*Re: Delta Natural Gas Company, Inc. / Morehead Plant Utility Board Transportation Agreement*

Dear Ms. Pinson:

Pursuant to 807 KAR 5:011, Section 13 and its Transportation of Gas for Others On System Utilization Tariff, Delta Natural Gas Company, Inc. ("Delta") encloses for filing and acceptance its Transportation Agreement with the Morehead Plant Utility Board ("Morehead").

Delta's Transportation of Gas for Others On System Utilization Tariff states that Delta may execute special transportation contracts with anyone after said contract has been filed and accepted by the Public Service Commission. The enclosed Agreement is the standard agreement that Delta utilizes for transportation customers, except that if Delta does not receive and transport a total volume of 73,000 Mcf after each twelve consecutive billing periods, Morehead shall pay Delta for the under-balanced transportation volume at Delta's then-effective rates for Interruptible Service.

The Agreement contains a minimum annual volume to ensure that the investment Delta is making to provide the transportation service is cost-effective and beneficial to Delta and its other customers. Delta has several other transportation agreements with similar minimum volume provisions that are on file with the Public Service Commission.

The Agreement is to become effective December 1, 2018. Delta kindly requests that the Public Service Commission accept this filing by stamping approval of same prior to that date.

Should you have any questions, please let us know.
