RATES, RULES AND REGULATIONS

SECTION I - GENERAL PROVISIONS

1. Water will be turned on only by an authorized employee of the Water District.
2. No application for water service will be approved and no water shall be supplied to any applicant or customer where the applicant or customer is delinquent or indebted to the Water District. This section will apply whether the delinquency or indebtedness is incurred at the premises for which application is made or at any other premises supplied by the Water District within or without the District limits.
3. Where any parcel of property is supplied through two or more connecting service branches, each branch shall be equipped with a check valve so set that water can flow into and not out of the premises and each service branch or building using water shall be equipped with a separate meter.
4. No connection into more than one building shall be made from any one tap unless the District has given its approval in writing.
5. No attachment shall be made to any service branch or to any pipe or other fixture which has been shut off pursuant to this operating code, without first having obtained a permit upon application duly made, nor shall water be taken from any service branch, which has not been used, without permit.
6. The original purchase and installation of a meter shall be made by the District. The District shall retain possession of and maintain all meters without charge to the customer with the exception that if a meter should be destroyed or damaged through negligence of the customer or property owner, the replacement or repair shall be charged to the customer. Failure to pay this charge will result in the discontinuance of the water service.
7. It shall not be permitted for any customer of the Water District to have the piping within a house cross connected to any other source of water supply.
8. Authorized employees of the District shall have the right at reasonable times to enter any premises where a meter is installed for the purpose of reading, examining, changing, inspecting or testing the meter.

- 9. No person shall waste water by leaving open a fire hydrant or other device connected to the water works system.
- 10. No person not properly authorized by the District shall use any property or make attachments to any water pipes belonging to the Water District.
- 11. No person other than an employee of the Water District, or a fireman in case of emergency, shall use any fire hydrant on the water system without first having secured written permission from the Water District. No person shall use a fire hydrant on the water system without a regulation fire hydrant spanner wrench.
- 12. No person other than an authorized employee of the District shall remove a meter without permission of the District.
- 13. When a meter has been lawfully removed, it shall be unlawful to use water supplied by the service branch to which the meter was attached.
- 14. When a meter has been found to have been unlawfully removed, the water shall be discontinued and not restored until payment has been made for the estimated amount of water used and the payment of the District's reconnection fee. (T)
- 15. Every applicant shall make a cash deposit with the District; see Regulation sheets 8 & 9. (T)

RATES, RULES AND REGULATIONS

SECTION III - PAYMENT OF BILLS

1. Water bills shall become delinquent on the date indicated on the bill, which is 21 days after the billing date; at which time, a 10 percent penalty is added and shown on the bill as the gross amount due.
2. If the bill is not paid within thirty-six days after the billing date, a ten-day cutoff notice will be issued.
3. Any water user who has been delinquent or has refused to pay past bills may be required to place a cash deposit with the District in the sum equal to 2/12 of the customer's annual bill where bills are rendered monthly or 4/12 where bills are rendered quarterly.
4. In the event that the water service is disconnected for nonpayment of bills or failure to comply with the District Rules and Regulations, a reconnection fee will be added to the bill and the customer will be required to pay the full amount due plus the reconnection fee before the water service will be restored to said customer. The customer shall be required to again make a deposit which is the same as a new customer deposit; see sheets 8 and 9.
5. Payment of bills in Sub-districts: Water bills shall become delinquent on the date indicated on the bill, which is 15 days after billing date; at which time, a 10 percent penalty is added and shown on the bill as the gross amount due. Following the delinquency of two consecutive bills, a ten-day cut off notice will be issued showing the gross amount as being due. Paragraphs 3 and 4 above also apply.

SECTION IV - ADJUSTMENT OF WATER BILLS

1. No reduction in water charges or billing shall be made for leakage except in cases where it shall occur upon an investigation that the leakage is underground and not subject to detection by ordinary methods and where the owner and other occupants of the premises are free from negligence in causing or failing to report the leakage or in cases during periods of emergency where and by reason of shortages of material or manpower, immediate repairs are not available. No reduction shall be permitted in an amount to exceed 50 percent of the estimated leakage.

SECTION V - METER TEST

1. Meters will be removed and tested for accuracy when requested by any water customer providing that the water customer or a representative of the customer accompany said meter to the office to witness the test. If the meter test is within the allowable + or - 2% accuracy, the customer will be charged for the cost of the test. For a 1" meter or smaller, the charge is \$30.00 per test. For meters larger than 1", the charge is the actual cost to the Water District for the test. In the event the meter accuracy varies more than two percent, the cost of the testing shall be borne by the District and a new or reconditioned tested meter will be installed at no cost to the customer. If the meter is more than two percent fast, a refund shall be computed on the basis of the percentage fast that the meter tested for a period not to exceed the previous 12 months.

SECTION VI - SERVICE INSTALLATIONS

1. Any property owner or prospective water user desiring water service and the installation of the service branch into the premises shall apply at the District office. The owner or water user shall in signing the application agree to be bound by all the provisions of this operating code and as it may be amended from time to time. No service branch shall be installed to serve property which does not abut the street or road of which the service main is located without specific approval of the District. Every building wherein water is used shall have a separate service branch and meter provided; however, any variation in this respect may be authorized by the District. The District reserves the right to specify the size service branch for each installation. When application for a service branch installation is made, a tap in fee shall be paid according to the following schedule:

5/8" Connection	\$ 750.00
1" Connection	\$1,100.00

All service installations over 1 inch will be charged actual material costs (times 1.1 to cover handling) plus actual payroll costs and equipment costs.

RATES, RULES AND REGULATIONS

2. Upon request from a customer for an enlargement of a service, the service shall be considered as new and price of a new service installation will be applicable for a 1" service or larger.
3. After the tap in fee has been paid the District shall tap the main and run the service connection branch from the main to a location behind the curb or a point to be determined by the Kenton County Water District and an adequate service cut off will be placed at that point. (T)
4. The portion of the service branch from the service cut off to the building shall be installed by the owner or water user at no cost to the District. All service branches shall be subject to inspection and approval by the Water District before water service will be turned on for use.
5. The Water District shall retain possession of, and maintain the service line from the main to the service cut off.
6. The property owner shall be responsible for maintenance and repair of the service line from the service cut off to and throughout the premises. Failure to repair a leak or leaks when notified of the same within the time allowance on the notice, shall be sufficient to justify discontinuance of water service.
7. In cases where the property owner desires a water pressure other than that pressure provided by the Water District mains in the surrounding area, it shall be the responsibility of the property owner to install the necessary devices to provide the desired pressure.
8. In cases where the service has been installed, the customer shall pay the minimum rate specified herein.

SECTION VII - METER LOCATION & REQUIREMENTS

- 1. The Water District will determine or approve all meter locations. The owner or water user shall be responsible for maintaining a safe accessible place for the meter to be installed in a ground level meter box with approved covering in the yard. If the customer requests that the District relocate the existing meter setting to another location that is agreeable with the District, the customer will pay the relocation charges of actual cost plus 10% for overhead. (T) (N)

SECTION VIII - WATER FOR TEMPORARY USE

- 1. Where water is required for temporary use in connection with construction, the party desiring the temporary service shall apply for a permit from the District at the District Office. Unmetered water shall be paid for on the basis of metered rates according to the estimated amount used or to be used.
- 2. In the case of a large construction project the District shall require the use of a special meter to register water consumed. The meter in such case shall be furnished by the District.
- 3. The procedure for use of Public and Private Fire Hydrants is found on sheets 13 through 15. (T)
- 4. Any special connections or taps required to make temporary use of water available shall be made by the District and shall be paid for by the party desiring the temporary service. Charges shall be the cost plus 10% of the installation cost.

SECTION IX - PRIVATE FIRE HYDRANT AND SPRINKLING SYSTEMS

- 1. Connections from the water distribution system for private fire protection will be constructed on mains not less than 4" size. These connections will be handled on a special contract with Kenton County Water District and the person or persons requesting such service installation.
- 2. Fire line by-pass meters are read in conjunction with the other water meters. If there is any consumption registered, a minimum of 1200 cubic feet will be considered used and the customer will be billed accordingly. (N)

SECTION X - WATER MAIN INSTALLATION

1. All persons desiring to construct water mains and connect same to the District's system shall, prior to commencement of such construction, submit detailed plans of same to the District for approval. Such plans must be prepared by a civil engineer registered in Kentucky, conform to the requirements and specifications of the State and County Health Departments and the Kentucky Inspection Bureau, and not interfere with the operation and plans for expansion of the District, and shall conform to the location, type and size of mains prescribed by the District and conform to all other reasonable regulations of the District.
2. The District shall not agree to assume maintenance and repairs of water mains constructed by others unless full control and ownership of said mains is conveyed to the District, and the contractor agrees in writing to assume full responsibility for maintenance and repairs to the water main for a period of 12 months from the construction date.
3. The District reserves the right to require all transmission mains constructed hereunder to be at least as large in diameter as the main to which it is connected and shall be a minimum of 8" in diameter in subdivisions and improved areas and shall be greater in diameter where the District believes the future growth of the area warrants. (T)
4. Failure to comply with any of these rules and regulations shall be sufficient justification for the Water District to discontinue the service.

SECTION XI - SPECIAL CONTRACTS

1. The District reserves the right to provide special services for a user on a contract basis.

Deposits

(N)

The District may require a minimum cash deposit or other guaranty to secure payment of bills. Service may be refused or discontinued for failure to pay the requested deposit. Interest, as prescribed by KRS 74.050 will be paid annually either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

The deposit may be waived upon a customer's showing of satisfactory payment history with the District, and required deposits will be returned after one (1) year if the customer has established a satisfactory payment record for that period. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The District may require a deposit in addition to the initial deposit if there is a substantial change in usage. Upon termination of service, the deposit, any principal amounts, and any interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

If a deposit is held longer than 18 months, the deposit will be recalculated at the customer's request based on the customer's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential customer or 10 percent for a non-residential customer, the District may collect any underpayment and shall refund any overpayment by check or credit to the customer's bill. No refund will be made if the customer's bill is delinquent at the time of the recalculation.

Calculated Deposits

(N)

Commercial, Industrial and Multi-family customer's deposits shall be based upon actual usage of the customer at the same or similar premises for the most recent 12-month period, if such information is available. If usage information is not available, the deposit will be based on the average bills of similar customers and premises in the system. The deposit amount shall not exceed 2/12 of the customer's actual or estimated annual bill where bills are rendered monthly, 3/12 where bills are rendered bimonthly, or 4/12 where bills are rendered quarterly.

Equal Deposits

(N)

Residential customers will pay equal deposits that do not exceed the average bill of residential customers served by the District and is equal to 2/12 of the average bill of customers in the class where bills are rendered monthly or 4/12 where bills are rendered quarterly.

Monitoring of Customer Usage

(N)

At least once annually the District will monitor the usage of each customer according to the following procedure:

1. The customer's quarterly usage for the most recent quarter will be compared with the average quarterly usage for the 4 quarters immediately preceding that period.
2. If the quarterly usage for the previous period is substantially the same as the average or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions, common to all customers, no further review will be done.
3. If the quarterly usage differs from the average by 100 percent or more and cannot be attributed to a readily identified common cause, the District will compare the customer's quarterly usage records for the current quarter with the quarterly usage for all quarters of the preceding year.
4. If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the District will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service line.
5. Where the deviation is not otherwise explained, the District will test the customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.
6. The District will notify the customers of the investigation, its findings, and any refunds or backbilling in accordance with 807 KAR 5:006, Section 10 (4) and (5).

In addition to the quarterly monitoring, the District will immediately investigate usage deviations brought to its attention as a result of customer inquiry.

Abandoned Water Mains

(N)

In cases where the water main to which the customers service is tapped is abandoned due to obsolescence, age or deterioration, the Water District shall provide a new tap to another water main which abuts the customer's premises. The District shall install a new service line to a location behind the curb and an adequate service cut off will be placed at that point. It shall be the customers responsibility to install a service line from the service cut off to the premises at no cost to the District. Unless an emergency situation exists, the District shall give two (2) weeks notice before abandoning the water main.

**KENTON COUNTY WATER DISTRICT NO. 1
PROCEDURE FOR USE OF PUBLIC AND PRIVATE FIRE HYDRANTS**

(N)

PURPOSE: To establish a complete uniform policy for issuance of fire hydrant use permits and specify control of the use of hydrants in the service area of the Kenton County Water District No. 1 by the District.

The Rules and Regulations (Tariff) of the Kenton County Water District No. 1, which is filed with the Kentucky Public Service Commission and effective October 1, 1987, states: Sheet 1, Section 1, Paragraph 11-

"No person other than an employee of the Water District, or a fireman in case of emergency, shall use any fire hydrant on the water system without first having secured written permission from the Water District. No person shall use a fire hydrant on the water system without a regulation fire hydrant spanner wrench."

DETAILS (Sheets 13-15)

(N)

Temporary water service may be made available only on a special permit application to the Engineering Department of the District for determination of need, approval of location, size of meter required, and instructions on operation of hydrants in the system.

Temporary Service Permits are normally issued by the District for only the following reasons (limited to duration of the need, but in no case longer than 30 days, as stated at issuance of permit):

1. Filling swimming pools
2. Instances which are non-recurring in a given area, such as:

a. sewer flushing	d. demolition dust control
b. mud jacking of streets	e. street cleaning
c. paving projects	f. street cutting
3. Street sweepers which use designed hydrants
4. Other purposes as deemed necessary by the District

KENTON COUNTY WATER DISTRICT NO. 1

All permits issued shall require that water usage be properly metered and shall have proper backflow protection. Metering devices and backflow prevention devices shall be furnished by the District and obtained at the issuance of permit.

No Temporary Service Permit shall be issued for a period of more than 30 days without renewal.

Contractors performing road projects for which the time of construction is longer than 90 calendar days, desiring water service for any reason shall determine a central location, agreeable by the District, and shall cause to be constructed a service to meet their needs as per the Rules and Regulations of the District.

DEPOSITS, FEES AND CHARGES

(N)

Hydrant Usage Deposit: A refundable deposit shall be placed with the District, from which any charges shall be deducted for damages and unbilled water, and the balance returned to the holder of the permit.

Deposit charges are as follows:

1 to 5 days = \$250.00 5 to 30 days = \$1,000.00

Each Temporary Service Permit will require a daily fee. The daily fee is as follows:

(NOTE: Any part of a day constitutes the time span from 9:00 a.m. to 9:00 a.m. of the following day including weekends, holidays, and non-working days.)

1" meter assembly with 5/8" outlet = \$15.00 per calendar day.
3" meter assembly with 1 1/2" outlet = \$30.00 per calendar day.

Water consumption shall be billed at the normal rates of the District as established by Tariff.

The holder of a Special Temporary Permit shall be responsible for any damage (including freezing), loss, or theft of the meter assembly and for any damage to the fire hydrant, and will be charged for repairs at a rate of time & material + 10%. If there is any leakage between the fire hydrant and the connection to the permit holder's hose connection, the fire hydrant shall be immediately shutoff and the District notified.

PENALTY FOR NOT HAVING A PERMIT OR NOT USING METERING DEVICES

(N)

No person, firm, or corporation shall use or make a connection to use water from a fire hydrant or other available source of water unless a properly authorized Temporary Service Permit is issued by the District.

KENTON COUNTY WATER DISTRICT NO. 1

Any connections, hoses, wrenches, or appurtenances attached to a fire hydrant without a permit issued by the District shall be immediately confiscated by any employee of the District and a penalty shall be levied against person (s) using the hydrant in addition to cost of estimated water usage.

If items cannot be confiscated, the Water District's Office shall be notified and the proper Police Authority requested to cite individual (s) to District Court for Theft of Service.

RETURN OF CONFISCATED ITEMS

(N)

Confiscated items may be returned to the individual (s) at the District Office upon payment for levied penalty, estimated water used, any damage to District property, and signing of an affidavit stating the individual shall not again use a hydrant in the service area of the District without a permit under penalty of District Court Citation.

APPLICATION FOR TEMPORARY WATER SERVICE PERMIT

(N)

An appropriate application shall be used and will be available at the Water District's Office.

PERMANENT INSTALLATION OF METER & BACKFLOW PREVENTER

(N)

Contractors requesting permits for instances which are non-recurring in a given area, may install a meter (purchased from the District), a reduced pressure backflow preventer, and appurtenances for permanent mounting on their equipment. The installation must be approved by the District. (Alternate: an approved air gap may be used in place of a reduced pressure backflow preventer.)

Requirements:

(N)

The Temporary Special Permit shall still be required for a specific hydrant (s) as stipulated previously, but the daily fee shall be waived.

The meter must be delivered to the Office of the Kenton County Water District No.1 on or before the day of Temporary Service Permit expiration. At this time, the meter shall be read and billed to the permit holder. If permitted, the meter shall be re-issued for an additional time period.

On a quarterly basis the meter must be tested by the Meter Service Department and the reduce pressure backflow preventer shall be tested by a Certified Backflow Technician acceptable to the District.

RATES, RULES AND REGULATIONS

SECTION XII - WATER MAIN INSTALLATION FINANCED BY ASSESSMENTS TO BENEFITED PROPERTY OWNER

Residents of the District may request the Water District to extend the water distribution system to provide water service to their properties. The Water District will comply with this request following the guidelines established in the KRS Chapter 74 titled Water Districts. The following is an outline of the procedure:

1. The Water District must receive a signed petition from the benefiting property owners requesting water service.
2. The District will reply with an estimate of the total project cost.
3. A request from the benefiting property owners for a preliminary assessment roll must be received by the Water District. The benefited property owners must provide deed book references for the benefited properties. A preliminary assessment on each benefited property will be determined by classification of acreage in accordance with KRS 74.130.
4. A public hearing before the Kenton County Judge/Executive will be held concerning the construction and financing of the proposed project, KRS 74.150.
5. The Kenton County Judge/Executive will issue an order concerning the disposition of the project.
6. If the order provides for the construction of the proposed project and financing by assessments to the benefited properties, the Water District will have the project designed, bid and constructed.
7. The Water District will prepare a final assessment roll using the total actual project costs.
8. A public hearing before the Kenton County Judge/Executive will be held concerning the final assessment roll, KRS 74.160.

KENTON COUNTY WATER DISTRICT NO. 1

AGREEMENT

This agreement made and entered into this _____ day of _____, 19____, by and between Kenton County Water District No. 1, hereinafter designated "District", and _____, hereinafter designated "Customer".

WHEREAS a connection from the District's water distribution system for private fire protection is required to be covered by contract, the parties hereto agree as follows:

1. All fire service lines, hydrants and systems, as shown on approved plan, shall be installed as approved by the District and shall be maintained by the Customer to the District's standards.
2. A fire service line from the main shall not be used for other than fire fighting purposes, except when a dual service has been approved by the District.
3. Where a fire service line has outlets such as fire hydrants or hose outlets, the District may seal each outlet. Such seal shall not be broken, except when necessary for fire fighting.
4. It shall be the responsibility of the Customer, or its agents, to control use of the fire protection system for fire fighting or necessary testing only. The District will quarterly check the detector check meter; any useage indicated will be billed on an estimated basis. In no case shall the charge be less than ten dollars (\$10.00).
5. The District may order a fire service line metered and converted to a commercial account to be billed at the quarterly rates provided for by the current rate schedule for any of the following reasons:
 - A. Use of water from the service line for other than fire fighting purposes. Flushing of debris, clean up or flushing of spillage, watering of dumps and other dry areas, shall not be considered as fire fighting purposes.
 - B. Failure to repair a leak or leaks on the fire service branch or fire protection system.
 - C. Use of water from the service line to control or extinguish self-made fires.
 - D. Unauthorized breaking of a seal or seals on outlets of a fire protection system that have been placed by the District.

6. It shall be the responsibility of the Customer, or its agents, to notify the District, in writing, when alterations are to be made in the piping or equipment attached to any fire service branch for the District's approval. There shall be no alteration without prior approval of the General Manager of the District.

There will be no charge for water used for fire fighting purposes.

IN WITNESS WHEREOF, the parties hereto have hereunto set their hands the date first herein written.
