Re: *Graves County Water District*
Case No. 2025-00060

Dear Ms. Bridwell:

My letter of January 13, 2026 contained a typographical error. The fourth paragraph of the letter, which starts on the first page, should read:

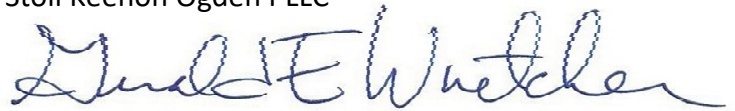

In its Order of December 23, 2025, the Commission asserts that the District failed to provide the required public notice of proposed revisions to its Meter Set/Tap-On Fees. The record and past Commission decisions do not support this assertion. The District did not propose revising its Meter Set/Tap-On Fees. Its application is silent on these fees. During discovery, Commission Staff requested information regarding the District's costs to make meter connections and then, in its report to the Commission recommended that the District's meter connection fees be increased.¹ In its Order of December 23, 2025, the Commission accepted these recommendations, finding that the Commission Staff-recommended fees "reflect[ed] the current expenses incurred to install new taps" and were necessary "to prevent an under-recovery" of the costs to provide such services. Order at 32. Based upon Commission Staff's recommendation, the Commission also ordered increases to several non-recurring charges that were not requested.²

Ms. Linda Bridwell, P.E.

The footnotes in the original letter remain unchanged.

Sincerely,

Stoll Keenon Ogden PLLC

A handwritten signature in blue ink, reading "Gerald E. Wuetcher". The signature is fluid and cursive, with the first name "Gerald" and last name "Wuetcher" clearly legible, and "E." as a middle initial.
