

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

ELECTRONIC PURCHASED GAS ADJUSTMENT)	CASE NO.
FILING OF ATMOS ENERGY CORPORATION)	2023-00414

ORDER

On December 28, 2023, Atmos Energy Corporation (Atmos) filed its Gas Cost Adjustment (GCA) to be effective February 1, 2024. Atmos's previous GCA rate was placed into effect in Case No. 2023-00307.¹

LEGAL STANDARD

The Commission's standard of review for GCA rates is well settled as stated in KRS 278.274(1):

In determining whether proposed natural gas utility rates are just and reasonable, the commission shall review the utility's gas purchasing practices. The commission may disallow any costs or rates which are deemed to result from imprudent purchasing practices on the part of the utility.

Further, the utility has the burden to prove the rates are just and reasonable and the Commission may reduce the purchased gas component of the utility's rates or the rates charged by an affiliated company to the extent the amount is deemed to be unjust or unreasonable.²

¹ Case No. 2023-00307, *Electronic Purchased Gas Adjustment Filing of Atmos Energy Corporation*. (Ky. PSC Oct. 30, 2023).

² KRS 278.274(2); KRS 278.274(3)(c); and KRS 278.274(3)(d).

DISCUSSION

After reviewing the record in this case and being otherwise sufficiently advised, the Commission finds that Atmos's report includes revised rates designed to pass on to its sales customers its expected change in wholesale gas costs. Atmos's Expected Gas Cost (EGC) for firm sales customers is \$4.2412 per Mcf, which is a decrease of \$0.6088 per Mcf from the previous EGC of \$4.8500 per Mcf. Atmos's EGC for interruptible sales customers is \$3.1140 per Mcf, which is a decrease of \$0.6380 per Mcf from the previous EGC of \$3.7520 per Mcf. Atmos's report sets out no Refund Factor. Atmos's report sets out a Performance-Based Rate Recovery (PBRR) Factor of \$0.1680 per Mcf, which is a decrease of \$0.0674 per Mcf from the previous PBRR of \$0.2354 per Mcf. Atmos's report sets out a Correction Factor (CF) of (\$0.8800) per Mcf, which is an increase of \$0.3342 per Mcf from its previous CF of (\$1.2142) per Mcf.

Based on the calculations above, the Commission finds that Atmos's GCA rates are \$3.5292 per Mcf for firm sales customers and \$2.4020 per Mcf for interruptible sales customers. The impact on firm sales customers is a decrease of \$0.3420 per Mcf from the previous GCA of \$3.8712 per Mcf. The impact on interruptible sales customers is a decrease of \$0.3712 per Mcf from the previous GCA of \$2.7732 per Mcf. The Commission further finds that the rates set forth in the Appendix to this Order are fair, just and reasonable and are approved for final meter readings by Atmos on and after February 1, 2024.

For the purpose of transparency and to maintain a record of information for future use, the Commission finds that Atmos shall submit all invoices it receives along with its monthly usage reports for each month of the reporting period when it files its future GCA

rate reports. Should Atmos purchase sustainable natural gas from a renewable source during the reporting period of any future GCA reports then the supplier, cost, and amount must be documented in its cover letter to the Commission.

IT IS THEREFORE ORDERED that:

1. The rates proposed by Atmos and set forth in the Appendix to this Order are approved for final meter readings on and after February 1, 2024.

2. Atmos shall submit all invoices it receives along with its monthly usage reports for each month of the reporting period when it files future GCA rate reports.

3. Within 20 days of the date of service of this Order, Atmos shall file with this Commission, using the Commission's electronic Tariff Filing System, revised tariff sheets setting out the rates approved herein and reflecting that they were approved pursuant to this Order.

4. This case is closed and removed from the Commission's docket.
