20. Residential and Commercial Establishment Occupying Same Premises Desiring Service Through A Single Meter (continued)

may be served through a single meter and shall be classified as a commercial consumer. If, however, the consumer prefers, it is not necessary for him to take all of his service under the commercial rate. Instead, the business establishment may be served under the commercial rate and his residence served under the farm and home rate. In this case, two (2) meters will be required.

23. Temporary Service

Temporary service such as service to construction jobs, fairs and carnivals shall be supplied in accordance with the foregoing rate except that the consumer shall pay in addition to the foregoing charges the total cost of connecting and disconnecting service less the value of material returned to stock. A deposit, in advance, may be required of the full amount of the estimated bill for service, including the cost of connection and disconnection.
