

Nolin RECC  
411 Ring Road  
Elizabethtown, KY 42701-6767

**RULES AND REGULATIONS**

**16. SERVICE CHARGE FOR TEMPORARY SERVICE**

- (I)(T) 1. The applicant may lease from the cooperative a temporary service assembly with 120 volt - 20 amp and 240 volt - 50 amp single phase service. Applicants choosing to lease this equipment will be charged an initial fee of one hundred sixty dollars (\$160.00), covering costs of inspection fees, materials and labor, connect fee, and miscellaneous charges. Thirty-five dollars (\$35.00) will be charged each month that the temporary service assembly is deployed. No additional connect fee shall be required for conversion to permanent service. Applicant must meet all other requirements under the rules and regulations.
- (I)(T) 2. Applicants who choose to use their own temporary service equipment shall comply with Nolin RECC construction standards. These installations will be charged an initial fee of seventy-five dollars (\$75.00), covering costs of materials and labor, connect fee, and miscellaneous charges. No additional connect fee shall be required for conversion to permanent service. Applicant must meet all other requirements under the rules and regulations.
- 3. All applicants shall pay the normal customer and KWH charge set forth under Classification of Service, Schedule 1 - Residential or Schedule 2 - Commercial, for all energy used throughout the life of temporary installation.
- (D)(N) 4. Temporary service installations shall not exceed 12 months. Extensions may be granted at the cooperative's discretion.
- 5. Under no circumstances shall temporary service be used for occupancy of any dwelling.

**17. MEMBER'S WIRING**

All member's wiring shall comply with the rules and regulations of the National Electric Code, National Electric Safety Code, Public Service Commission, the Cooperative, State and Local Codes.

**18. ELECTRICAL REQUIREMENTS AND INSPECTIONS FOR ALL MEMBERS**

- 1. All commercial, industrial, farm and residential wiring installations must meet the standards of the National Electric Code NFPA 70 and meet other standards and inspections as provided under the Kentucky Department of Housing, Buildings and Construction and Local Codes as provided in 815 KAR 10:020, KRS 227.80, KRS 198B, 815 KAR 7:010, and 815 KAR 7:020.
- 2. All the above new installations are required to obtain a certificate of approval from a Certified Electrical Inspector before the Cooperative can lawfully connect permanent service to the building.
- 3. All new and upgraded commercial, industrial, farm and residential services must be installed underground. The member must provide the trench for the main service.
