PUBLIC SERVICE  
COMMISSION

Re: Informational Filing Regarding Pro Forma Changes Affecting Comcast Business Communications, Inc.

Dear Ms. Bell :

Comcast Business Communications, Inc. ("CBC"), an authorized telecommunications carrier in Kentucky, by its attorneys, hereby respectfully notifies the Kentucky Public Service Commission ("Commission") that, effective December 31, 2005, its name has been changed to Comcast Business Communications, LLC and that an internal reorganization has taken place within the corporate chain of ownership between CBC and its ultimate corporate parent, Comcast Corporation ("Comcast"). The changes described in this notice are pro forma in nature and, as such, CBC believes that no prior approval of these changes is required. To the extent, however, that Commission approval is required for either the name change or the internal restructuring, CBC hereby requests that such approval be granted.

**I. PARTIES**

Comcast Business Communications, Inc., a Pennsylvania corporation headquartered at 1500 Market Street, Philadelphia, Pennsylvania 19102, is a wholly owned subsidiary of Comcast Commercial Services Group Holdings, LLC ("CCSGH"), which is a wholly owned subsidiary of Comcast Telephony Communications, LLC ("CTC"). CTC is a wholly owned subsidiary of Comcast Holdings Corporation ("CHC"). CCSGH, CTC and CHC are holding companies that are not actively engaged in business in Kentucky. CHC is a wholly owned subsidiary of

Comcast Corporation (“Comcast”), a publicly traded company, located at 1500 Market Street, Philadelphia, Pennsylvania 19102. Comcast is the ultimate corporate parent of CBC.

CBC is authorized to provide domestic interstate and international services by the FCC, intrastate interexchange service in 48 states, including Kentucky, and local exchange service in seven states, not including Kentucky.<sup>1</sup> CBC primarily provides resold long distance services to business and a limited number of residential customers as well as unregulated LAN, WAN and data services in various states. In a small number of states, CBC also provides facilities-based long distance and local exchange services to a small number of business and residential customers.

**II. DESCRIPTION OF CHANGES**

***LLC Conversion.*** In accordance with Pennsylvania law, CBC has been converted from a Pennsylvania corporation into a Pennsylvania limited liability company. In conjunction with this change, CBC’s name has been changed from Comcast Business Communications, Inc. to Comcast Business Communications, LLC.<sup>2</sup> Under Pennsylvania law, this conversion is treated as a continuation of the original corporate entity.<sup>3</sup> As discussed further below, the conversion of CBC into an LLC will be transparent to customers as it does not involve any change in the rates, terms or conditions of the services previously provided to customers, or in the facilities used to provide such services.

***Internal Restructuring.*** In order to simplify and consolidate its internal corporate structure, CCSGH, CBC’s parent, has been moved from CTC to another wholly-owned subsidiary of CHC. Its new parent company is Comcast Cable Communications, LLC (“CCC”). To effectuate this pro forma reorganization, CTC made a distribution of its entire interest in CCSGH to CHC. CHC made a capital contribution of CCSGH to CCC. CTC has been dissolved. CBC’s direct parent and its ultimate parent remain the same, CCSGH and Comcast,

<sup>1</sup> Issued in Docket No. 98-COCT-723-COC on June 30, 1998.

<sup>2</sup> Copies of the corporate documentation from the Kentucky Secretary of State showing the conversion of CBC into an LLC are attached as *Exhibit A*.

<sup>3</sup> Under Pennsylvania law, all of the assets, rights, liabilities and obligations of the corporation become those of the LLC by operation of law. Any claim existing or action pending will continue as if the consolidation had not taken place or the surviving LLC may be substituted in place of the original corporation.

respectively. Organization charts showing the changes to the corporate structure are attached to this notice.<sup>4</sup>

**III. PUBLIC INTEREST**

The changes described in this notice will have no impact on public interest considerations. The entity offering service to customers, CBC, will not change, and there will be no change to the rates, terms and conditions of the service it provides. Management and operating personnel will not change and the contact person for both customers and the Commission remains the same. In addition, CBC's customers will not experience any confusion because the new name is identical to the former name except for a change in the three letter designation of the form of the entity from "Inc." to "LLC". Thus, apart from a minor change in the last three letters of the carrier's name, the corporate conversion and the internal restructuring will be transparent to customers. Further, neither the name change nor the internal restructuring will affect the technical or financial qualifications of CBC as all technical and financial resources previously available to it will continue to be available. The scope of those resources can be seen in the publicly available SEC filings of Comcast, which is publicly traded. SEC jurisdiction also serves to protect the interests of investors and consumers in Kentucky. Finally, providing telecommunications carriers the flexibility to make these pro forma changes is important to facilitate competition within Kentucky. Providing such flexibility will help ensure that competitive carriers can structure their business operations in the most efficient and effective manner.

**IV. PROCEDURAL MATTERS**

***Commission Notice / Approval.*** As described above, the changes described in this notice are pro forma in nature. Accordingly, CBC believes that no prior approval of these changes is required. CBC is submitting this letter for the Commission's information only and requests that it be retained in the appropriate file so that the Commission's records remain up to date and accurate. To the extent, however, that Commission approval is required for either the name change or the internal restructuring, CBC hereby requests that such approval be granted.

***Customer Notice.*** CBC requests a waiver of any applicable customer notification requirement for these changes because the costs and effort associated with providing such notice outweigh any benefit gained by alerting customers to these very minor changes. To the extent

that any customers have questions about the name change appearing on billing statements, CBC will respond to such inquiries individually.

**Tariff.** A copy of CBC's revised tariff reflecting its new name is attached to this notice.<sup>5</sup> There are no changes to the rates, terms and conditions with respect to the tariff that is currently on file with the Commission. Accordingly, CBC respectfully requests that the Commission accept the accompanying tariff as filed.

**Date-stamped Copy.** Enclosed please find a duplicate of this letter, four (4) copies and a self-addressed, postage-paid envelope. Please date-stamp the duplicate upon receipt and return it in the envelope provided.

## V. CONCLUSION

We trust this letter provides the information required in this matter. Should the Commission have any questions or believe that any further information is required, please contact Katherine Barker Marshall at (202) 955-9669.

Respectfully submitted,

### TARIFF FORMAT

Page Numbering - Page numbers appear in the upper right hand corner of the page. Pages are numbered sequentially and from time to time new pages may be added to the tariff. When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between Pages 3 and 4 would be numbered 3.1.

Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

Check Sheets - When a Tariff filing is made with the Commission, an updated check sheet accompanies the Tariff filing. The check sheet lists the pages contained in the Tariff, with a cross-reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision, all revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it. The Tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

## SECTION 1 - DEFINITION OF TERMS

For the purpose of this Tariff, the following definitions will apply:

**Access Coordination** - Provides for the design, ordering, installation, coordination, pre-service testing, service turn-up and maintenance on a Company or Customer provided Local Access Channel.

**Additional Billing Increment** - Additional Billing Increment is the rate element used to bill for the chargeable time when a call continues beyond the Initial Billing Increment. Additional Billing Increment begins when the Initial Billing Increment ends (e.g., with the second minute of a call for which the Initial Billing Increment is one minute). Additional rates apply to each Additional Billing Increment, or any fraction thereof, that chargeable time continues beyond the Initial Billing Increment. Thus, for Service with an Initial Billing Increment of one (1) minute, a call with an actual duration of two (2) minutes and one (1) second would incur the full Initial Billing Increment charge and the charge for two (2) Additional Billing Increments.

**Administrative Change** - A change in Customer billing address or contact name.

**Alternate Access** - Alternate Access is a form of Local Access except that the provider of the Service is an entity, other than the Local Exchange Carrier, authorized or permitted to provide such Service. The charges for Alternate Access may be subject to private agreement rather than published or special tariff if permitted by applicable governmental rules.

**ANI** - ANI (Automated Number Identification) refers to the specific and unique Calling Party's billing number delivered by a local exchange carrier to any interconnecting carrier for billing or routing purposes.

**Application for Service** - A standard Company order form which includes all pertinent billing, technical and other descriptive.

**ASR** - ASR (Access Service Request) means an order placed with a Local Access Provider for Local Access.

**Authorization Code** - A numerical sequence which enables a Customer to access Company's network to place a Call and which is used by the Company to identify the customer for billing purposes.

**Authorized User** - A person, firm, corporation or other entity that either is authorized by the Customer to receive or send communications or is placed in a position by the Customer, either through acts or omissions, to send or receive communications.

**SECTION 1 - DEFINITION OF TERMS (CONT'D)**

**Exemption Certificate** - A written Customer designation which certifies that its dedicated facility should be exempted from the monthly Special Access Surcharge because the Service:

- (a) terminates on a device incapable of connecting the Company's network with the local exchange network; or
- (b) is associated with a Switched Access Service that is subject to Carrier Common Line charges; or
- (c) constitutes a Private Line facility used for Telex Service or radio or television transmissions; or,
- (d) is an open-end termination in a Local Exchange Carrier's switch of an FX line; or
- (e) is a termination that could not make use of a Local Exchange Carrier's common lines.

**Expedite** - A Service order initiated at the request of the Customer that is processed in a time period shorter than the Company's standard Service interval.

**FCC** - Federal Communications Commission

**Individual Case Basis (ICB)** - Individual Case Basis (ICB) determinations involve situations where complex Customer-specific Company arrangements are required to satisfactorily serve the Customer. The nature of such Service requirements makes it difficult or impossible to establish general tariff provisions for such circumstances.

**Initial Billing Increment** - Initial Billing Increment is the initial rate increment of a call placed under any Service provided by Company. The initial rate increment will apply if a call has a minimum duration of the entire Initial Billing Increment or any fraction thereof. Thus, by way of example, for Service with an Initial Billing Increment of (1) minute, a call with an actual duration of less than one (1) minute will be billed the full Initial Billing Increment.

**Installation** - The connection of a Circuit, Dedicated Access line, or port for new, changed or an additional Service.

**Interruption** - Interruption shall mean a condition whereby the Service or a portion thereof is inoperative, beginning at the time of notice by the Customer to Company that such Service is inoperative and ending at the time of restoration.

SECTION 2 - RULES AND REGULATIONS (CONT'D)

2.13. Method for Calculation of Airline Mileage

2.13.1. The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) coordinates of the serving wire centers associated with the Company's POP locations. The method for calculating the airline mileage is obtained by reference to AT&T's Tariff F.C.C. No. 10 according to the following formula:

the square root of: 
$$\frac{(V1-V2)^2 + (H1-H2)^2}{10}$$

where V1 and H1 correspond to the V&H coordinates of City 1 and V2 and H2 correspond to the V&H coordinates of City 2.

Example:

	<u>V</u>	<u>H</u>
City 1	5004	1406
City 2	5987	3424

the square root of: 
$$\frac{(5004-5987)^2 + (1406-3424)^2}{10}$$

The result is 709.83 miles. Any fractional miles are rounded to the next higher whole number; therefore, the airline mileage for this example is 710 miles.

**SECTION 2 - RULES AND REGULATIONS (CONT'D)**

**2.14. Time of Day Rate Periods**

**2.14.1.** Time of Day Rate Periods are determined by the time of day at the location of the Calling Station.

The rates shown in Section 4 apply as follows:

DAY: From 8:00 AM to 5:00 PM Monday - Friday

EVENING: From 5:00 PM to 11:00 PM Monday - Friday and Sunday

NIGHT/

WEEKEND: From 11:00 PM to 8:00 AM Everyday  
From 8:00 AM to 11:00 PM Saturday  
From 8:00 AM to 5:00 PM Sunday

**2.14.2.** With respect to each time of day period listed in Section 4 of this tariff, the period begins exactly at the first listed hour and ends up to but not including the start of the second listed hour. Thus, by way of example, a time period listed as "11:00PM to 8:00AM" would begin exactly at 11:00 PM and continue up to, but not including 8:00AM.

**2.14.3.** When a call begins in one rate period and ends in another, the rate in effect at the beginning of the call applies to the entire call. In the event that a minute is split between two rate periods, the rate in effect at the start of that minute applies.

**2.15. Special Customer Arrangements**

**2.15.1.** In cases where a Customer requests a special or unique arrangement which may include engineering, conditioning, installation, construction, facilities, assembly, purchase or lease of facilities and/or other special Services not offered under this Tariff, the Company, at this option, may provide the requested Services. Appropriate recurring charges and/or Nonrecurring Charges and other terms and conditions will be developed for the Customer for the provisioning of such arrangements.

**SECTION 2 - RULES AND REGULATIONS (CONT'D)**

**2.16. Inspection**

**2.16.1.** The Company may, upon notice, make such tests and inspections as may be necessary to determine that the requirements of this Tariff are being complied with in the Installation, operation or maintenance of Customer or the Company equipment. The Company may interrupt the Service at any time, without penalty to the Company, should Customer violate any provision herein.

**2.17. Timing of Calls**

**2.17.1.** Long distance usage charges are based on the actual usage of the Company network. Chargeable time begins when a connection is established between the Calling Station and the Called Station. The establishment of the connection is determined, where available, by hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. When hardware answer supervision is unavailable and software answer supervision is employed, up to 60 seconds of ringing is allowed before it is billed as usage of the network. Chargeable time for a call ends when one of the calling parties disconnects from the call. If the Called Station "hangs up" but the Calling Station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company.

**2.18. Rounding**

**2.18.1.** In the event the total charge for a call includes a fraction of a cent, the cost shall be rounded up to the next highest cent.
