**STANDARD RATE – QF - Qualified Cogeneration/Small Power Production Facility Tariff – Over 100 KW**

[T]

**Availability:**

Available only to qualified cogeneration or small power production facilities with a design capacity of over 100 kW and less than or equal to 5 MW that have executed a contract with Big Rivers and the applicable Big Rivers Member Cooperative for service hereunder.

Pursuant to Federal Energy Regulatory Commission ("FERC") regulations 18 C.F.R. §§ 292.303(a), 292.309, and 292.310, Big Rivers is not obligated to purchase electric energy and/or capacity from qualifying cogeneration or small power production facilities with a net capacity of over five (5) MW.

Charges for the services under this tariff to any Member Cooperative for service to any member of the Member Cooperative with a qualifying cogeneration and/or small power production facility shall be established by contract.

**Applicability:**

A QF Member may sell to Big Rivers the output of its QF in excess of its own load requirements. That portion of the QF Member's load requirements not met by the QF shall be provided to the Member Cooperative under the terms and conditions of one or more of Big Rivers' standard rates applicable to the load requirements and type of service of the QF Member.

This tariff replaces Big Rivers' QFP and QFS tariffs, and this tariff shall be applicable in place of the QFP or QFS tariffs when such tariffs are referenced in other tariffs or contracts.
