The charges for Maintenance of Service are deregulated. Terms and conditions are located in the AT&T Interstate Access Guidebook. (T)

#### E13.3.2 Reserved For Future Use

#### E13.3.3 BellSouth Equal Access Subscription

##### A. Description

##### 1. BellSouth Equal Access Subscription

BellSouth Equal Access Subscription is a procedure whereby an end user for Telephone Exchange Service lines and/or trunks or the location provider or its authorized agent of pay telephones may select and designate to the Company an IC to access for intraLATA calls without dialing an access code. The end user or location provider or its authorized agent may designate an IC for intraLATA, a different IC for interLATA, or the same IC for both. This IC is referred to as the end user's or pay telephone location provider's or its authorized agent's preferred IC and is defined by a unique Carrier Identification Code (CIC) shown on the customer service record.

Should a customer wish to use other services of the same or another IC, it will be necessary for the customer to dial the necessary access code(s) to reach that IC's other service(s).

For Independent Payphone Providers subscribing to SmartLine\* service, the IC designated as the primary IC for 0+ intraLATA traffic may direct the routing of 1+ intraLATA calls either to itself or another IC (transport carrier), without dialing of an access code, subject to provisions set forth following. The option chosen by the IC will apply to all pay telephones provided from all end offices subtending an access tandem which are subscribed to that IC.
