**Subject:** Owen Electric Tariff Filing

Ms. Chappell,

While reviewing the tariff submitted by Owen Electric to add to the Special Outdoor Lighting Tariff, Staff came up with a couple of requests.

1. Refer to Exhibit 3, Schedule B, page 1 of 2, note 2. Explain why Account 107, Construction Work in Progress – Electric and Account 107.2, Construction Work in Progress – Force Account, are the appropriate accounts to draw direct and indirect construction labor.
2. Refer to Exhibit 3, Schedule B, page 2 of 2, Interest and Equity Computations. Explain why the percentages for interest and margins are not calculated on the same basis as Total O&M and A&G costs (as a percentage of average gross distribution plant).
3. Can you provide Exhibit 3 in Excel spreadsheet format with all formulas intact and unprotected and will all columns and rows accessible?

Responses can be e-mailed to me at this address.

If you have any questions, please give me a call at (502) 782-2626 or respond to this e-mail.

Thanks.

Daniel
