement adjacent to the 15 foot permanent easement shall also be required where practical, from each private property owner. The cost of obtaining easements shall be included in the cost of construction as set forth in Items 14B and 14C above.
- (5) Service Lines and Service Connection Charges. Meters, meter boxes and service lines from the main to the meter will be installed by the Water District as required to customers adjacent to said main extensions, and the Water District shall be reimbursed for this service by the property owner in the form of a Service Connection Charge current at the time the service is made not withstanding the following:
