Subject: RE: KY-PSC Electronic Filing Center NotificationTFS2019-00290

Mr. Martin,

Staff has a couple of questions regarding the contract between Atmos and GenCanna Global USA. Please see below:

1. State whether GenCanna will be considered a commercial or industrial customer.
2. State whether the Weather Normalization Adjustment will apply to GenCanna.
3. Explain how Atmos will determine the annual gross margin. Provide a sample calculation.
4. Provide the estimated total and per foot cost of the extension.
5. State whether the extension is a distribution main extension or service line extension. If

the extension is a service line, confirm that Atmos will own, operate, and maintain the service line.

6. Explain why Atmos is not using the contribution in aid of construction approach for GenCanna's extension in excess of 100 feet.

7. State whether the distribution or transmission main that will service the GenCanna extension has adequate capacity to properly supply GenCanna's expected annual volumes. Provide any analysis that Atmos performed to determine the same.

Responses can be e-mailed back to me at this e-mail address.

If you have any questions, please give me a call at (502) 782-2626 or respond to this e-mail.

Thanks.

Daniel
