Melody Weil, President
Combined Public Communications, Inc.
4271 Hanley Road
Cincinnati, Ohio 45247
Telephone: (513) 741-8237
Facsimile: (513) 741-0283
5. Combined Public Communications, Inc. has not provided service in Kentucky prior to filing this notice of intent. See notarized statement in Attachment 3.
6. Combined Public Communications, Inc. proposes to provide operator assisted services to inmates of confinement institutions throughout the state of Kentucky. All services will be offered twenty-four (24) hours per day, seven (7) days a week. Detailed information regarding these services along with proposed rates and charges are provided in the Company's tariff included as an attachment.

CPC provides correctional and confinement institutions with sophisticated premises equipment that permits inmates to make outgoing, collect-only calls without the assistance of a live operator. The company's systems provide a number of controls and restrictions that serve to reduce or eliminate fraudulent use of telephone systems. These restrictions also provide the correctional institution with increased control over the use of the telecommunications services by inmates of the institution.

CPC's telephone instruments are placed in detention areas such as cell blocks or day rooms. Each instrument is connected to a central control unit which restricts and controls calls placed by inmates. CPC's system and services allow inmates to remain in contact with family, friends and other associates while still providing facility administrators with the necessary control over inmate communications.

Automated collect-only calls may be placed by inmates within the confinement facility. These calls are routed over the facilities of the local exchange carrier serving the confinement facility and CPC's underlying carrier. CPC's system is designed so that only called parties who wish to accept the charges for a call are billed. Equipment utilized by the company requires a positive response from the called party before the connection is established and billing can begin.

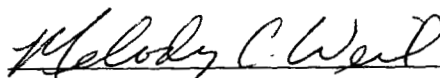

In addition to call processing, CPC's systems offer restrictive call blocking and screening. These features provide the correctional facility with the maximum degree of control over telecommunications services and help to minimize fraud. Call blocking prevents calls to directory assistance, "0-", 800 numbers, pay-per-call services, and emergency numbers (including 911) in order to reduce prank calls and fraudulent use of long distance services. Access to other interexchange carriers may also be denied. Call screening serves to eliminate harassing or threatening calls to individuals such as judges, sheriffs, witnesses or jury members. These two features also allow the institution to enforce telephone curfews (without manual intervention) by pre-setting the hours during which the system will process calls from a given telephone instrument.

CPC's system collects and stores call detail information for each call. These call records are retrieved by Applicant and either 1) billed through the called party's local exchange carrier under billing and collection agreements maintained by CPC's or 2) submitted for billing to the called party's local exchange carrier through CPC's' billing agent, Billing Concepts . For billing inquiries, customers may contact Billing Concepts. The number for Customer Service is printed on the bill and is 800-460-0756.

Calls billed through Billing Concepts appear on the called party's local exchange company bill. For billing inquiries, customers are initially directed to Billing Concepts whose toll-free number is printed on each customer bill. Billing Concepts is authorized to investigate complaints and adjust customer bills within certain parameters set by CPC. Should an inquiry exceed the authority delegated to Billing Concepts, the customer is referred to Applicant's in-house Customer Service Department for further assistance.

7. The proposed tariff of Combined Public Communications, Inc. are submitted to become effective 30 days after the date of this filing. See Attachment 4.

Signed:

Melody Weil, President
