Tarriff Filing, Web Portal

RE: READ 1<sup>ST</sup>,  
BRACKEN COUNTY WATER DISTRICT ("BCWD")  
Water Leak Adjustment Tariff Revision Filing

Pursuant to KRS 278.180 and 807 KAR 5:011, please find attached BCWD's proposed leak adjustment sheets with changes. The proposed changes are to allow two consecutive leak adjustment bills per eighteen months, as opposed to the one leak adjustment bill per eighteen month period currently authorized and approved. The board has found that some of the leaks are caught mid bill and fixed the next bill, and that it is fair and reasonable to adjust the policy to allow two consecutive bills to be adjusted by leak adjustment. I have attached the resolution of the board as well.

I have attached the notice to customers of the requested leak adjustment change, which ran first on April 16, 2026 in the Bracken County News and is scheduled to run on April 23, 2026, and April 30, 2026, in the Bracken County News.

If you have any questions regarding the first requests, or this filing, please don't hesitate to contact me.

Sincerely

/s/ JESSE P. MELCHER
