**RE: Business Solar Special Contract between Kentucky Utilities
Company and Maker's Mark Distillery, Inc.**

Dear Ms. Pinson:

Please accept for filing the attached special contract, styled as a Renewable Energy Agreement ("Agreement"), between Kentucky Utilities Company ("KU") and Maker's Mark Distillery, Inc. ("Maker's Mark") concerning a solar array to be installed as part of KU's Business Solar initiative.

The Agreement provides that KU will be responsible for installing a +/- 190 kW (DC)/180 kW (AC) solar array with a nominal capacity of about 190 kW DC on the Maker's Mark property at 6578 KY-52 in Loretto, KY. KU will own and maintain the solar array. The Agreement provides that for a 25-year term Maker's Mark will pay KU a fixed charge to cover the capital and operating expenses associated with the solar array, and will receive bill credits based on KU's Standard Rate Rider SQF for all energy the array produces. To clarify, Maker's Mark will continue to pay full tariffed rates for the service it receives from KU, but will receive bill credits related to the production of the solar array.

The Agreement is also structured to protect KU's other customers. The fixed charges are designed to ensure that all capital and operating costs will be recovered from Maker's Mark. The Agreement also provides that KU will retain ownership of all Renewable Energy Certificates resulting from the energy produced by the array.

KU respectfully asks the Commission to approve this special contract and permit it to become effective within 30 days. Please contact me if you have any questions concerning this special contract.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rick E. Lovekamp", with a stylized flourish at the end.

Rick E. Lovekamp
